

Environmental and social consideration and categorization report 2023

MUFG Bank (the “Bank”) discloses the numbers of the Project Finance transactions, the Project-Related Corporate Loans and the Project-Related Refinance (for Project Finance and Project-Related Corporate Loans) that achieved financial close in 2023 (from April 1, 2023 to December 31, 2023)*, and the number of the Project Finance Advisory Services where the Bank was mandated during the same period in “Environmental and social consideration and categorization report 2023” in accordance with the Equator Principles and the Bank’s Implementation Guidelines for the Equator Principles.

*Starting in 2024, reports under the Equator Principles must be conducted on a calendar year basis, from January to December. Previously, our bank has conducted its reporting/disclosure based on the fiscal year, which runs from April to March. To comply with the new requirements, we will be reporting/disclosing our 2023 results over a 9-month, from April to December, as a transitional measure.

The Bank categorizes the projects proposed for financing based on the magnitude of their potential environmental and social risks and impacts in accordance with the Bank’s Implementation Guidelines for the Equator Principles, referring to the International Finance Corporation (IFC)’s Performance Standards and World Bank Group Environmental, Health, and Safety Guidelines. Especially when assigning Category A to a project, the Bank categorizes the project in accordance with the definition of a Category A project in the Equator Principles referring as appropriate to other guidelines including OECD’s Common Approaches and relevant public institution’s guidelines.

Independent Practitioner's Assurance Report

To the President & CEO of MUFG Bank, Ltd.

We have undertaken a limited assurance engagement of the numbers of the project finance transactions, the project-related corporate loans and the project-related refinance (for project finance and project-related corporate loans) that achieved financial close from April 1, 2023 to December 31, 2023 indicated with (✓) for the year ended December 31, 2023 (the "Number of Transactions") included in the "Environmental and social consideration and categorization report 2023" (the "Report") of MUFG Bank, Ltd. (the "Company").

The Company's Responsibility

The Company is responsible for the preparation of the Number of Transactions in accordance with the Equator Principles and the Company's Implementation Guidelines for the Equator Principles adopted by the Company (the "Standards Adopted by the Company").

Our Independence and Quality Management

We have complied with the independence and other ethical requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior. We apply International Standard on Quality Management 1, *Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements*, and accordingly maintain a comprehensive system of quality management including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our Responsibility

Our responsibility is to express a limited assurance conclusion on the Number of Transactions based on the procedures we have performed and the evidence we have obtained. We conducted our limited assurance engagement in accordance with the International Standard on Assurance Engagements ("ISAE") 3000, *Assurance Engagements Other than Audits or Reviews of Historical Financial Information*, issued by the International Auditing and Assurance Standards Board ("IAASB").

The procedures we performed were based on our professional judgment and included inquiries, inspection of documents, analytical procedures, evaluating the appropriateness of quantification methods and reporting policies, and agreeing or reconciling with underlying records. These procedures also included the followings:

- Interviewing responsible officials of the Company with regards to the application of the Equator Principles
- Performing inquiries and inspecting documentary evidence regarding the implementation of internal controls over the Number of Transactions.
- Checking documentary evidence on a sample basis and recalculating based on the Number of Transactions to assess the completeness of data, data collecting methods, and the source data.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had we performed a reasonable assurance engagement.

Limited Assurance Conclusion

Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the Number of Transactions is not prepared, in all material respects, in accordance with the Standards Adopted by the Company.
