Committed to empowering a brighter future.

MUFG Sustainability Report 2021

Mitsubishi UFJ Financial Group
Editorial Policy

MUFG published the MUFG Sustainability Report 2021 to improve understanding on the company’s commitment to sustainability, in order to achieve a sustainable environment and society and to help the group achieve sustainable growth. For all of our stakeholders, we explain the sustainability initiatives we implement throughout our operations based on “MUFG Way” and Code of Conduct. In publishing the report, we consider both the importance to society and the importance to MUFG, with reference to the GRI Standards and the UN Global Compact. Please refer to our website, along with the MUFG Report 2021 (JGAAP) for more information on our sustainable value creation mechanism and financial data.

Scope of Reporting

In principle, this report covers major 6 companies:

- Mitsubishi UFJ Financial Group
- MUFG Bank
- Mitsubishi UFJ Trust and Banking
- Mitsubishi UFJ Morgan Stanley Securities
- Mitsubishi UFJ NICOS
- ACOM

Period Subject to Reporting

FY2020 (April 1, 2020 to March 31, 2021)
(Includes some information from FY2021)

Reference Guidelines

- GRI Standard
- UN Global Compact
- ISO 26000: Guidance on social responsibility
- SASB (Sustainability Accounting Standards Board)
- Environmental Reporting Guidelines (2018), Ministry of the Environment
- SDGs Compass
- Recommendations of TCFD

MUFG's Approach to Sustainability

MUFG's Sustainability Management

With the conviction that environmental and social sustainability are essential to achieving sustainable growth for MUFG, we will engage in value creation employing an integrated approach in which the execution of management strategies goes in tandem with the pursuit of solutions for social issues.

MUFG Way and Code of Conduct

MUFG Way

MUFG Way serves as the basic policy in conducting our business activities, and provides guidelines for all group activities. MUFG Way also is the foundation for management decisions, including the formulation of management strategies and management plans, and serves as the core value for all employees. Our Purpose, "Committed to empowering a brighter future," expresses our determination to help all our stakeholders take the next step forward. It is our view that our Purpose, as the starting point for all business activities, gives direction and force to the strategies included in our Medium-term Business Plan, allowing us to contribute further to realizing a sustainable society.

Code of Conduct

The Code of Conduct encapsulates the standards that guide employees' conduct and decision-making in our day-to-day business activities under the MUFG Way. The Code of Conduct is organized into three chapters.

- Chapter 1 Customer Focus
- Chapter 2 Responsibility as a Corporate Citizen
- Chapter 3 Attitudes and Behaviors in the Workplace

Overall of MUFG's Sustainability Management

Positioning in the Medium-term Business Plan

MUFG strives to thoroughly address the issues of all stakeholders, including society and clients, and works to solve the issues in order to stay true to the purpose of MUFG to be committed to empowering a brighter future. In the medium-term business plan that started this fiscal year, we set our target to become The premier business partner that pioneers the future through the power of finance and digital services and placed sustainability management as one of three themes for change along with digitalization and speed and new challenges, which is the state we aim to achieve in three years. We will promote business strategies, risk management, and social contribution activities starting with our ten environmental and social issues that we will work on as our priorities to contribute to solving the environmental and social issues.

Details on our code of conduct are available on our websites. (https://www.mufg.jp/english/profile/governance/ethics/)

- Please refer to "Promotion of Sustainability (P.11)" and "Approach to Priority Issues (P.17)" for details.

Overall of MUFG's Sustainability Management

Committed to empowering a brighter future.

- Contribute to the realization of sustainable "people, society and global environment" -

MUFG’s Sustainability Management

With the conviction that environmental and social sustainability are essential to achieving sustainable growth for MUFG, we will engage in value creation employing an integrated approach in which the execution of management strategies goes in tandem with the pursuit of solutions for social issues.
The red ball pops out from the MUFG logo rolls vigorously forward, activating various resources and prompting actions. A bridge is built where there was none. Windmills start to spin and solar panels spring up, generating natural energy. Greenery flourishes as trees are planted, attracting a variety of organisms, including insects and animals.

These scenes are all part of “Adventures of a Red Ball - MUFG Soul Movie” released in June 2021. In this video, the “red ball” of MUFG continues to roll forward with resolve, choosing “change” over “stay” even when it’s the difficult choice - all the while representing the “soul” of our company.

We created this video because we believe it is also important to communicate our thoughts and values on sustainability to society in an easy-to-appreciate manner. “Adventures of a Red Ball” will continue to roll on toward a sustainable environment for all of society.

We ask for your continued understanding and support.

Thoughts reflected in “Adventures of a Red Ball”

Hello, I am Kamezawa, the Group CEO.

First and foremost, I want to express my heartfelt sympathy to everyone affected by the COVID-19 pandemic, and my grateful respect to all the healthcare professionals and frontline workers working to care for individuals and protect society.

In April 2021, MUFG defined our purpose - crystallizing our thinking on why we exist - as being “Committed to empowering a brighter future.” We launched a new Medium-term business plan with that purpose as a driving force, and with an invigorated emphasis on resolving environmental and social issues. This stance recognizes that MUFG can grow only if society is sustainable, and pledges our utmost to help all MUFG stakeholders move forward - including our customers and partners, local communities and society, future generations, and MUFG employees.

Concerns such as climate change, the aging population and low birthrate, and ripple effects of the digital shift in society, are forcing major shifts in the lives of people and activities of companies around the world. As trends including the green shift and digitalization continue to accelerate, stakeholders have high expectations for MUFG’s ability to provide safe and reliable next-generation financial services to society. By wisely interpreting societal shifts and viewing environmental and social solutions as an opportunity to grow, MUFG aims to lead the way in sustainability initiatives.

We announced the MUFG Carbon Neutrality Declaration with the intent of helping address climate change, one of humanity’s most-important challenges, and we have reinvigorated various existing MUFG efforts and placed them within the purview of this declaration, alongside any new initiatives we launch in the future. We have also expressed our strong commitment to help achieve the goals of the Paris Agreement, through both internal and external efforts. To achieve net-zero greenhouse gas emissions from our investment and loan portfolio by 2050 and net-zero greenhouse gas emissions from our own operations by 2030, we support transition and green-innovation initiatives that drive toward a carbon-free society - initiatives that also lead to our own growth.

Through sustainability management, we will grow recognition among our colleagues that their work is supporting the planet and society at large, and provide genuine initiative to attack their daily work with pride. We urge each and every one of our colleagues to embody MUFG’s purpose, “Committed to empowering a brighter future” and to share thoughts on this with their colleagues and managers, while asking how they can help our customers and support society’s health.

By systematically encouraging this dialogue, we wish to imbue a shared sense of devotion to customers and society throughout our organization, and provide a pure motivating force for all our strategies.

We urge each and every one of our colleagues to embody MUFG’s purpose, “Committed to empowering a brighter future” and to share thoughts on this with their colleagues and managers, while asking how they can help our customers and support society’s health.

By systematically encouraging this dialogue, we wish to imbue a shared sense of devotion to customers and society throughout our organization, and provide a pure motivating force for all our strategies.

While fostering a culture where employees of diverse generations, genders, nationalities, cultures, and values can freely express their opinions, we wish to contribute to building a sustainable environment and a healthy society, on a Group and global basis.

We ask for your continued understanding and support.

President and Group CEO

MUFG will do its utmost to help all of its stakeholders move on and move forward.

Message from the CEO

Committed to empowering a brighter future.

MUFG will do its utmost to help all of its stakeholders move on and move forward.
Sustainability Update

**Purpose**
The purpose was set with the determination to empower all stakeholders to advance to the next stage.

**Committed to Empowering a Brighter Future.**

**Review of Priority Issues**
**Ten issues to be prioritized by MUFG are identified.**

**Cumulative Origination Volume of Renewable Energy Project Finance**
**Active promotion of renewable energy as a prioritized support area**

**CO₂ Reduction Target**
Establishment of a CO₂ reduction target to be achieved through financing renewable energy projects

**Industry-Academia Collaboration with The University of Tokyo**
Research on decarbonization pathways and the role of finance in their realization

**Contribution to the Realization of a Decarbonized Society**
Net-zero GHG emissions from the investment and loan portfolio by 2050, and net-zero GHG emissions from MUFG itself by 2030

**Participation in Initiatives**
Enhancement of our response to climate change and proactive dissemination of information and opinions as a financial institution mainly based in Japan and Asia

**MUFG Carbon Neutrality Declaration**
**NZBA, PCAF**

**Revision of the MUFG Environmental and Social Policy Framework**
Periodic reviews of the policy framework in response to changes in business activities and the business environment to materialize environmental and social considerations

**Promotion of Responsible Investment**
Minister of the Environment Award 2020, which recognizes the year’s best practice in sustainable investment, hosted by Principles for Financial Action for the 21st Century

**Switching 100% of the Electricity Consumed by MUFG to Renewable Energies**
Stimulation of the trading market by purchasing the Non-Fossil Fuel Certificate, and promotion of the use of renewable energy sources

**Stricter reviewing**
(Coal-fired power generation, forest and palm oil sectors)

**Target Ratio of Female Management in Japan**
Reflecting diverse perspectives and values in areas closer to management

**Social Contribution Activity Expenses**
Donations and volunteering in areas where it is difficult to contribute through financial services and where there is a real need for society

**Cumulative Execution Amount of Sustainable Finance**
Proactive support for resolving environmental and social issues

**Executive Compensation Evaluation Index**
Revision of the executive compensation system to achieve the new medium-term business plan and carry out sustainability management

**Target CO₂ Reduction**
Establishment of a CO₂ reduction target to be achieved through financing renewable energy projects

**Raising the Target of Sustainable Financing**
Reinforcement of support for solving environmental and social issues and for economic development

**MUFG Carbon Neutrality Declaration**
100% (For the electricity contracted to be used at bank branches in Japan)

**Cumulative Origination Volume of Renewable Energy Project Finance**
46 billion USD (Cumulative from FY 2010)

**Executive Compensation Evaluation Index**
Details: P.60, P.73

**Social Contribution Activity Expenses**
Details: P.116

**Stricter reviewing**
Details: P.70

**Executive Compensation Evaluation Index**
Details: P.25, P.87

**Social Contribution Activity Expenses**
Details: P.55, P.116

**Cumulative Origination Volume of Renewable Energy Project Finance**
70 million tons (Cumulative from FY 2010)

**Executive Compensation Evaluation Index**
Details: P.140

**Social Contribution Activity Expenses**
Details: P.60, P.73

**Target CO₂ Reduction**
70 million tons (Cumulative from FY 2010)

**Executive Compensation Evaluation Index**
Details: P.55, P.116

**Social Contribution Activity Expenses**
Details: P.106

**Cumulative Origination Volume of Renewable Energy Project Finance**
9.16 billion yen

**Executive Compensation Evaluation Index**
Details: P.60, P.73

**Social Contribution Activity Expenses**
Details: P.116

**Cumulative Origination Volume of Renewable Energy Project Finance**
7.9 trillion yen (Cumulative from FY 2019)

**Executive Compensation Evaluation Index**
Details: P.25, P.87

**Social Contribution Activity Expenses**
Details: P.55, P.116

**Cumulative Origination Volume of Renewable Energy Project Finance**
18.0% (Cumulative from FY 2010)

**Executive Compensation Evaluation Index**
Details: P.60, P.73

**Social Contribution Activity Expenses**
Details: P.116

**Cumulative Origination Volume of Renewable Energy Project Finance**
35 trillion yen (Cumulative from FY 2019)

**Executive Compensation Evaluation Index**
Details: P.25, P.87

**Social Contribution Activity Expenses**
Details: P.55, P.116
MUFG is committed to tackling climate change, one of the most serious issues facing the world, and will therefore develop specific action plans based on its purpose, which is being “Commitment to empowering a brighter future.” In order to align with the goals of the Paris Agreement, MUFG will support the smooth transition to a decarbonized society through its financial services and proactively contribute to creating a sustainable society by fostering a virtuous cycle between the environment and economy.

**What we have done so far**

- Set targets to align with the goals of Paris Agreement, and expand and improve transparency of information disclosure
- Promote Decarbonization via MUFG’s Own Efforts
  - Reduce MUFG’s impact on the environment
  - Leverage on a framework which contributes a certain percentage of profit to CSR activities
  - Shift to 100% renewable energy for procured electricity
  - Launch renewable energy fund
  - Generate demand for next generation energy
  - Work on carbon offsets (afforestation, etc.)

**Set targets for 2030 by FY 2022**

**Current MTB period**

- 2005: Adopted Equator Principles (the Bank)
- 2006: Signed Principles for Responsible Investment (the Trust Bank)
- 2017: Declared support for TCFD

**Future target**

- 2020: Established Chief Sustainability Officer
- 2019: Set target for Sustainable Finance Goal (¥20tn)
- 2018: Originated sustainability-linked loans (the Bank)
- 2019: Signed Principles for Responsible Banking
- 2020: Established the MUFG AM Responsible Investment Policy
- 2021: Declared support for TCFD (The Trust Bank)

**Roadmap for achieving carbon neutrality**

- **2021**
  - What we have done so far
  - Established MUFG Environmental Policy Statement
  - Established MUFG Environmental Social Policy Framework
  - Established Chief Sustainability Officer
  - Increased the target for Sustainable Finance Goal (¥35tn)
  - Joined to NZBA, PCAF
  - Established MUFG AM Responsible Investment Policy
  - Declared support for TCFD (The Trust Bank)

- **2022 / 3**
  - Promote Decarbonization via MUFG’s Own Efforts
  - Shift to 100% renewable energy for procured electricity
  - Launch renewable energy fund
  - Generate demand for next generation energy
  - Work on carbon offsets (afforestation, etc.)

- **2023 / 3**
  - Enhance the Organization to Achieve Carbon Neutrality
  - Reflect ESG elements to the executive compensation
  - Govern policy statements by the Board of Directors
  - Group global project teams
  - Enhance external relationships and promotes the usage of external knowledge
  - Strengthen and developing professional talents

- **2024 / 3**
  - Reduce credit balance for coal-fired power-related project finance
  - Domestic offices and branches*1 which use renewable energy

- **2030**
  - Progress on net zero in MUFG’s own operation

- **2040 / 2050**
  - Achieve net zero

Sustainability Promotion Structure

Under the supervision of the Board of Directors, MUFJ has established a system to promote sustainability centered on the Sustainability Committee. This committee is chaired by the Group Chief Sustainability Officer (CSuO), who is a member of the Board of Directors and is responsible for all sustainability initiatives. The CSuO also serves as the Group Chief Strategy Officer (CSO) in charge of corporate planning and strategy. In principle, MUFJ convenes the Sustainability Committee at least once a year to check and discuss the status of sustainability initiatives and to report the contents to the Executive Committee and the Board of Directors, which supervise the Committee. In addition, two external advisors have been invited to provide expert opinions on sustainability issues and risks at any time. These advisors exchange opinions with the members of the Board of Directors and provide advice and recommendations from their professional standpoints on MUFJ’s sustainability initiatives.

Roles of Each Position and Department

- **Group Chief Sustainability Officer (CSUO)**
  Promotes the realization of sustainability and is responsible for its initiatives. The Group CSO, a member of the Board of Directors, becomes the CSUO.

- **External advisor**
  The external advisor regularly exchanges views with the management in order to make use of external knowledge for sustainability management.

- **Sustainability Office, Corporate Planning Division**
  The Sustainability Office is responsible for the planning and development of sustainability management and accelerating sustainability management throughout the company.

- **Sustainable Business Division**
  The Sustainable Business Division is an organization dedicated to the promotion of sustainable finance. As a portal-hub for MUFJ, this team accumulate information related to sustainable business globally and support customers’ sustainable growth through providing information and solutions.
Stakeholder Engagement

- Empower All Stakeholders to Move to the Next Step Forward -

In these rapidly changing times, our stakeholders are overcoming challenges to find a way to the next stage, toward sustainable growth. We at MUFG will make every effort to help realize these goals. This will be our unchanging purpose now, and into the future. MUFG will continue to actively engage in constructive dialogues with stakeholders in order to gather new insights and deepen mutual understanding. We strive to build a relationship of trust and cooperation with our stakeholders by responding appropriately to their concerns and issues, and to help MUFG achieve sustainable growth and enhance its corporate value over the medium to long term.

Through new services that utilize digital technology, we will help everyone realize a prosperous life that is uniquely their own.

**[FY 2020 achievements]**
- Promotion of sustainable financing
- Response to climate change
- Support for future generations through donations
- Participation in various initiatives

For the sake of future generations, we aim to create a world in which people and the Earth coexist in harmony. We will proactively take action for the empowerment of future generations.

**[FY 2020 achievements]**
- Promotion of sustainable financing
- Response to climate change
- Support for future generations through donations
- Participation in various initiatives

While respecting the individuality of each employee, we will help the colleagues at MUFG by creating a workplace where diverse human resources can demonstrate their abilities and grow.

**[FY 2020 achievements]**
- Hold town hall meetings attended by top management members. Around 100 occasions with a total attendance of approximately 60,000 employees at home and abroad.
- Increased the number of satellite offices to 33.
- Ratio of headquarters employees who work from home 55% (as of March 31, 2021)

We will meet expectations through highly transparent disclosure, constructive dialogue, and by incorporating the opinions gained through such actions into management and reflecting them in management strategies.

**[FY 2020 achievements]**
- Number of attendees at the General Meeting of Shareholders 209 (a total of 1,014 shareholders watched the meeting online)
- Number of presentation meetings held for institutional investors and analysts 8
- Number of individual meetings with institutional investors 245 (117 meetings with overseas investors)
- Number of online seminars held for individual investors 3 (a cumulative total of 1,702 viewers)

Being an active member of local communities and strengthening ties with them gives us the ability to solve a wide variety of social issues.

**[FY 2020 achievements]**
- Number of dialogues held with NPO/NGO 23
- Social Contribution Activities

distribute Information and Having Dialogues with Stakeholders

MUFG’s Business Strategy Seminar, “MUFG’s Sustainability Management: Initiatives for Climate Change” was Held!

A climate change seminar for investors was held online on June 3, 2021. At the seminar, CSO Tatsuo Nishigaoka gave a presentation on “MUFG’s Sustainability Management” and “MUFG Carbon Neutrality Declaration”. General Manager Kato, the head of the Sustainability Business Division gave a presentation on “Sustainable Business”, followed by a Q&A session.

During the Q&A session, participants engaged in a lively discussion on such topics as the MUFG Environmental and Social Policy Framework, setting targets for net-zero greenhouse gas emissions, and the profitability of sustainable business.

The participants gave positive feedback, “The seminar was highly satisfactory as the speakers provided thorough and sincere answers,” I was able to understand well about the efforts against climate change”, and “I felt the strong commitment to achieve carbon neutrality”.

On February 12, 2021, Sustainable Business Day, an event for our customers, was held online.

The event was a great success with the participation of more than 600 customers, mainly from business corporations, investors, local governments, and financial institutions, as the event introduced global trends and advanced examples with ESG finance and transitions as keywords.

Through this event, we recognized the importance of supporting our customers’ efforts towards decarbonization. MUFG is committed to supporting our customers’ sustainability transitions and innovation through engagements, and to provide financial support for business development.

ESG Seminar was Held in Singapore

The theme of the seminar was “ESG Trends of Investors and Corporations - Supporting a Sustainable Society Through Finance”. Over 130 customers of the Corporate Sales Division in Singapore participated in the seminar. The seminar introduced the latest trends in ESG management and sustainable finance, MUFG’s support system, ESG trends in Asia and Oceania, and MUFG’s initiatives. We received comments, such as “I was able to understand how financial institutions and investors view ESG management”, and “I was able to learn the specific framework of sustainable finance”.

As a financial institution, we will continue to contribute to the ESG management of our customers in Singapore, which as a nation is aiming to become the hub of green finance.
MUFG aims to be an organization in which each employee thinks autonomously and spontaneously, takes ownership of his or her role in the team, and takes action and challenges.

To this end, we deem it essential to foster an open-minded and speed-oriented corporate culture. We consider such a culture a key component supporting a management approach focused on enabling employees to earn tangible successes in the course of their daily operations and take pride in their duties while pursuing personal happiness and their dreams for the future.

Putting this approach into practice, we promote various engagement initiatives, such as online town hall meetings aimed at facilitating interaction between top management members and employees of Group companies and dialogue sessions between external business leaders and the Group CEO, with employees participating. We also support voluntary social contribution activities planned and undertaken by employees.

Moreover, we implement measures aimed at facilitating workplace communications while providing training to help enhance employees' sense of ownership about the MUFG Way, which has been newly established, as well as MUFG Group Code of Conduct, which we update annually.

The outcomes of these measures are confirmed via the annual Group Awareness and Engagement Survey and other feedback and reported to the Board of Directors. The fiscal 2020 round of such survey targeted approximately 103,000 employees, with the ratio of respondents totaling 93%. We also implement improvement measures to address issues identified in the course of this survey.

**Town Hall Meetings with Top Management**

For us to enhance employees' sense of engagement, it is essential to win their empathy toward management. Accordingly, we proactively hold town hall meetings to directly communicate management visions to employees, a practice that also helps our corporate leaders acquire new insights from the open exchange of ideas with employees.

In fiscal 2020, our town hall meetings were attended by a cumulative total of approximately 60,000 employees at home and abroad. We also host special town hall meetings for female employees to address such issues as how to strike a balance between career development and family duties.

Over 30,000 participants!

All Employees x All Executives Town Hall Meeting

From January to February 2021, an online town hall meeting was held for the bank’s approximately 30,000 domestic employees.

Seventy-six executives from all over Japan directly communicated “what management is thinking now,” as well as shared their perceptions and thoughts on daily issues faced by employees. By using a real-time questionnaire, participants were able to ask questions and express their opinions on the spot, and executives were able to check participants’ responses to their own answers, resulting in a lively two-way communication.

Participants said, “Knowing what the executives are thinking at the moment brought us closer together”, and “The online approach made it easy to participate, and the questions and opinions of other employees were stimulating.”

**“Finance of Tomorrow” Initiative**

Amid the COVID-19 pandemic, our society is undergoing everfaster changes in work styles, lifestyles and educational methods. Given these changes, banks are being called upon to update their modes of financial services with regard to government subsidies and grants in addition to being expected to extend loans to an even broader range of borrowers, including SMEs and freelance workers. With this in mind, we launched the “Finance of Tomorrow” initiative in which the Group CEO and young employees pay visits to and engage in dialogue with external individuals who are successful in various fields to encourage each employee to think about the future of finance from their own standpoints. These interactions are helping them reflect on for whom financial services exist, what is required of MUFG now and what they can do to support it.

*The digest version can be viewed on YouTube! (https://youtube.com/playlist?list=PLlP9DsBjIgps8RcKZxbelAv77h7xwQp0)*

**“Straight-Talking” Roundtable with Group CEO**

We hold “Straight-Talking” roundtable events in which employees engage in discussion with the Group CEO. Ten individuals have been selected from business units across the Group to join in such discussions and exchange ideas with the Group CEO. The events were held over the course of four months and focused on deliberating on the business model the Group must create, the value it must deliver via financial services and other themes proposed by these individuals with a sense of ownership about the future of MUFG. In these ways, all attendees take an in-depth look into what MUFG must evolve into in the future and how it should effect change. We have thus helped individuals with diverse backgrounds acquire a shared understanding of and fresh insights into issues they are currently confronting regardless of their age, Group entity they belong to or type of operations they handle.

Furthermore, all these employees were able to refresh their understanding of the need to take autonomous and spontaneous action to change the organization. In addition, the final round of these events closed with the presentation of a collective recommendation from the 10 employees to the Group CEO. Looking ahead, all 10 of these employees will spearhead projects they themselves have proposed in an effort to create an even more attractive company.

### Priority Environmental and Social Issues MUFG Must Address

#### Process for Identifying 10 Priority Issues

We have defined 10 priority issues that must be tackled to help achieve environmental and social sustainability in light of our newly established Purpose, “Committed to empowering a brighter future,” with an eye to better fulfilling society’s expectations in areas where MUFG's capabilities can be brought to bear.

1. **Assessing a broad range of environmental and social issues**
   - Identified 218 issues by assessing environmental and social issues at home and abroad with reference to the United Nations Sustainable Development Goals (SDGs), stakeholder feedback regarding ESG issues and the requirements set out in the various guidelines listed below.
   - GRI Standards, United Nations Global Compact, SASB Standards, ISO26000, UN Department of Economic and Social Affairs (After COVID-19), Issues selected by the Cabinet Office, The previous 7 priority issues specified by MUFG, etc.

2. **Integrating and narrowing-down**
   - Integrated the 218 issues into the 123 issues based on duplications or similarities, with the Sustainability Office undertaking the primary screening.

3. **Extracting**
   - Identified 12 major issues based on employee feedback gleaned via questionnaires and interviews.
   - Items included in questionnaires or asked at interviews:
     - Issues respondents are currently addressing or willing to address through their business duties
     - Issues respondents think that are addressed by companies considered to be good corporate citizens

4. **Deliberation and determination**
   - Determined the 10 priority issues after multiple rounds of management discussion that took into account the opinions of external advisors, input from outside directors and the global trend toward sustainability, with an eye to better fulfilling society’s expectations in areas where MUFG’s capabilities can be brought to bear.

### Priority Environmental and Social Issues

- Climate Change Measures & Environmental Protection
- Response to Aging Population & Low Birthrate
- Inclusion & Diversity
- Developing Social Infrastructure
- Supporting Industrial Development & Innovation
- Response to Poverty
- Reduction of Educational Disparities
- Ensuring Equal Access to Financial Services
- Promoting Workstyle Reforms
- Overcoming Threats to Health

#### Items Included in Questionnaires or Asked at Interviews
- Issues respondents are currently addressing or willing to address through their business duties
- Issues respondents think that are addressed by companies considered to be good corporate citizens

#### GRI Standards
- United Nations Sustainable Development Goals (SDGs)
- Stakeholder feedback regarding ESG issues
- Requirements set out in various guidelines: GRI Standards, United Nations Global Compact, SASB Standards, ISO26000, UN Department of Economic and Social Affairs (After COVID-19), Issues selected by the Cabinet Office, The previous 7 priority issues specified by MUFG, etc.
MUFG recognizes that addressing climate change and environmental conservation is one of the most important management issues. We will respond to them by regarding them as business opportunities and risk management.

In order to support economic development through a virtuous cycle between the environment and the economy, we are promoting renewable energy, hydrogen and next-generation energy, and carbon recycling as priority fields.

In order to support economic development through a virtuous cycle between the environment and the economy, we are promoting renewable energy, hydrogen and next-generation energy, and carbon recycling as priority fields.

**Climate Change Measures & Environmental Protection**

- **Toward a Carbon Neutrality**

MUFG recognizes that addressing climate change and environmental conservation is one of the most important management issues. We will respond to them by regarding them as business opportunities and risk management.

In order to support economic development through a virtuous cycle between the environment and the economy, we are promoting renewable energy, hydrogen and next-generation energy, and carbon recycling as priority fields.

**Promotion of responsible investment**

- Received the Minister of the Environment Award (General Department)
  - Minister of the Environment Award 2020, which recognize the year's best practice in sustainable investment, hosted by Principles for Financial Action for the 21st Century

**Green bond underwriting**

- **Volume/Market share No.1 in the Japanese domestic market**

**Amount of CO₂ emissions from MUFG's own operations**

- **Net zero in 2030**
- **100% renewable energy**

**MUFG recognition**

- The ongoing trend toward decarbonization is expected to result in major changes in global industrial structure, which, in turn, will position MUFG and its customers to face both risks and new development opportunities. For growth, it is important to ensure smooth transition to a decarbonized society and a virtuous cycle of environmental and economic improvement in order to realize a sustainable society.

**Main initiatives**

- Carry out investment and financing to support climate transition and innovation aimed at realizing a decarbonized society (focus on financing renewable energy, hydrogen and next-generation energy and carbon recycling technologies).

- Provide ESG-related investment products while promoting proprietary ESG investment.

- Classify climate change-related risks as Top Risks in the course of integrated risk management.

- Regularly review the MUFG Environmental and Social Policy Framework and tighten its policy for financing options offered by power companies and the purchase of non-fossil certificates.

- Create renewable energy via the launch of a renewable energy fund and purchase such energy.

- **Support for Renewable Energy Projects**

  **Dogger Bank Offshore Wind Power Project**

  - Supplying approximately 5% of the UK's electricity demand
  - Total finance amount **Approx. 766.3 billion yen** (5.5 billion GBP)
  - Supplying approximately 5% of the total electricity demand in UK (equivalent of approximately 160,000 households)
  - Awarded in Project Finance International, the world’s leading trade magazine

  **Contribution to offshore wind farm projects**

  - Involved in structuring the world’s first project finance for an offshore wind farm in 2005
  - Provided financing for 41 projects in Japan and overseas as a leading bank

  **Al Dhafra Solar Project, United Arab Emirates**

  - Construction of a solar power plant with the world’s largest-capacity
  - Total finance amount **Approximately 98.1 billion yen** (approx. 880 million dollars)
  - A construction period bridge finance for a project with a premise of issuing a project bond for the first time in the Middle East
  - The world’s largest-capacity solar power plant
  - Awarded in Project Finance International, the world’s leading trade magazine

**Supported Funds for the Construction of Hydrogen Stations in California, USA**

- The world’s largest market for fuel cell vehicles
- Bank’s first loan provided specifically for hydrogen-related businesses
- Financial contribution to the expansion of the hydrogen supply infrastructure

**Funding for Japanese Biotech Venture Aiming to Commercialize Oil-Free / Animal-Free Sustainable Material**

- Provided finance for a biotech venture Spiber
- Developer and manufacturer of Brewed Protein™, a next-generation protein material
- Arrangement of financing through market value securitization scheme

**Supporting Clients’ Transition Strategies**

**Underwriting Inaugural Transition Bonds in Japan**

- The Nippon Yusen Kaisya (NYK) issued the first Transition Bonds
- The world’s largest-capacity solar power plant
- Awarded in Project Finance International, the world’s leading trade magazine

**Transition bonds are...**

Bonds used to invest in projects that are consistent with a company’s long-term transition strategy to reduce greenhouse gas emissions.
Investment in a Fund for Climate Change Mitigation Infrastructure in Emerging Countries
- The Fund has Public and Private Sector Partners and is Managed by BlackRock
  - Energy demand to grow in emerging countries
  - Construction of infrastructure for climate change mitigation to reduce CO2 emissions is critically needed
  - Creation of positive environmental and social impact through public-private collaboration
  - Involved in monitoring and evaluation of environmental and social impact

Switching 100% of the Electricity Consumed by MUFG to Renewable Energies
Initiatives of the Bank, the Trust Bank and the Securities (offices in Japan)
- Taking the initiative in switching 100% of the electricity consumed by MUFG to renewable energies
- Stimulation of the trading market by using Non-Fossil Certificate* and promotion of the use of renewable energy
- The bank has already switched to 100% renewable energy in practical terms in June 2021
- Reduction of approximately 100,000 tons of CO2 annually
  * A system that extracts the non-fossil value of electricity generated from non-fossil power sources and makes it possible to buy and sell it using certificates

Launch of a Renewable Energy Fund
- Realization of switching 100% of electricity consumed by MUFG to renewable energy, revitalization of the Japanese renewable energy market and creation of business opportunities
- An integrated approach of not only generating renewable energy, but also using generated energy for procurement of renewable energy by participating companies
- Utilize expertise in project finance, including asset sourcing and financing arrangements, as well as the know-how of partners in electricity retailing and other businesses
- Expand the scale and investment target assets to provide renewable energy for companies other than MUFG

Participation in Various Initiatives
First Company in Japan! Joined the Net-Zero Banking Alliance (NZBA)
- Selected as a bank to join the steering members of the Asian National Bank
  - Initiative of banks committed to achieving net-zero GHG emissions in their investment portfolios by 2050 (established by UNEP-FI in April 2021)
  - Contribution to efforts to achieve net-zero GHG emissions on a global basis
  - Active dissemination of information and opinions as a financial institution with its main base in Japan and Asia
  - The only Japanese bank to participate in the Glasgow Financial Alliance for Net Zero (GFANZ) working group
  - Related: Participation in initiatives (P133)

Partnership for Carbon Accounting Financials (PCAF)
- PCAF is a global initiative with the aspiration to standardize the measurement and disclosure of financed emissions
- MUFG will leverage the knowledge and database available in PCAF
- MUFG will also contribute to the worldwide adoption of the measurement and disclosure of GHG emissions in collaboration with financial institutions participating in PCAF
  - Related: Participation in initiatives (P133)

Industry-Academia Partnership with the University of Tokyo
- Research on Decarbonization Pathways and the Role of Finance in their Realization
  - Donation of 300 million yen in total for the research activities of the Global Commons Center established by the University of Tokyo, which aims to establish a stable management framework for the Earth system, a common foundation for human prosperity
  - Implementation of joint research to be conducted between MUFG and the University of Tokyo on pathways to decarbonization in Japan and the role of finance in their realization
  - Details: Social contribution activity (P111)

Support for the First Project in Osaka to Promote the Use of Fuel Cell Buses that Use Hydrogen as Fuel
- Supporting the Osaka prefectural government’s subsidy project for the hosting of the Osaka-Kansai World Expo scheduled for 2025 by utilizing the corporate version of the Hometown Tax Donation system
  - Donated a total of 53.25 million yen
  - Contributed to the purchase of two fuel cell buses and the construction of a hydrogen supply chain
  - Details: Social contribution activity (P111)
Response to Aging Population & Low Birthrate

- Supporting the 100-Year Life Span Era -

MUFG uses its outstanding consulting capabilities to respond to diverse needs, such as asset formation and smooth business succession, in preparation for the 100-year life span era. MUFG also supports the healthy growth of children, who will be the leaders of the next generation, through a variety of social contribution activities, including financial and economic education to improve financial literacy, donations to child support groups, and volunteer activities.

MUFG’s recognition

- Offer support for customer efforts to prepare for the coming era of centenarians via, for example, the provision of asset building solutions and investment education
- Assist in the smooth succession of businesses and assets by taking advantage of functions offered by Group companies and a network afforded via external partners
- Develop products and services finely tuned to the needs of an aging society while providing digital-driven services
- Via donations and other measures, proactively assist the next generation of leaders by supporting students and other young people

Opportunities & Risks: Opportunities and risks

Financial gerontology initiatives

* A field of study that examines the effects of age-related changes in physical and cognitive abilities on economic activity and financial behavior. In April 2019, the Trust Bank established the Japan Financial Gerontology Institute with Keio University and Nomura Holdings.

Details: https://www.tr.mufg.jp/english/pressreleases/pdf/20190424_1.pdf

Details: P.109

Leveraging our comprehensive financial service capabilities is important in order to meet evolving and diversifying customer needs in the face of changes in social structure due to aging population and low birthrate.

- The aging population and low birthrate may lead to economic stagnation and a decline in growth potential leading to the shrinkage of both funding demand and interest margins, a situation that could, in turn, have a particularly negative impact on the traditional commercial banking businesses.

Financial gerontology initiatives

* Private Banking & Wealth Management Survey 2021
  - "Private Banking Services in Japan" (The Securities)
  - Ranked No. 1 in the overall ranking for nine consecutive years
  - Number of times financial and economic education was provided
  - 3,285 times (Cumulative from FY 2012)

Expanding Services to Connect Customers with the Next Generation Online

"Tsukaete Anshin" Manage Assets with Family Members

- Management of funds by the customer and a family member is possible using a special app.
- Reduces anxiety about cognitive decline concerning asset management and withdrawal procedures as the aged population increases.
- A pre-designated proxy can make withdrawals and account statement inquiries on behalf of the customer.
- Additional functions have been added for convenience, such as the Tsukaete Wrap Special Contract.*
- A function that allows a proxy to cancel the funds managed in the MUFG Fund Wrap and deposit them into the "Tsukaete Anshin".

"Family Note -app- by MUFG", an App for Creating One’s Own Magazine to Be Delivered to Family Members

- Preparation for inheritance using digital content for the future
- Creating an ending notebook to be ready for death just in case
- Photos can be shared, and messages can be sent easily using the album function.
- Support daily healthy habits (walking, brain training, diet management)
- Family members watch over the health records and provide support

Supporting Smooth Business Succession

- Respond to a wide range of needs using the network of our partners
- Providing solutions as a Group as a whole
- Providing M&A proposals, inheritance and real estate proposals using trusts, and asset management proposals using securities
- Support the succession of businesses and assets worth more than 1 trillion yen in total through business succession lending etc.

Launch of a Free Appointment-Based Proxy Services at the Bank, the Trust Bank and the Securities

- Support for smooth financial transactions after the loss of cognitive ability and/or ability to make decisions
- Designation of a proxy is possible prior to the transactions
- The designation of a proxy for a partner is also possible*
- Deposit transactions and the sale of investable products are possible.

* A certificate of partnership issued by a local government must be submitted.
Inclusion & Diversity

Diversity is an important value that gives us the resilience we need to cope with times of change. At MUFG, we are working to create a workplace where diverse employees can work with vitality and fulfillment. We are also contributing to the promotion of gender diversity in the world through our financial functions.

Diversity is an important value that gives us the resilience we need to cope with times of change. At MUFG, we are working to create a workplace where diverse employees can work with vitality and fulfillment. We are also contributing to the promotion of gender diversity in the world through our financial functions.

**Ration of Women in Management in Japan**

<table>
<thead>

</tr>
</thead>
<tbody>
<tr>
<td>FY2020</td>
<td>16.7%</td>
</tr>
<tr>
<td>FY2023</td>
<td>18.0%</td>
</tr>
</tbody>
</table>

We aim to increase it to 18.0% by FY 2023.

**Composition of the Board of Directors**

- 4 females out of 16 members
- 2 foreign nationals out of 16 members

We support the Keidanren’s “Challenge Initiatives for 30% of Executives to be Women by 2030”, which aims to achieve the ratio of female executives to at least 30% by 2030.

**Ratio of overseas employees**

- 52% We are conducting business in more than 50 countries around the world.

**Number of employees taking childcare leave**

- 4,300 employees

MUFG supports employees who are engaged in childcare and housework regardless of gender.

**Target rate of male employees taking childcare leave**

- 100%

Ratio of male employees who take childcare leave among those who are due to take the leave within the applicable fiscal year.

In order to ensure that all customers can use our services with peace of mind, MUFG is working to introduce universal design in both software and hardware, including customer service (hospitality) that takes all customers into consideration and the creation of safe and secure stores (facilities).
Developing Social Infrastructure
- Building a Foundation for Safe and Secure Lifelines -

Evolving into a Financial and Digital Platform Operator
- Taking on the Challenge of Creating Next-Generation Financial Services and Businesses

Today, the contact points between businesses and their customers are more important than ever. As part of various online services, the Banking as a Service (BaaS) model, which embeds financial functions into digitized consumer activities, is gaining popularity, resulting in a growing call for financial services that are more convenient and attractive. We are collaborating with multiple external businesses with large numbers of customer contact points to create a new model for financial services. By doing so, we aim to establish our standing as a financial and digital platform operator providing a safe, secure and reliable financial service platform accessible to a broad range of customers.

[Business Alliance with NTT DOCOMO]
- Business alliance to create innovative financial services and deliver new customer value
- Provide a new digital-based account service through which customers of the both companies are granted “d points” based on transactions
- Bring customer convenience, benefits and robust security.

[Development of GO-NET (next-generation platform)]
- Develop a secure platform which enables to process large volume of transactions in high-speed
- Solving critical business issues such as system capacity and costs by processing enormous volumes of data transactions

[Partnership with Grab]
- Launch new digital loan products through the Grab platform by collaboration between Krungsri and Grab in Thailand
- Utilize expertise for MUFG’s next-generation digital financial services

Supporting the Fight Against COVID-19 in Africa
- Contribution to the Sustainable Development of African Countries in Collaboration with NEXI
- Provided JPY 54 billion (USD 520 million in total) in loans to the African Export - Import Bank as a support to weather the impact of the crisis caused by COVID-19 pandemic
- Nippon Export and Investment Insurance (NEXI) insured loans, whilst MUFG distributed them to Japanese institutional investors
- Contributed to the sustainable development of socioeconomics, health, manufacturing, environmental, agri and agri-related sectors in Africa.
- Won the Deal of the Year award in the Debt category of the African Banker Awards 2021

Solving Social Issues Using Social Loans
- Social loans’ use of proceeds are limited to projects aimed at solving specific social issues
- Targeted at securing essential services, such as maintaining functions in the event of a disaster, measures to reduce traffic congestion, and measures to repair aging infrastructure
- In FY 2020, such loans supported the new construction and the maintenance of expressways, urban renewal, rental housing, earthquake reconstruction, and stabilization of regional medical care.

[Activities of FY 2020]
- Closed a Social Loan deal with Hanshin Expressway Company Limited
- Closed a Social Loan deal with Urban Renaissance Agency
- Closed a Social Loan deal with Sekoula, a social medical care corporation
- Closed a Social Loan deal with Nagoya Expressway Public Corporation
- Closed a Social Loan deal with Dynamic Map Platform Company Limited (FY 2021)
Supporting Industrial Development & Innovation

MUFG Digital Accelerator Program
- Growth of broad-based industries and creation of new industries and innovations
  - The startup accelerator program established for the first time in a bank in Japan in 2015 has so far supported a total of 31 companies.
  - Over a period of about three months, MUFG's full capabilities were used to brush up business plans, support the construction of prototypes, select partners that match the direction of the business plan, and form alliances to provide full support for the steps toward commercialization.
  - In the fifth term, which started in January 2021, five companies were selected from more than 180 companies, and support was provided to them.

New Industry Growth Support Program
- A program that actively supports new business fields that are difficult to deal with under conventional credit decisions
- For businesses that have high growth potential but have difficulty making credit decisions, credit department and sales department work together to evaluate business capabilities through interviews with clients and plant tours.
- Support for growth is provided, including financing, after identifying in detail the business strengths and management issues.

Invested in “MPower Partners Fund L.P.”, an ESG-Focused Global Venture Capital Fund
- A fund that supports venture companies providing solutions to social challenges through the power of technology.
- ESG assessment is incorporated into the growth strategies of a company to be invested in to support their implementation.
- MUFG invested in the fund using the Sustainable Business Investment Strategy that takes into consideration economic efficiency and environmental and social impacts.

Online Venture Business Meeting
- Business opportunities for venture companies
- Support for open innovation of large companies
- In FY 2020, the event was held with the themes of “AI” and “digital transformation”

Released the “Everyday Business Link System -Bizry-”
- Online business matching service started from July 2021.
- AI-based candidate proposal system is scheduled to be added in 2022.
- The service provides an opportunity for our customers to connect directly with each other online, regardless of time or location.

Supporting Customers’ Sustainability Initiatives
- Provision of sustainability-linked loans and financing
- Provision of ESG management support loans/private placement bonds

Supporting Venture Businesses
- Held the Rise Up Festa
  - To provide medium to long-term support for venture companies that are working on new and unique businesses
  - For the eighth Rise Up Festa in 2021, companies gathered to take on challenges in the following four fields in which issues are expected to be solved
  - Acceleration of digital transformation (DX)
  - Realization of a healthy society and well-being in the post-COVID-19 era and the 100-year life span era
  - Updating of urban and regional societies and realization of smart cities
  - Creation of key industries and technologies to support the next generation
  - From a total of more than 180 companies that applied, four best companies and four excellent companies were selected.

MUFG’s recognition
- Offerings assistance for the creation of growing industries, which are the drivers of economies, and vibrant venture startups is essential to avoiding economic stagnation and securing sustainable growth. Our financial functions are expected to play an important role as such endeavors require a financier capable of risk-taking.
- Offer business matching and other services via the utilization of the Group’s extensive customer base to help venture startups achieve business growth while assisting large corporations in their business creation efforts.
- Utilize venture capital to undertake equity investment in businesses at the startup stage and otherwise extend business financing based on the verification of companies’ growth potential.

- Start-up stage: Supporting growing companies by “Rise Up Festa”
  - 8 times
  - Number of times MUFG’s all-out support program for venture companies (once a year)

- Growth Stage: Smooth provision of business funds and creation of new business opportunities
  - 14,000 cases
  - Total number of business matching cases held by each sales branches and through business meetings in Japan and overseas

- Maturity stage: Supporting Smooth Business Succession
  - Approx. 3,250 companies
  - Number of companies visited by the special team for business succession proposal

- Business restructuring: Supporting business restructuring by specialized departments and cooperation with external organizations
  - Approx. 80 stuffs
  - Dedicated stuffs involved in business restructuring

A presentation (TOWING Co., Ltd.)
Response to Poverty

- Poverty often results in a variety of other problems posing serious threats to social stability (e.g., public health, hygiene and security) and human rights (e.g., sufficiency in food, clothing and housing) as well as to the formation of a basis for sustainable economic growth (e.g., educational equality).
- Extend investment and financing to make our stable funding functions available to people in emerging and developing countries and thereby support their household finance and business activities.
- Support underprivileged children, including those in low income households, via donations and other social contribution activities.

Pick Up

Supporting the Development of Power Distribution Facilities in Unelectrified Areas in Northeast Brazil
- Contributing to the Stabilization of the Supply of Electricity to Brazil’s Poorest Regions
  - Approximately 15 billion yen of co-financing was provided with the Japan International Cooperation Agency in order to supply electricity generated from renewable energy sources to unelectrified areas in the state of Bahia, Brazil.
  - Loan funds are used to finance the construction of power distribution facilities to be implemented by local power companies.
  - These projects contribute to mitigate the climate change and achieve the SDGs by: I. supplying electricity to the unelectrified and poorest areas, II. switching from diesel and other fossil fuels to renewable energy and III. saving energy by reducing power loss.

Supporting Several Kodomo Shokudo, Dining Services for Disadvantaged Children, Based on Ideas from Employees
- MUFG SOUL - Turning passion into power for society
  - Utilizing the MUFG SOUL framework, Kodomo Shokudo at more than 15 locations was supported through monetary and food donations.
  - MUFG supported the Kodomo Shokudo as a company to respond to the wishes of employees in support of the healthy development of children who are impoverished because of the effect of the COVID-19 pandemic.

Reduction of Educational Disparities

A Total of 1.6 Billion Yen Has Been Donated to Support Students Who Want to Learn
- Supporting the Fight against the COVID-19 Pandemic
  - Students who are in financial need due to the loss of part-time job opportunities are recruited to be survey respondents, and rewards are paid for completing online surveys.
  - One billion yen in total
  - Two hundred million yen in total
  - Four hundred million yen in total

Support from the MUFG-UNESCO Association Great East Japan Earthquake Reconstruction Scholarship Fund
- In April 2011, the MUFG-UNESCO Association Great East Japan Earthquake Recovery and Scholarship Fund was established.
- This fund provides continuous support through a scholarship system for children and students who lost parents in natural disasters.
- The total amount of the fund is going to be approximately three billion yen.

Ensuring Equal Access to Financial Services

MUFG’s recognition

Main initiatives

- Providing more customers with opportunities to access financial services and investment not only contributes to improving the growth of economies but also allows for MUFG to secure an even more robust foundation for growth.

- Supporting industrial development and employment opportunity creation in emerging and developing countries through microfinance.

- Providing financial education to those with low-income, which contributes to improving their living standards.

- Diversifying our lineup of trust products incorporating digital security backed by blockchain technologies.

Opportunities

- Ensuring equal access to recognition initiatives.

- Provision of microfinance

- Housing loans, including subsidy support to low- and middle-income households so that they can expand their opportunities for house ownership.

- Supporting industrial development and employment opportunity creation in emerging and developing countries through microfinance.

- Providing financial education to those with low-income, which contributes to improving their living standards.

Pick Up

Provision of Microfinance

- Krungsri (Bank of Ayudhya), our partner bank in Thailand, provides opportunities for customers in emerging and developing countries to access financial services through its microfinance institution in Cambodia, HATTHA Bank Plc (HTB), and others.

- In addition to providing microfinance, HTB also provides financial education to those with low-income, which contributes to improving their living standards.

* The name was changed from Hattha Kaksekar Limited in August 2020.

Select Your Own Working Environment

- Promotion of Smart Work

- MUFG promotes the active use of remote work and flexible work hours and other systems.

- Through the realization of a flexible work style that is not bound by location or time, improvements in employee motivation and work efficiency are promoted.

- Providing Mortgages to Low- and Middle-Income Households

- Our partner bank, MUFG Union Bank in the United States, provides support to low- and middle-income households so that they can gain the opportunity to own a home through the provision of housing loans, including subsidy support.

- They also contributed to reducing the information gap through the provision of financial education.

Promoting Workstyle Reforms

Main initiatives

- Facilitate workstyle reforms among our own workforce and customers by updating operational processes through shifting to online procedures.

- Help employees realize flexible workstyles via the use of satellite offices and the expansion of the scope of operations that can be done from home.

- Implement measures to improve employee engagement in a way that helps such input as the results of the Group Awareness and Engagement Survey.

Opportunities

- Promotion of Smart Work

- Supporting industrial development and employment opportunity creation in emerging and developing countries through microfinance.

- Providing financial education to those with low-income, which contributes to improving their living standards.

- Diversifying our lineup of trust products incorporating digital security backed by blockchain technologies.

Contribution to the Improvement of Productivity of the Society by Expanding Online Procedures

- Contribution to the improvement of productivity of the society as a whole by improving the efficiency of financial procedures, which are part of the social infrastructure.

- To enable customers to undertake procedures from anywhere, we enhanced the functions offered by the "MUFG Biz” portal site for corporate clients, making it possible to confirm various notifications online and request the shipping of forms necessary for paper-based procedures.

- Through the realization of a flexible work style that is not bound by location or time, improvements in employee motivation and work efficiency are promoted.

- Providing Mortgages to Low- and Middle-Income Households

- Our partner bank, MUFG Union Bank in the United States, provides support to low- and middle-income households so that they can gain the opportunity to own a home through the provision of housing loans, including subsidy support.

- They also contributed to reducing the information gap through the provision of financial education.

Overcoming Threats to Health

Support for the Development of New Industries in the Life Science Field

- Invested in Orizuru Therapeutics Inc* as a major shareholder to support the commercialization and social application of iPS cell technology and the development of new industries.
- Contributed to the development of the life science field, which is an important theme in dealing with the aging population and low birthrate, and in realizing a healthy and long-lived society.

*R&I-funded company specializing in the development of regenerative medicine products derived from iPS cells and the utilization of iPS cell technology, which were established in April 2021 as a joint venture of Tokyo University Innovation Capital Limited and Teikoku Pharmaceutical Company Limited.

Response to Prevent the COVID-19 Pandemic

Support in Medical Field

- Donation to the Japanese Red Cross Society to support medical professionals who continue to provide medical care at hospitals designated as medical institutions for infectious diseases around Japan
- Donations to the University of Tokyo's Institute of Medical Science and Osaka University, which are leading the way in vaccine development in Japan, to further address the spread of infection and support the development of healthcare in Japan over the medium to long term $\text{500 million yen in total}$
- Implemented MUFG as a framework for donations and support to be provided together with customers.
  - Donations are made to the Japanese Red Cross Society and the All Japan Hospital Association
  - $\text{500 million yen in total}$

Support for the Arts

- Donation to the Association of Japanese Symphony Orchestras to support the continuation of musical and artistic activities that enrich people's hearts and lives $\text{300 million yen in total}$

Support for Students

- Support for the livelihood and education of students who have the motivation to learn $\text{1.6 billion yen in total}$

Other Support

- Support for venture companies involved in drug discovery and regenerative medicine. Establishment of the MUFG Medical Fund in collaboration with Mitsubishi UFJ Capital $\text{10 billion yen in total}$

Bank Danamon’s Response to the COVID-19 Pandemic

Bank Danamon, our partner bank in Indonesia, have been providing support for medical professionals and volunteers who are working on the frontlines to prevent the spread of COVID-19, as well as for ride-hailing drivers who have been affected by the spread of this infectious disease.

- Provided 1.5 trillion rupiah through Islamic finance for construction of facilities to produce coronavirus vaccines (approx. 10.9 billion yen)
- Donated 4,000 pieces of personal protective equipment (PPE) to medical professionals.
- Provided insurance to 10,000 medical and nonmedical volunteers.
- Donated 1 billion rupiah (approximately 7.3 million yen) to ride-hailing drivers who are a critical part of the transportation infrastructure.

Please refer to page 330 for details on the initiatives of Bank Danamon.

The MUFG Park will open in 2023

Refresh the Mind and Body in a Lush Green Area

As part of the efforts to realize a sustainable environment and society, MUFG is going to open the Musashino Sports Ground, a sport facility that MUFG owns in Nishitokyo City, Tokyo, to the public as MUFG Park (tentative name) (scheduled to open in June 2023).

MUFG Park, which will cover a total area of approximately six hectares, will consist of three concept areas.

- Nature: A precious green environment in the heart of the large city
- Sports: Sports and health promotion environment consists of tennis courts and grounds etc.
- Communication: Community library, lawn, and other social and recreational environments

To Empower Our Communities and Society

- Preservation and inheritance of precious natural values in the heart of a large city
- Creation of resilient communities and societies

MUFG is committed to resolving the diverse issues of communities and society that need to be addressed for the future. When we transmit the experience and value we have cultivated to society, it will be power for the community and society to take the next step forward.
Contribution to Sustainability as a Financial Institution

Sustainable Finance

Sustainable Finance Target and Progress

We have set our accumulated sustainable finance amount as of fiscal year 2030 as a sustainable finance target for solving environmental and social issues. Our accumulated sustainable finance amount as of fiscal year 2020 was ¥7.9 trillion (of which, ¥3.6 trillion is environmental area), and was proceeding steadily towards this target. In April 2021, we raised our target from ¥20 trillion to ¥35 trillion.

- Definition of Sustainable Finance

The term "Sustainable Finance" refers to the provision of finance for the following businesses (including loans, equity investment in funds, arrangement of project finance and syndicated loans, underwriting of equities and bonds, and financial advisory services) with reference to the relevant external standards (e.g. the Green Loan Principles, Green Bond Principles, and Social Bond Principles).

Environmental Area

- Businesses contributing to the adaptation to and moderation of climate change, including renewable energy, energy efficiency improvement, and green buildings (e.g. arrangement of loans and project finance for renewable energy projects, underwriting and distribution of green bonds).

Social Area

- Businesses contributing to the development of startups, job creation, and poverty alleviation
- Businesses contributing to the energizing of local communities and regional revitalization
- Fundamental service businesses, including those involved in basic infrastructure such as public transport, waterworks, and airports, and essential services such as hospitals, schools and police (e.g. Emerging Industrial Technology Support Program, loans for regional revitalization projects such as MUFG Regional Revitalization Fund, arrangement of loans and project finance for public infrastructure, underwriting and distribution of social bonds).

Products and Services to Support Customers’ ESG Efforts

Sustainability Linked Loan

The Sustainability Linked Loan (SLL) is a loan product that sets sustainability performance targets (SPT) based on a customer’s ESG strategy, and the terms of the loan change according to the achievement of the targets. The Bank is using this product to support its customers’ ESG efforts.

- MUFG is the second in the Global League Tables for sustainable finance, including SLL. We are promoting Group-wide initiatives, including a large-scale offshore wind farm and solar power generation, and the establishment of the Sustainability Link Loan in cooperation with Krungsri (Aiyuthaya Bank).

- Examples of SPT: Medium- to long-term greenhouse gas reduction targets etc.

- Main Activities in FY 2020 (Sustainable Finance)
  - Closed a Sustainability Linked Loan with Ricoh Company Limited
  - Closed a Sustainability Linked Finance based on the Islamic Finance scheme with Ajinomoto (Malaysia) Berhad
  - Closed a Sustainability Loan for the development of Tokyo Port City Takeshiba.
  - Closed a Sustainability Linked Samurai Loan and Sustainability Linked Syndicated Loan with Thai Union.
  - Closed a Sustainability Linked Loan with SCREEN Holdings Company Limited
  - Closed a Sustainability Linked Loan with Nippon Yusen Kabushiki Kaisha (NYK).
The Bank offers the ESG management support loan/private placement bonds, which is an ESG assessment-based financing product that supports and assists customers’ ESG efforts. The ESG assessment of this product is performed by Mitsubishi UFJ Research and Consulting of the MUFG Group as the service provider and the Japan Credit Rating Agency, which has a track record of certifying green finance, as a support company. The ESG efforts of a customer are assessed and scored based on an independent checklist, and feedback is provided on various issues in order to support the sustainable growth of the customer.

**Main Activities of FY 2020**
- Closed an ESG management support loan deal with Meitetsu Transportation Co., Ltd
- Closed an ESG management support loan deal with Nissin Corporation
- Closed an ESG management support private placement bonds deal with Marujun Co., Ltd
- Closed an ESG management support loan deal with Hitachi, Ltd
- Closed an ESG management support private placement bonds deal with Sanwa Screen Co., Ltd
- Closed an ESG management support private placement bonds deal with Nippon Dry-Chemical Co., Ltd
- Closed an ESG management support loan deal with Casio Computer Co., Ltd
- Closed an ESG management support private placement bonds deal with Kumon Institute of Education Co., Ltd
- Closed an ESG management support loan deal with Sakata Inx Corporation

**Promoting Sustainable Investments**

**Impact Investments based on the Sustainable Business Investment Strategy**

There is an accelerating trend of “impact investing”, which secures an appropriate financial return while generating environmental and social impact. In order to maximize the positive impact on environmental and social issues and to discover business opportunities for MUFG in the field of sustainability, the Bank and the Trust Bank are promoting a new investment strategy that uses environmental and social impact in addition to economic factors in investment decisions, and is expanding impact investing.

In March 2021, the Bank became the first Japanese private financial institution to sign the “Operating Principles for Impact Management” which was developed mainly by the International Finance Corporation (IFC).

In July, the Bank decided to invest in the Climate Finance Partnership, and is actively pursuing impact investment opportunities.

**Collaboration between the Trust Bank and First Sentier Investors (FSI)**

The Trust Bank established the First Sentier MUFG Sustainable Investment Institute in collaboration with its subsidiary First Sentier Investors, an asset management company, to provide high quality and practical research on sustainable investment. (May 2021)

The knowledge accumulated through these efforts will be utilized in future sustainable businesses.

**ESG Investment**

Investments that take into account ESG factors are expected to support companies and various organizations working to achieve a sustainable society and improve their long-term returns, thus, there is a growing interest in it, especially among institutional investors, such as public pension funds.

MUFG’s treasury business diversifies the investment target to government bonds, foreign bonds, stocks, and corporate bonds, as well as green bonds and other types of investments. In order to strengthen MUFG’s financial earnings and contribute to sustainable economic growth through ESG investments, MUFG is going to promote ESG investments by finding the right balance between risks and returns.
\section*{Issuance of Green, Social and Sustainability Bond}

MUFG is the only issuer in Japan with a track record of issuing green, social, and sustainability bonds as the largest private issuer in Japan.

\section*{Green, Social and Sustainability Bond Framework}

MUFG has established a Green, Social, and Sustainability Bond Framework in line with the Green Bond Principles*, the Social Bond Principles*, and the Sustainability Bond Guidelines* issued by the International Capital Market Association (ICMA), and has obtained a second party opinion from Sustainalytics, an internationally recognized external verifier.

* This is a voluntary guideline formulated by the International Capital Market Association (ICMA) to promote the transparency, disclosure, and reporting of green, social, and sustainability bonds and to promote market order.

MUFG has evaluated and selected Eligible Projects in accordance with the pre-determined criteria described above. For more information, please refer to the official MURC web site (in Japanese).

\section*{Use of Proceeds}

The net proceeds are allocated to projects which address environmental issues, such as renewable energy or energy efficiency projects, projects that tackle important social issues such as affordable housing or health and education, and projects that address both environmental and social issues.

\section*{Eligible Green Projects}

- **Green bond**: The net proceeds are allocated to projects which address environmental issues, such as renewable energy or energy efficiency projects.
- **Social bond**: The net proceeds are allocated to projects that tackle important social issues such as affordable housing or health and education.
- **Sustainability bond**: The net proceeds are allocated to a combination of both environmental and social projects.

\section*{Renewable Energy}

- Financing of renewable energy projects (solar thermal power generation, solar photovoltaic power generation and onshore and offshore wind farm projects) which are certified as eligible to funding\(^{\text{3,4}}\) based on environmental and social impact assessments performed by the Bank in accordance with the Equator Principles*\(^{5,6}\).

\section*{Green Building}

- Financing eligible green buildings\(^{\text{1,2}}\) owned by J-REIT (Japanese REIT Green Building Real Estate Investment Trust)

1. Real estate properties which have earned one of the following:
   - Gold or Platinum rating under LEED
   - Excellent or Outstanding rating under BREEAM
   - A or S rating under CASBEE
   - 1 or 1.5 under BCI Green Building Certification

\section*{Eligible Social Projects}

- **Healthcare**: Financing of public hospitals (domestic and overseas) and domestic hospitals run by a social medical care corporation or a social welfare corporation that will ensure accessibility to people living below the poverty line.
- **Education**: Financing of public schools that will ensure accessibility to people living below the poverty line.
- **Employment Generation / Preservation**: Financing for small and medium-sized enterprises and sole proprietors adversely affected by the spread of infectious diseases including COVID-19.
- **Affordable housing**: Financing of public housing suppliers who are registered with the Regulator of Social Housing in England.

\section*{Process for Project Evaluation and Selection}

MUFG has evaluated and selected Eligible Projects in accordance with the pre-determined criteria described above. In the selection process of Eligible Green Projects, financing to J-REIT which have achieved the top three ratings of MURC’s ESG evaluation\(^\text{6}\) has been preferentially selected when applying loans as ESG evaluation loans for J-REIT*.

* For more information, please refer to the official MURC web site (in Japanese).

\section*{Management of Proceeds}

MUFG has allocated amounts equivalent to the net proceeds to funding Eligible Projects through the Bank and continuously monitors the allocated funds thereafter. Pending allocation, any unallocated funds are held in cash, continuously monitored and report back to the Bank. The Bank allocates amounts equivalent to the net proceeds to Eligible Projects as defined by the criteria presented below.

\section*{Approach to Priority Issues}

MUFG has established a Green, Social, and Sustainability Bond Framework in line with the Green Bond Principles*, the Social Bond Principles*, and the Sustainability Bond Guidelines* issued by the International Capital Market Association (ICMA), and has obtained a second party opinion from Sustainalytics, an internationally recognized external verifier.

* This is a voluntary guideline formulated by the International Capital Market Association (ICMA) to promote the transparency, disclosure, and reporting of green, social, and sustainability bonds and to promote market order.

\section*{Eligible Green Projects}

- **Green bond**: The net proceeds are allocated to projects which address environmental issues, such as renewable energy or energy efficiency projects.
- **Social bond**: The net proceeds are allocated to projects that tackle important social issues such as affordable housing, health and education.
- **Sustainability bond**: The net proceeds are allocated to a combination of both environmental and social projects.

\section*{Renewable Energy}

- Financing of eligible renewable energy projects (solar thermal power generation, solar photovoltaic power generation and onshore and offshore wind farm projects) which are certified as eligible to funding\(^{\text{3,4}}\) based on environmental and social impact assessments performed by the Bank in accordance with the Equator Principles*\(^{5,6}\).

\section*{Affordable housing}

- Financing of public housing suppliers who are registered with the Regulator of Social Housing in England.

\section*{Sustainability bond}

- Financing of renewable energy projects (solar thermal power generation, solar photovoltaic power generation and onshore and offshore wind farm projects) which are certified as eligible to funding\(^{\text{3,4}}\) based on environmental and social impact assessments performed by the Bank in accordance with the Equator Principles*\(^{5,6}\).

\section*{Social bond}

- Financing of renewable energy projects (solar thermal power generation, solar photovoltaic power generation and onshore and offshore wind farm projects) which are certified as eligible to funding\(^{\text{3,4}}\) based on environmental and social impact assessments performed by the Bank in accordance with the Equator Principles*\(^{5,6}\).

\section*{Sustainability bond}

- Financing of renewable energy projects (solar thermal power generation, solar photovoltaic power generation and onshore and offshore wind farm projects) which are certified as eligible to funding\(^{\text{3,4}}\) based on environmental and social impact assessments performed by the Bank in accordance with the Equator Principles*\(^{5,6}\).

\section*{Total amount issued*: 4,900 million USD}

(as of March 2021)
MUFG plans to disclose the allocation of funds on its website generally on an annual basis*. Management assertions on the allocation of funds and reports published by an external review provider will be disclosed annually until all the net proceeds from the issuance of Green, Social, and Sustainability Bonds have been fully allocated to Eligible Projects through the Bank.

* MUFG may defer this disclosure as long as the funds are fully allocated to Eligible Projects and the allocation of the funds to individual projects that constitute Eligible Projects remains unchanged.

**Climate Change Measures & Environmental Protection – TCFD Report –**

- P.45 Highlights
- P.50 MUFG Carbon Neutrality Declaration
- P.53 Governance
- P.56 Strategy
- P.67 Risk Management
- P.72 Metrics and Targets
- P.77 Future Action Plan
- P.78 Responses to TCFD as an Asset Manager
In order to contribute to the achievement of a sustainable society, MUFG has identified climate change measures & environmental protection as one of its priority environmental and social issues. Acutely aware of the importance of climate-related financial disclosure, MUFG has declared its support of relevant recommendations formulated by the Task Force on Climate-related Financial Disclosures (TCFD), a special taskforce established by the Financial Stability Board (FSB). In line with these recommendations for disclosure of climate change-related risks and opportunities in its Governance, Strategy, Risk Management, and Metrics and Targets, TCFD is pursuing the following.

### Status of Recent Initiatives

*2*. Network for Greening the Financial System

### Highlights

- Governance to deal with climate change – the Board of Directors supervises climate change-related initiatives – [P.53]  
  - Opportunities and risks related to the environment and society, including climate change, are regularly discussed by the Sustainability Committee under the Management Committee. Depending on the theme, matters are also reviewed by the Investment and Loan Committee, Credit Committee, and Risk Management Committee.  
  - The contents of the review by the Investment and Loan Committee and the Risk Management Committee are reported to the Management Committee and then to the Board of Directors to be reviewed.  
- The contents of the review by the Management Committee and the Risk Management Committee are reported to the Board of Directors after being reviewed by the Risk Committee, which is composed mainly of outside directors.  
- Established the MUFG Environmental Policy, the action guideline for environmental considerations | [P.54]  
  - To be determined by the Board of Directors from May 2023. Clearly stated the commitment to proactively disclose information concerning the environment, including climate change  
- Installed the Chief Sustainability Officer (CSuO) of the Group to strengthen our efforts to address environmental and social issues, including climate change, and to clarify our responsibilities. | [P.54]  
- Invited and utilized two external advisors for the environmental and social fields (2019) | [P.54]  
- Reflected ESG factors in the executive compensation system (after FY 2021) | [P.55]  
  - Started to review the performance-linked indicators for executive compensation from FY 2021 and reflect the degree of improvement found through the external ratings granted by five major ESG rating agencies to further advance sustainability management

### Status of Response to TCFD Recommendations

#### Governance

Disclose the organization’s governance around climate-related risks and opportunities.  
**a.** Describe the board’s oversight of climate-related risks and opportunities  
**b.** Describe management’s role in assessing and managing climate-related risks and opportunities

- Governance to deal with climate change – the Board of Directors supervises climate change-related initiatives – [P.53]  
  - Opportunities and risks related to the environment and society, including climate change, are regularly discussed by the Sustainability Committee under the Management Committee. Depending on the theme, matters are also reviewed by the Investment and Loan Committee, Credit Committee, and Risk Management Committee.

- Started to review the performance-linked indicators for executive compensation from FY 2021 and reflect the degree of improvement found through the external ratings granted by five major ESG rating agencies to further advance sustainability management

#### Metrics and targets

Disclose the resilience of the organization’s strategy, taking into consideration different climate-related scenarios, including a 2°C or lower scenario

- Disclosed the actual and potential impacts of climate-related risks and opportunities on the organization’s businesses, strategy, and financial planning where such information is material.  
  - Developed a strategy for climate-related risks and opportunities (P.42)  
  - Added the automotive sector to the analysis of transition risk, expanded to three sectors that included the energy and utilities sector, and added the NGFS2 scenario to scenario assumptions |
- Established a management framework to address risks related to climate change on a Group and global basis | [P.68]  
  - MUFG revised the environmental and social policy framework | [P.69-70]  
- Started to review the performance-linked indicators for executive compensation from FY 2021 and reflect the degree of improvement found through the external ratings granted by five major ESG rating agencies to further advance sustainability management

#### Main initiatives to achieve carbon neutrality

1. A commitment to realize decarbonization through finance  
   - Setting sustainable finance targets and continuously reviewing the MUFG environmental and social policy framework etc.  
2. Decarbonization promoted as MUFG’s own initiatives  
   - Switching 100% of the electricity consumed in FY 2021 at offices of the Bank, the Trust Bank, and the Securities to renewable energy sources  
3. Setting targets consistent with the Paris Agreement, expanding information disclosure, and improving transparency  
   - Setting targets consistent with the Paris Agreement using scientific methods, such as SBT  
4. Reinforcement of systems to support the realization of carbon neutrality  
   - Reaching a decision on the MUFG Environmental Policy at a meeting of the Board of Directors and reflecting ESG factors in the executive compensation system etc.
Reinforcement of sustainable businesses (P.47)
- Established the Sustainable Business Department to further promote the provision of solutions for customers’ decarbonization efforts (transitions) and innovations (July 2021).

Promotion of support for transitions and innovations (P.58)
- Promoting renewable energies, hydrogen and next-generation energy sources, and carbon recycling as a priority in order to support economic development through a virtuous cycle between the environment and the economy.

Promotion of support for transitions and innovations (P.59)
- Promoting renewable energies, hydrogen and next-generation energy sources, and carbon recycling as a priority in order to support economic development through a virtuous cycle between the environment and the economy.

Initiatives to identify risks related to climate change and to expand the range of disclosure (P.62-63)
- Expanding the classification of risks related to climate change (transition risks and physical risks), identifying examples of risks, and working to expand the range of disclosure.

Reinforcement of scenario analysis (P.64-66)
- The automotive sector was added to the two sectors, energy and utilities, and the NGFS scenario was included in the analysis, in addition to the International Energy Agency (IEA) scenario, which has been the premise of the previous analyses.

<table>
<thead>

**Risk Management**
Disclose how the organization identifies, assesses, and manages climate-related risks.

- a. Describe the organization’s processes for identifying and assessing climate-related risks.
- b. Describe the organization’s processes for managing climate-related risks.
- c. Describe how processes for identifying, assessing, and managing climate-related risks are integrated into the organization’s overall risk management.

- Reflection in the Risk Appetite Statement (P.47)
  - From FY 2021, risks related to climate change have been newly added to the Risk Appetite Statement.

- Reflection in the top risk management (P.47)
  - Risks from climate change are positioned as one of the top risks.

- A management framework concerning risks related to climate change is constructed on a group and global basis (P.48)
  - A project team has been established on a Group and global basis to strengthen the response to the risks related to climate change. A framework for identifying and sharing information, such as regulatory trends and for management risks is constructed on a group and global basis.

- Environmental and social considerations concerning finance have been practiced based on the MUFG Environmental and Social Policy (P.69-70)
  - The policy became stricter for coal-fired power generation, forest, and palm oil sectors, which are the sectors related to climate change (June 2021).

**Metrics and Targets**
Disclose the metrics and targets used to assess and manage relevant climate-related risks and opportunities where such information is material.

- a. Disclose the metrics used by the organization to assess climate-related risks and opportunities in line with its strategy and risk management process.
- b. Disclose Scope 1, Scope 2 and, if appropriate, Scope 3 greenhouse gas (GHG) emissions and the related risks.
- c. Describe the targets used by the organization to manage climate-related risks and opportunities and performance against targets.

- Sustainable finance (P.77)
  - The target amount of sustainable finance that was set to be 20 trillion yen in total (including 8 trillion yen in the environmental sector) from FY 2019 to FY 2030 is revised upward to a cumulative total of 35 trillion yen (including 18 trillion yen in the environmental sector).

- The CO2 reduction target to be achieved through the renewable energy project finance is set (P.78)
  - A target to reduce CO2 emissions to 70 million tons in total from FY 2019 to FY 2030 is newly set and disclosed (May 2021).

- Carbon-related assets (credit balance) (P.74)
  - The total amount of credits in the energy and utilities sector, excluding credits for renewable power generation etc., and the breakdown by sector are newly disclosed.

- Credits related to coal-fired thermal power generation (project finance) (P.75)
  - The loan balance reduction target to achieve a 50% reduction from FY 2019 in FY 2030 and zero by around FY 2040 is set and disclosed (October 2020).
In May 2021, we announced the MUFG Carbon Neutrality Declaration and became the first bank in Japan to publicize its commitment to achieving a net zero status in terms of GHG emissions from its investment and financing portfolio. Guided by our Purpose, “Committed to empowering a brighter future,” we have also formulated detailed action plans and, in line with the MUFG Environmental Policy Statement, are determined to support a smooth transition to a decarbonized society through our business operations and help realize the goals of the Paris Agreement. In these ways, we will remain an active contributor to a virtuous cycle of environmental and economic improvement, which should ultimately result in a sustainable society.

MUFG will strive to achieve net zero in terms of GHG emissions from its investment and financing portfolio by the end of 2050 and in its own operations by the end of 2030. Moreover, we will continue the timely and appropriate disclosure of information regarding progress in our initiatives to achieve these targets.

### Main Approaches to Achieve Carbon Neutrality

1. **Commit to achieve decarbonization through financial services**
   - Set target for sustainable finance: ¥35 trillion (of this, ¥18 trillion for environment)
   - Regularly review the MUFG Environmental and Social Policy Framework
   - Disclose future credit portfolio reduction targets for corporate finance related to coal-fired power generation
   - Support renewable energy and hydrogen and next-generation energy projects

2. **Promote decarbonization via MUFG’s own efforts**
   - Raise the ratio of renewable energy to purchased energy used to 100% at the domestic offices and branches of the Bank, the Trust Bank and the Securities
   - Support climate change countermeasure-related technological innovation while promoting the use of carbon offsets via such activities as afforestation

3. **Set targets to align with the goals of the Paris Agreement and expand and improve transparency of information disclosure**
   - Set targets consistent with the Paris Agreement based on scientific approaches such as SBT
   - Enhance the content of information disclosure based on recommendations from the Task Force on Climate-related Financial Disclosures (TCFD) (e.g., expand the scope of the sector subject to scenario analysis)

4. **Enhance our organization to achieve carbon neutrality**
   - The Board of Directors was made responsible for any changes in the MUFG Environmental Policy Statement
   - Reflect ESG elements in MUFG’s executive compensation

MUFG Carbon Neutrality Declaration

MUFG is committed to tackling climate change, one of the most serious issues facing the world, and will therefore develop specific action plans based on its purpose, which is being “Committed to empowering a brighter future.” In order to align with the goals of the Paris Agreement, MUFG will support the smooth transition to a decarbonized society through its financial services and proactively contribute to creating a sustainable society by fostering a virtuous cycle between the environment and economy.

MUFG commits to achieve net zero emissions in its finance portfolio by 2050 and its own operations by 2030. The following is our approach to achieve this goal, we will accelerate the implementation and promotion of specific measures, and progress will be duly disclosed throughout.

1. Commit to achieve decarbonization through financial services
   - MUFG aims to achieve net zero greenhouse gas (GHG) emissions across its finance portfolio by 2050 and will work to set and disclose an interim milestone for 2030 in FY2022, progress of which will be reported on an annual basis. As part of this commitment, following our participation in the Principles for Responsible Banking (PRB) in 2019, we will become the first Japanese bank to participate in the Net Zero Banking Alliance (NZBA).
   - MUFG integrates solutions for climate change issues with its management strategies and will demonstrate appropriate engagement functions via initiatives such as setting ambitious targets for sustainable finance, enhancing financing policies, disclosing future credit portfolio reduction targets related to coal-fired power generation, and incorporating climate change risk into the credit process.
   - In order to create a sustainable energy mix, MUFG will provide strong support not only for renewable energy but also for the implementation of innovative technologies such as hydrogen/nex generation energy and carbon recycling.
   - MUFG will also share issues related to decarbonization with customers while maximizing our expertise in sustainable business, and will actively support customers’ efforts to decarbonize.

2. Promote decarbonization via MUFG’s own efforts
   - MUFG aims to achieve net zero GHG emissions in its own operations by 2030. By the end of FY2021, the domestic offices and branches of core subsidiaries, the Bank, the Trust Bank and the Securities HD will procure more than 50% of their electricity from renewable sources. MUFG will also establish a fund to stimulate the renewable energy market (¥100 billion in phase one) and develop the first scheme in Japan to deal with an ‘end to end solution from generation to purchase’ for green power, thereby leading the way for the decarbonization of society.
   - In order to support innovative technologies related to climate change and carbon offsetting efforts such as afforestation, MUFG will positively leverage its donation program framework, which contributes the equivalent of 1% of the group operating profit to CSR activities.*5

3. Set targets to align with the goals of the Paris Agreement and expand and improve transparency of information disclosure
   - MUFG will set targets to align with the goals of the Paris Agreement based on scientific approaches such as Science Based Targets, participate in global initiatives to enhance climate change solutions, and make every effort to ensure highly transparent disclosure that will benefit our stakeholders to improve their understanding and thereby make appropriate risk assessments.*6
   - MUFG supports the TCFD Recommendations and will conduct scenario analyses and disclose their results on transition risks (in the energy and utility sectors) and physical risks (flooding). Going forward, we will work to further expand the scope of sectors subject to TCFD scenario analyses and improve methods for reflecting the impacts of such risk in our financials.

4. Enhance our organization to achieve carbon neutrality
   - Previously the MUFG Environmental Policy Statement was approved and set by the Executive Committee, but we have enhanced governance to be approved by the Board of Directors. In accordance with the MUFG Environmental Policy Statement we will proactively disclose information related to climate change and other environmental issues.
   - MUFG will reflect ESG elements in its executive compensation from FY2021 and enhance strategic business management and promotion functions*7, thereby accelerating our commitment to achieve carbon neutrality at the management level. Furthermore, we will establish a groupwide global project team including our overseas partner banks to support group entities and offices to lead the way for decarbonization in their respective regions based on their unique situations and circumstances.
   - MUFG will utilize the knowledge of advisors*8 and other experts, collaborate with research institutions, and enhance and train professional staff.

*5 MUFG will set and disclose the reduction targets (previously only results were disclosed) for CO2 emissions through its renewable energy project portfolio.

*6 Measures and initiatives to solve environmental and social issues are discussed regularly by the Sustainability Committee, and further deliberated on at reported to the Executive Committee and the Board of Directors.

*7 The position of Chief Sustainability Officer (CSuO) was created in FY2020 to clarify responsibility for promoting sustainability.

*8 MUFG Carbon Neutrality Declaration Roadmap

Toward realization the MUFG Carbon Neutrality Declaration, we have set up a project team on a Group and global basis and have begun to consider.

**Notes:**
- *1 Categorized as Scope 1 and Scope 2 under the GHG Protocol which is the standard to measure and report GHG emissions, developed by an international organization of the same name.
- *2 April 2021: Increased target from ¥100 trillion to ¥150 trillion (cumulative total from FY2019 to FY2050).
- *3 April 2021: Revised policies for coal-fired power generation, forestry, and palm of sectors.
- *4 Progressing toward the project finance portfolio reduction target for coal-fired power generation (to halve the FY2019 balance by FY2030, and reduce to zero by FY2040).
- *5 We aim to disclose the portfolio reduction target for corporate customers whose business largely relies on coal-fired power generation.
- *6 Categorized as Scope 3 under the GHG Protocol which is the standard to measure and report GHG emissions, developed by an international organization of the same name.
- *7 Since January 2021, MUFG has been running a program to plant up to approx. 100,000 trees in accordance with the number of applications for new or replacement Eco Passbooks (paper bank books commonly used in Japan to keep track of transactions and account balance) and donate a total of ¥500 million over 10 years to foster these trees.
- *8 MUFG will further utilize the knowledge of advisors and other experts, collaborate with research institutions, and enhance and train professional staff.

**Notes:**
- *1 The Bank, the Trust Bank and the Securities HD.
- *2 Net Zero Banking Alliance.
Goverance

MUFG’s Governance for Countering Climate Change
-Board Oversight of Climate Change Initiatives-

At MUFG, the Sustainability Committee, which operates under the Executive Committee, is charged with periodically deliberating policies on and determining the status of the Group’s response to opportunities and risks arising from climate change and other environmental and social concerns. MUFG has positioned climate change-related risk as one of the Top Risks that it must pay close attention to. Accordingly, these risks are discussed by the Credit & Investment Management Committee, the Credit Committee and the Risk Management Committee, all of which are under the direct supervision of the Executive Committee. Conclusions reached by the above committees are reported to the Executive Committee—which is tasked with deliberating and making decisions on important matters regarding business execution—and, ultimately, reported to and discussed by the Board of Directors in regular Board meetings.

Main Items Discussed by and Reported to the Board of Directors (FY 2020)

- MUFG’s approach to sustainability management
- Promotion of sustainable businesses via financing for renewable energy projects, the underwriting of green social and sustainability bonds and the pursuit of responsible investment
- Carbon neutrality initiatives
- MUFG’s approach to transition finance and its in-house promotion structure
- Revision of the Environmental and Social Policy Framework
- Prioritization of various risks arising from climate change and future initiatives

Installation of Chief Sustainability Officer

MUFG has installed the Chief Sustainability Officer (CSuO) to strengthen our sustainability initiatives and to clarify responsibilities. The Group’s Chief Strategy Officer (CSO), who is in charge of corporate planning and strategy, is also a member of the Board of Directors, concurrently serves as the Group CSuO and chairs the Sustainability Committee in order to integrate sustainability initiatives with the Group’s core business and management strategy.

Revision of the MUFG Environmental Policy Statement

Under the MUFG Way, which guides all of our activities, MUFG has established the MUFG Environmental Policy Statement as a specific action guideline for practicing environmental considerations. The MUFG Environmental Policy has been the matter to be determined in the Board of Directors since May 2021. The Policy clearly states the company’s commitment to proactively disclose information on the environment, including climate change.

MUFG Environmental Policy Statement

In order to put environmental considerations into practice under the MUFG Way, environmental awareness and specific action guidelines are presented as the basis of our actions.

The FY 2021 revision clearly states that MUFG will actively disclose information related to the environment, including climate change.

Engagement and Utilize of External Advisors in the Environment and Social Fields

Since 2019, we have engaged external experts in the environmental and social fields as permanent external advisors. Opinions were exchanged between the experts and the members of the Board of Directors, allowing us to use their broad knowledge of ESG in our sustainability initiatives.

Rintaro Tamaki
President, Japan Center for International Finance

Junko Edahiro
Professor, Graduate School of Leadership and Innovation, Shizenkan University / President, Institute for Studies in Happiness, Economy and Society / Founder and President, e’s Inc.

Implementation of advisor opinion exchange meeting (November 2020)

At a meeting held in November 2020 to exchange opinions with external advisors, the participants actively exchanged opinions on the following points. Based on the opinions of external advisors gained through the opinion-exchange meeting and other events, MUFG will promote the integration of its sustainability initiatives with its core business and further promote the resolution of social issues.

- Change in social awareness concerning capitalism and the role of companies
- Global trends, such as the rapid rise in awareness toward sustainability brought about by the COVID-19 pandemic, and a mission as a financial institution under these circumstances
MUFG has revised its executive compensation system to achieve the medium-term business plan and implement sustainability management, and has newly installed a heightened metric for ESG-related external ratings as a medium- to long-term performance-linked indicator for stock-based compensation. The system is designed to reflect the degree of improvement found through the external ratings granted by five major ESG rating agencies for executive compensation. The intention is to align MUFG’s corporate activities with the interests of its diverse stakeholders.

MSCI, FTSE Russell, Sustainalytics, S&P Dow Jones, CDP

## A Heightened Metric for ESG-Related External Ratings is Newly Installed as an Evaluation Index of the Executive Compensation System

### Strategy

The TCFD recommendations propose that climate change-related risks and opportunities be disclosed upon grasping impacts on business strategy and finances.

### Climate Change-Related Opportunities

As a financial institution, MUFG recognizes that supporting climate change measures and the transition to a decarbonized society will lead to increased business opportunities. MUFG announced a target of providing a cumulative 35 trillion yen in sustainable finance by 2030. We intend to commit 18 trillion yen of finance in the environmental field, including initiatives to counter climate change that will lead to the reduction of greenhouse gas emissions and the conservation of the global environment. We promote renewable energy through project finance, etc., issue MUFG Green Bonds, which ensure that the net proceeds are allocated to the Eligible Green Projects, provide commodities and services aimed at mitigating environmental loads, encourage the climate change countermeasure consulting business and so on. By doing so, we support the transition to a decarbonized society.

### Expansion of Capital Investment Related to Climate Change

Demand for Capital Investment is Expected to Increase Because of the Promotion of Initiatives in Various Industries to Achieve Virtually Zero GHG Emissions

*1 Prepared by MUFG based on the September 2020 EIA report, Making Mission Possible

**Green Finance Opportunities**

- Major companies in the oil and gas sector have already announced plans to increase their capital expenditures related to renewable energies in order to achieve a decarbonized society.
- According to a CDP*1 survey, more than half of the 500 large Japanese companies have already set targets for decarbonization equivalent to the SBT*2 certification, or plan to do so within the next two years.
- Green bonds and green loans to support investment plans are a great business opportunity for financial institutions.

*1 CDP (formerly the Carbon Disclosure Project) is a project in which institutional investors around the world collaborate to require companies to disclose their climate change strategies and the specific amount of greenhouse gas emissions. MUFG has participated in the project since 2004.

Please refer to page 22 for details on the sustainable finance target.
Strengthening Sustainable Businesses Capabilities

Toward the realization of carbon neutrality, MUFG aims to support customer efforts to transform business models as well as the climate transition of whole industries. To this end, we provide solutions designed to assist customers in their pursuit of transition and innovation aimed at promoting decarbonization. In July 2021, we established Sustainable Business Division by reorganizing and upgrading the Sustainable Business Office into an independent division, with the aim of further promoting solutions for sustainable businesses. This body is expected to play a central role in MUFG’s efforts to promote sustainable businesses and, to this end, will be tasked with engaging in dialogue with government agencies and industrial associations while handling missions ranging from research, strategic planning and solution development to business execution. In addition to addressing sustainability issues in Japan, the division will act in close collaboration with individuals in charge of ESG overseas, share information and insights with them and employ a cross-regional approach to promote sustainable businesses.

● Enhance business promotion domestically and globally, centered on the Sustainable Business Division

Pushing Ahead with Climate Transition and Innovation Support

With the aim of facilitating the realization of a sustainable society via a virtuous cycle of environmental and economic improvement, we intend to extend strong support to the pursuit of technological innovation in such fields as renewable energy, hydrogen and next-generation energy and carbon recycling. In terms of supporting climate transition, we have been proactively engaged in dialogue mainly with customers in the energy and utility sectors. Looking ahead, we will also reach out to those in the transportation, steelmaking, non-ferrous metals, chemicals and other sectors, with staff at the Sustainable Business Division and others in charge of sales at home and abroad playing a key role in upgrading MUFG’s relevant initiatives. With regard to innovation support, we will consider and implement a new financial service scheme in tandem with customers, with the aim of supporting new business endeavors, including R&D and verification testing, to contribute to the realization of carbon neutrality.

Active Implementation of Activities to Support Energy Transformation

In December 2021, the Japanese Corporate & Investment Banking Business Group launched the Energy Transformation Strategy Project Team (EX Strategy PT). In order to support the customers’ energy transformation, the team is exploring how the financial sector as a whole can contribute to customers, while engaging in dialogs with customers, industry associations, and government agencies.

● Hold dialogs with customers, industry associations, and government agencies while supporting carbon neutrality for Japan as a whole
● Provide added value across the entire value chain, from research functions to solution provision
● Investigate what and how transition support should be for realistic solutions in Japan and Asia
● Leverage group companies’ and global expertise, and cooperate with related departments such as the client coverage dept., the Solutions Unit (including the Sustainable Business Office), the Sustainability Office, etc. to support customers’ business transitions

The goals of the EX Strategy PT

- Provide functions/added value that address customers’ management issues
- Use expertise related to the issues and wide-ranging research functions to support customer’s management
- Understand customers’ management issues
- Grasp the expectations on the financial sector
- Solution development
- Dissemination of information
- Propose ways for the financial sector to contribute to business transformation from energy perspective
Supporting Transitions through Engagement (Dialogue)

With the aim of facilitating the realization of a sustainable society via a virtuous cycle of environmental and economic improvement and a smooth transition to a decarbonized society, we conduct ongoing engagement (dialogue) with our customers on their transition initiatives.

Example of engagement

**Customer**

**Status of implementation**

**Company A** (Domestic, Manufacturing equipment)
- MUFG held several dialogues and discussions with the company's management in order to understand the company's approach to sustainable management, which aims to solve ESG issues through its business activities.
- The company is focusing on sustainable management based on its long-term management plan for 2030 and its medium-term management plan to achieve the goal. In order to further promote the sustainable management, the Bank provided information on the approach to sustainable finance and specific examples.
- The company has set ambitious targets for 2030 based on the Science Based Targets (SBT) initiative for CO2 emission reduction, as one of its environmental goals. To support its commitment to achieve these targets, the company provided a sustainability-linked loan with SPT as an intermediate milestone target.

**Company B** (Domestic, Maritime)
- By integrating ESG into its business strategy, the company aims to maximize profits and achieve social and environmental sustainability from a long-term perspective, and has formulated a long-term transition strategy to reduce GHG emissions.
- Through continuous dialogue with the company, MUFG supported the issuance of bonds based on the Green Bond Principles 2021 (ICMA) and other frameworks to raise funds to realize the transition strategy.
- As the first transition bond issued in Japan, the company aims to expand its funding sources and accelerate its efforts to reduce greenhouse gas emissions by expanding its low-carbon solutions and developing and introducing decarbonization solutions. The issuance of the bond will also contribute to the broad promotion of the company's growth strategy based on ESG management.

**Customers in the electric power and oil and gas sectors, etc.** (Domestic)
- MUFG will continue to work toward achieving carbon neutrality by 2050 for both MUFG and the company by deepening mutual understanding through regular updates on ESG and finance trends in Japan and overseas in cooperation with the MUFG Group, bridging the gap between stakeholders with different positions by providing opportunities for dialogue with the Ministry of Economy, Trade and Industry, the Agency for Natural Resources and Energy, and overseas investors, and sharing awareness of issues through top management.

**Company C** (Canada, O&G)
- Top executives from MUFG Americas and the company met to discuss the company's business position and operations including integration within the North American energy supply chain, as well as company's ESG policies including net-zero emission by 2050, Indigenous Engagement, Land Reclamation & Wildlife Habitat Restoration, and Freshwater Stewardship.
- MUFG participated in an ESG materiality assessment with the company and its third-party advisor, providing them with MUFG's perspective and inputs on environmental, social and governance items. The feedback from this assessment has helped the company further set meaningful ESG targets and establish/define key sustainability priorities.

**Company D** (Australia, Transportation)
- Rail freight operator, who transports varied mix of freight cargo including thermal coal, was seeking investor engagement in relation to ESG. MUFG recommended the company to leverage the release of its inaugural ESG report as a way to get on the "front foot" from an ESG perspective and conduct an ESG-specific global investor update, providing investors with greater visibility into the company's sustainability strategy.
- MUFG facilitated the investor marketing exercise, conducting a global investor update covering investors from Australia, Asia, UK and US. Through this exercise, MUFG supported the company in reconfirming the market expectations towards ESG integration into the company's strategy and establishment of appropriate targets, encouraging the company to accelerate setting its ESG strategy.

Promotion and Expansion of Renewable Energies

MUFG is one of the world’s top performers in the private global finance sector in the Finance Lead Arranger league table related to renewable energy projects. In May 2021, MUFG set a target of reducing CO2 emissions through project finance for renewable energy projects by a cumulative total of 70 million tons from FY 2019 to FY 2030. This is equivalent to the annual CO2 emissions of about half of the households in Japan.

Please refer to page 23 for details on our CO2 reduction targets through project finance for renewable energy.

Establishment of a Solar Fund (Ecology Trust)

The Trust Bank has been offering solar funds every year since FY 2018 as an investment product. The project has been well received by investors, who say that now they now have a new investment option for solar power generation that produces a stable profit.

Execution of Green Loans and Green Private Placement Bonds

The Bank provides green loans and green private placement bonds as a means for customers to raise funds to be used for green projects.

Main activities of FY 2020

- Closed a green private placement bond deal with Loop Inc.
- Closed a green loan deal with West Energy Solution Inc.
- Closed a green loan deal with Ito Kaun Kashida Ltd

* MUFG Americas Holdings Corporation
Support Environmentally Friendly Management

- Energy Conservation Support Loan (With 1% Interest Subsidy)
  This product makes use of the Ministry of Economy, Trade and Industry’s subsidy program for the promotion of upgrading facilities to improve energy efficiency. Under this program, the borrower can receive a maximum 1% subsidy for up to 10 years for the interest on loans made for the installation of energy-efficient equipment.

- Environmental Accounting- CO2 Reductions and Economic Effect through Financing
  Please refer to page 144 details on our environmental accounting.

Products and Services for Reducing Environmental Impacts

MUFG is working behind the scenes to reduce environmental impacts by providing products and services for customers who aim to be environmentally conscious.

- Evaluation Methodology and Loan-Related Product that Aligned with ESG Activities
  “ESG Evaluation loans for J-REIT” using “MUFG ESG Evaluation for J-REIT” supported by JCR* which is provided by Mitsubishi UFJ Research and Consulting. The entire loan or portions directed towards J-REITs which have received the top three ratings of MURC’s ESG evaluation may be preferentially allocated for the usage of the proceeds of the MUFG Green Bonds only if loans to Eligible Green Projects. Through the loan products related to ESG, we are not only able to support the customers’ funding methods, but also support customers’ business challenges and offer solutions as well.

Green Bonds Underwriting

The Securities is a leading Green Bonds underwriter since the inception of the market and top-ranked house in terms of volume and number of transactions where they acted as Structuring Agent*1. They have joined the Climate Bonds Partners Programme of Climate Bonds Initiative*2 since 2019. Together with CBI, they aim to make a contribution to growing the Green Bonds market.

*1 A company that supports the issuance of green bonds through the development of a green bond framework and other means.

*2 The Climate Bonds Initiative is an international organization based in London that works to promote investment in the projects and assets needed for a rapid transition to a low-carbon, climate durable economy. The Climate Bonds Partners Programme supports investor and stakeholder activities and educational projects to grow sustainable green bond markets that contribute to climate change response and low carbon investment.

Climate Change Risks - Transition Risks and Physical Risks-

Based on the suggestions of the TCFD, MUFG has summarized the examples of physical and transition risks for each of the major risk categories. The timelines (short, medium, and long term) are also organized by risk category.

In addition, to prepare for the risk of damage to our employees and assets due to an increase in natural disasters and extreme weather events, we conduct various drills and formulate a business continuity plan (BCP) to ensure business continuity.

Examples of Impacts of Transition Risks and Physical Risks

MUF G has organized examples of impacts (examples of potential risks) of climate change on each of the major risk categories of the physical and transition risks. Risks are classified mainly around the following six categories. In the future, the classification of the risks and examples will be reviewed in response to changes in the environment.

- Example of Transition and Physical Risks

<table>
<thead>
<tr>
<th>Risk categories</th>

Scenario Analysis

The TCFD recommendations recommend conducting scenario analysis using multiple scenarios to demonstrate the flexibility and resilience of companies’ plans and strategies to risks related to climate change. Since the summer of 2019, MUF G has been a participant in the pilot project led by the United Nations Environment Programme Finance Initiative (UNEP FI) with the objective of discussing and developing methods for climate change-related financial information disclosure for the banking industry. Based on the results of examination conducted in the pilot project, MUF G has implemented scenario analysis of transition risks and physical risks for the period from 2020 to 2050. In addition to the results of the above-mentioned pilot project, the scenario analysis reflects the results of verification by external experts.

Transition Risk

The automotive sector is added to the existing two sectors of energy and utilities. Also, the scenario analysis is conducted, including the NGFS scenario released by the Network for Greening the Financial System (NGFS) in June, in addition to the scenario of the International Energy Agency (IEA), which has been the premise of our analysis.

Physical Risk

The analysis is based on the scenario released by the Intergovernmental Panel on Climate Change (IPCC) for floods, which have been particularly prominent in recent years in terms of frequency of occurrence and damage level.

<table>

<td>IPCC 2°C, 4°C scenarios</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Under the scenarios and assumptions analyzed and applied this time, the transition risk (for the energy, utilities, and automotive sectors combined) ranges from 1.5 to 23.0 billion yen on a single-year basis. In addition, it is confirmed that the cumulative amount of physical risk (flood damage) is approximately 38 billion yen.

Both the transition risk and physical risk have a limited impact on the credit portfolio in this scenario analysis. MUFG will continue to work towards expanding the number of target sectors and improving the way in which risks are reflected in the financial impact.

**Transition Risk**

Based on the results of the UNEP FI pilot project, a comprehensive approach was adopted for the measurement method, combining the bottom-up method at the individual company level and the top-down method at the sector level to assess the impact. In addition to the sustainable development scenario (well below 2°C scenario) released by the IEA, the NGFS scenario was used as an assumption. Then, in addition to the (well below) 2°C scenario, the 1.5°C scenario was analyzed on the impact on the credit ratings under each scenario, as well as analyzing the financial impact on an applicable sector’s overall credit portfolio.

**Results of Scenario Analysis**

<table>

</tr>
</tbody>
</table>

**Physical Risk**

Among the risks associated with physical damage caused by climate change, we adopted an approach to measure the impact on the overall credit portfolio using the default probability of a borrower that has changed because of the occurrence of floods, which have been particularly prominent in Japan and other countries in recent years in terms of both frequency of occurrence and damage level.

The climate scenarios are based on the RCP2.6 (2°C scenario) and RCP8.5 (4°C scenario) scenarios from the Coupled Model Intercomparison Project 5 (CMIP5) released by the Intergovernmental Panel on Climate Change (IPCC). The RCP8.5 scenario, which expects floods to be more frequent and larger in magnitude, was analyzed to estimate the damage caused by floods using data provided by various organizations.

In calculating financial impacts, in consideration of discussions conducted within the UNEP FI pilot project, we have reflected business suspension periods, loss arising in held assets and so on.

Risk Management

Reflection in the Risk Appetite Framework

From FY 2021, the risks related to climate change have been newly added to the Risk Appetite Statement. We aim to establish, maintain, and further develop a framework for appropriately managing risks related to climate change.

Outline of the Risk Appetite Framework

The Risk Appetite Framework is a framework for clarifying the risk appetite (the type and amount of risk to be undertaken) to achieve MUFG’s business strategy and financial plan and for conducting business management and risk management.

<table>

Climate Change-Related Risk in Enterprise Risk Management

- Top Risk Management-

In the "Top Risk Management" approach that MUFG primarily adopts for enterprise risk management, we consider the risks arising from climate change as one of the Top Risks. We also recognize that climate change-related risks are likely to become apparent and worsen in the medium to long term. In MUFG and its core subsidiaries, management is regularly engaged in discussions regarding the Top Risks to gain a further understanding of the risk recognition, and to develop appropriate risk control countermeasures.

Top Risk Management

MUFG defines a risk event as a loss that could be brought on to the Group as a result of the materialization of various risk scenarios and determines the importance level based on the impact and probability of the event. Risk events that should be paid most attention to over the next year are identified as Top risks.

Construction of a Management Framework to Address Change on a Group and Global Basis

MUFG has established a project team on a group and global basis to strengthen the response to risks related to climate change. The team will implement appropriate measures by identifying and sharing information on regulatory trends etc. and by establishing a framework for risk management on a group and global basis.

- Main Items to be Considered and Provided a Response -
  - Consideration of methods for classifying and analyzing risks related to climate change, setting risk appetites, and reflecting them in credit risk management (e.g., reflecting them in credit rating systems)
  - Implementation of scenario analysis in the area of credit risk and considering scenario analysis methods in the area of market risk
  - Organization of risk recognition related to transition risks and physical risks through case studies
We implemented MUFG Environmental and Social Policy Framework to manage environmental and social risks associated with our financing.* Concerning coal-fired power generation, mining (coal), oil and gas, and other specific sectors in which concerns are raised over environmental and social impacts, including climate change, we have established our finance policy and due diligence process to identify and assess the environmental and social risks or impacts associated with transactions has been introduced.

*Credit, bond and equity underwriting for corporate clients of MUFG’s main subsidiaries, the Bank, the Trust Bank and the Securities

### Environmental and Social Risk Management in Finance

We implemented MUFG Environmental and Social Policy Framework to manage environmental and social risks associated with our financing. Concerning coal-fired power generation, mining (coal), oil and gas, and other specific sectors in which concerns are raised over environmental and social impacts, including climate change, we have established our finance policy and a due diligence process to identify and assess the environmental and social risks or impacts associated with transactions has been introduced.

#### MUFG Environmental and Social Policy Framework

<table>
<thead>
<tr>
<th>MUFG Way and Code of Conduct</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>MUFG Environmental Policy Statement</strong></td>
</tr>
<tr>
<td><strong>MUFG Human Rights Policy Statement</strong></td>
</tr>
<tr>
<td><strong>Mitsubishi UFJ Financial Group, Inc.</strong></td>
</tr>
</tbody>
</table>

### Prohibited Transactions

- Illegal transactions and transactions for illegal purposes
- Transactions which violate public order and good morals
- Transactions that negatively impact wetlands designated under the Ramsar Convention
- Transactions that negatively impact UNESCO designated World Heritage Sites
- Transactions involving the use of child labor or forced labor

### Restricted Transactions

#### Cross-sectoral items

- Impact on Indigenous Peoples Communities
- Land expropriation leading to involuntary resettlement
- Impact on High Conservation Value areas

#### Sector specific items

- Coal Fired Power Generation Sector
- Mining sector (coal)
- Oil and Gas sector
- Oil and Gas sector - Oil sand sector
- Development of the Arctic Sector
- Large Hydropower Sector
- Forestry sector
- Palm oil sector
- Cluster Munitions Manufacturing Sector
- Inhumane Weapons Sector
- Nuclear weapons, biological and chemical weapons, and anti-personnel mines

### Due Diligence Process for Financing

#### Standard Due Diligence

The department in the relevant business division of each Core Subsidiary responsible makes the decision regarding categorization of the transaction as a “Prohibited Transaction” or “Restricted Transaction” is made based on available public information and information provided by the client.

#### Enhanced Due Diligence

If the transactions categorized as “Restricted Transactions”, it is implemented by the department responsible for management of environmental and social risks in each Core Subsidiary.

### Executive Management Discussion Addressing Reputational Risk

Transactions assessed as having the potential to have significant negative impacts on the corporate value of MUFG are evaluated with the involvement of executive management.

### Policies on the Sectors Related to the Environment, Including Climate Change

Since its establishment in May 2018, the MUFG Environmental and Social Policy Framework has been periodically reviewed in response to changes in business activities and the business environment.

#### Environment-related policies in the MUFG Environmental and Social Policy Framework

- **Coal Fired Power Generation**: Revised in Apr. 2021
- **Forestry**: adopted
- **Palm Oil**: adopted
- **Minning (coal)**: adopted
- **Oil and Gas (Oil sand, Development of the Arctic)**: adopted
- **Large Hydropower**: adopted

- **Retraction on the Sectors Related to the Environment, Including Climate Change**

  - **Coal-fired Power Generation**
    - Further restricted the policy to prohibit financing to expansion of existing facilities, stipulation made that any consideration will be made on individual basis from a more restrictive perspective
    - MUFG will not provide financing to new coal fired power generation projects or expansion of existing facilities
    - However, coal-fired power generation equipped with CCUS, mixed combustion, and other technologies necessary to achieve the Paris Agreement target may be considered on an individual basis

  - **Forestry**
    - Confirm no illegal logging or deforestation in areas of high conservation value are taking place

  - **Palm Oil**
    - Request our clients to publicly commit to NDPE (No Deforestation, No Peat and No Exploitation)

  - **Minning (coal)**
    - Not provide any financing to coal mining projects using the mountaintop removal (MTR) method

  - **Oil and Gas (Oil sand, development of the Arctic)**
    - Assess the impacts on ecosystems and indigenous communities affected by the developments

  - **Large Hydropower**
    - Assess the impact that the dam construction will have on the ecosystem, local communities, and the living environment

- **Awarded Silver in the Indirect Financial Service Category in the Second ESG Finance Awards Japan (Minister of the Environment Award)**

  At the award ceremony organized by the Ministry of the Environment of Japan, the Bank received the Silver Award in the Indirect Finance Sector Category, which recognizes the initiatives of institutions and organizations that actively conduct evaluations and reviews that take ESG factors into account, as well as financing and support based on these evaluations and reviews. One of the initiatives that was recognized was the relatively broad coverage of the MUFG Environmental and Social Policy Framework and the fact that reevaluations are conducted as necessary.

<td></td>
</tr>
</tbody>
</table>
| Identification of physical risks and measures to manage those risks  
| Alternatives Analysis  
| Assessment of transition risks  
| Public reporting of annual GHG emissions |

Projects with GHG emissions (Scope 1 and Scope 2), during its operational phase, of more than 100,000 tonnes of carbon dioxide equivalent per year

- Identification of physical risks and measures to manage those risks
- Alternatives Analysis
- Assessment of transition risks
- Public reporting of annual GHG emissions

*Category A refers to projects with potential significant and adverse environmental and social risks and/or impacts that are diverse, irreversible, or equivalent per year.

*Category B refers to projects with potential limited environmental and social risks and/or impacts that are few in number, generally site-specific, largely reversible and readily addressed through mitigation measures.

**Example of Climate Change Risk Assessment**

The following is an example of climate change risk assessment for a solar power generation project to be constructed in a coastal area in Asia. Since the annual GHG emissions from this project do not exceed 100,000 tonnes of carbon dioxide equivalent, the assessment focused on physical risks. Generally, when a project is subject to physical risk assessment, financial institutions evaluate potential risks (e.g., extreme weather events or changes in climate patterns) that could affect the project during operation and measures to manage those risks.

In this project, physical risks identified included extreme heat associated with rising temperatures, long-term sea level rise, natural disasters caused by typhoons and strong winds, and a decline in the amount of available water resources. It was also confirmed that appropriate plans have been developed to address the risks identified (see table below).

In its environmental and social risk assessment, the Bank evaluates climate change management measures provided by the project proponent and ensure that the requirements for climate change risk assessment, as stated in the Equator Principles, are met.

<table>
<thead>
<tr>
<th>Identification of physical risks</th>
<th>Main measures to be taken by the project proponent</th>
</tr>
</thead>
</table>
| Assessment method: The risk of climate change-related disasters in 2030 and 2050 is qualitatively assessed using the RCP4.5 scenario (intermediate stabilization scenario) and the RCP8.5 scenario (high GHG emissions scenario), both of which are climate change projection scenarios released by the United Nations Intergovernmental Panel on Climate Change (IPCC). | Declining water availability: Reduce the frequency of washing the solar panels to minimize water consumption.  
| Results: The following events were identified as being at particularly high risk in 2050: declining water availability, extreme heat, typhoons, strong winds, and coastal flooding due to sea level rise. | Extreme heat: Train workers on how to cope with working in hot and humid environments.  
| Typhoons and strong winds: Design equipment that can withstand maximum wind speeds that make outdoor activities extremely dangerous. | Coastal flooding due to sea level rise: Adjust the height of solar panel mounts to a level higher than the maximum expected flooding level. |

Metrics and Targets

**Sustainable Finance Target and Progress**

<table>
<thead>
<tr>
<th>Metric</th>
<th>Target</th>
<th>[Unit: trillion yen]</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cumulative execution amount of sustainable finance</td>
<td>Cumulative total of 35 trillion yen (including 18 trillion yen in the environmental sector) by FY2030</td>
<td></td>
</tr>
</tbody>
</table>

We have set our accumulated sustainable finance amount as of fiscal year 2030 as a sustainable finance target for solving environmental and social issues. Our accumulated sustainable finance amount as of fiscal year 2020 was ¥7.9 trillion (of which, ¥3.6 trillion is environmental area), and was proceeding steadily towards this target. In April 2021, we raised our target from ¥20 trillion to ¥35 trillion.

**Deﬁnition of Sustainable Finance**

The term “Sustainable Finance” refers to the provision of finance for the following businesses (including loans, equity investment in funds, arrangement of project finance and syndicated loans, underwriting of securities and bonds, and financial advisory services) with reference to the relevant external standards (e.g. the Green Loan Principles, Green Bond Principles, and Social Bond Principles).

**Environmental Area**

- Businesses contributing to the adaptation to and moderation of climate change, including renewable energy, energy efficiency improvement, and green buildings (e.g. arrangement of loans and project finance for renewable energy projects, underwriting and distribution of green bonds).

**Social Area**

- Businesses contributing to the development of startups, job creation, and poverty alleviation
- Businesses contributing to the energizing of local communities and regional revitalization
- Fundamental service businesses, including those involved in basic infrastructure such as public transport, waterworks, and airports, and essential services such as hospitals, schools and police (e.g. Emerging Industrial Technology Support Program, loans for regional revitalization projects such as MUFG Regional Revitalization Fund, arrangement of loans and project finance for public infrastructure, underwriting and distribution of social bonds).
As part of the effort to quantitatively identify and disclose the environmental impact of our financing, we have set a target to reduce CO₂ emissions by a cumulative total of 70 million tons¹ between FY 2019 and FY 2030 through project financing for renewable energy projects. This is equivalent to the annual CO₂ emissions from about half the households in Japan².

¹ Cumulative total of CO₂ reduction effect for one year, calculated from the amount of electricity generated by renewable energy projects underwritten in each fiscal year, facility utilization rates, and emission factors. The values take into account MUFG’s contribution in the underwriting phase.

² Prepared by MUFG based on a survey by the Ministry of the Environment entitled Statistical Survey of CO₂ Emissions from the Household Sector (Household CO₂ Statistics).
Credit Amounts Related to Coal-Fired Power Generation - Project Finance -

<table>
<thead>
<tr>
<th>Metric</th>
<th>Credit amount related to coal-fired power generation — Project finance (balance of lending)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Target</td>
<td>Reduce the balance by 50% by the end of FY 2030 from the FY 2019 level and reduce it to zero by FY 2040*1</td>
</tr>
<tr>
<td>Results</td>
<td>US$3,774 million (as of the end of FY 2020)*2</td>
</tr>
</tbody>
</table>

It is outlined in the MUFG Environmental and Social Policy Framework not to provide financing to new coal-fired power generation projects in principle. MUFG have set a target of reducing the balance of financing to coal-fired power generation projects by 50% from FY2019 by FY2030, and reducing it to zero by FY2040.

*1 Projects that contribute to the transition toward a decarbonized society are exceptional following the MUFG Environmental and Social Policy Framework.

*2 As of the end of FY 2019, US$3,580 million

Credit Related to Coal-fired Power Generation - Corporate Finance -

With regard to credit related to coal-fired power generation, in addition to project finance, MUFG verifies and discloses its corporate credit amount targets for customers with a high percentage of coal-fired power generation in their businesses as part of the process of setting interim targets for FY 2030 in the MUFG Carbon Neutrality Declaration.

The corporate credit to companies whose coal-fired power generation business accounts for more than 30% of their sales or EBITDA will be approximately 880 billion yen (as of March 31, 2021). We will monitor the progress of the customer’s transition, and we will conduct a thorough engagement if there is a high transition risk.

Environmental Impacts of Project Financing for Power Generation Projects

<table>
<thead>
<tr>
<th>Metric</th>
<th>CO2 emission intensity of project finance for power generation business*1</th>
</tr>
</thead>
</table>

The purpose of this calculation is to measure the environmental impact of project finance for power generation projects. The scope includes fossil fuel (coal, oil, and gas) thermal power generation and renewable energy projects.

*1 The intensity at the end of each fiscal year is calculated only from the project finance implemented in the relevant fiscal year.

<table>
<thead>
<tr>
<th>Metric</th>
<th>Basic unit of electricity use (electricity/total floor space)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Target</td>
<td>Reductions by 10.5% and 19.0% of the 2009 level by FY2020 and FY2030, respectively</td>
</tr>
<tr>
<td>Results</td>
<td>FY2020: Reductions by 18.0% of the 2009 level</td>
</tr>
</tbody>
</table>

As part of its efforts to reduce environmental impacts, the Bank has set targets for FY2020 and FY2030 to reduce the energy intensity index. In FY 2020, the Bank achieved our target for FY 2020 with a reduction by 18.0% of the 2009 level. For the FY2030 target, we will continue to promote further reduction of environmental impact by setting higher targets and expanding the scope of the target within the Group.

In March 2021, the Bank joined the Poseidon Principles, a global framework established by financial institutions for promoting shipping industry’s decarbonization. The Principles enable signatory financial institutions to contribute to maritime sector’s transition to a low-carbon industry in line with the International Maritime Organization’s (IMO) medium- to long-term greenhouse gas emission reduction targets. As a signatory, the Bank will calculate vessels’ carbon intensity and will disclose the results of annual assessments of the climate alignment of its shipping finance portfolio from FY 2022.
MUFG will continue its efforts to achieve net-zero GHG emissions from its investment and financing portfolio by 2050, as committed in the MUFG Carbon Neutrality Declaration, and will lead the way in addressing climate change, one of the most serious issues that the world faces.

- Action plan for initiatives to address climate change

<table>

<td>The Sustainability Committee deliberates the status of initiatives to address climate change, issues, Information disclosure, etc., based on the TCFD recommendations, and then reports to the Executive Committee, which in turn reports to the Board of Directors where the matters are reviewed.</td>
</tr>
<tr>
<td>Strategy</td>
<td>Materialization and promotion of the MUFG Carbon Neutrality Declaration - Consideration of disclosing the medium-term target for 2030 to achieve net-zero GHG emissions from the investment and loan portfolio by 2050 - Consideration of achieving net-zero in-house GHG emissions by 2030</td>
</tr>
<tr>
<td>Risk management</td>
<td>Continuous revision of the finance policy (MUFG Environmental and Social Policy Framework)</td>
</tr>
<tr>
<td>Metrics and Targets</td>
<td>Consideration for disclosing corporate credit amount targets for coal-fired power generation</td>
</tr>
</tbody>
</table>

Furthermore, based on the TCFD recommendations, MUFG will continue to address risks and opportunities related to climate change under the supervision of the Board of Directors and disclose the status of such efforts in a timely, appropriate, and proactive manner.

Responses to TCFD as an Asset Manager

Asset management companies under the MUFG umbrella are endorsing TCFD as asset managers and working to analyze the status of the investee’s response to climate change and assess their impact through the management of the portfolios they manage under contract. The Trust Bank disclosed information about the management of the portfolios it manages in line with the TCFD’s recommendations for disclosure under Governance, Strategy, Risk Management, and Metrics and Targets regarding climate-related risks and opportunities. By proactively disclosing climate change-related information, we will help our clients understand the status of their portfolios and encourage the companies in which we invest to take action on climate change.

Greenhouse Gas Emissions-Related Indicators for the Portfolio

MUFG calculates and evaluates greenhouse gas emission-related indicators (total greenhouse gas emissions, carbon footprint, carbon intensity, and weighted average carbon emission factors) for measuring and managing climate change-related risks and opportunities in our portfolios of equities and bonds. Indicators related to greenhouse gas emission are calculated using a data collection and analysis method via Institutional Shareholder Services (ISS). The analysis of total annual GHG emissions (Scope 1 and Scope 2) for all investees, including MUFG AM* and First Sentier Investors, confirms that the total annual GHG emissions will be 28.4 million t-CO₂e (as of March 31, 2022).

* The Trust and its subsidiaries, Mitsubishi UFJ International Investment Trust, M.U. Investment Management, Inc. Mitsubishi UFJ Asset Management (UK) Ltd.

Indicators Related to the Amount of Greenhouse Gas Emissions

- Total carbon emissions: Total amount of greenhouse emissions related to the portfolio
- Carbon footprint: Total greenhouse gas emissions divided by the market value of the portfolio
- Carbon intensity: Total greenhouse gas emissions divided by the sales of investee companies
- Weighted average carbon intensity (WACI): Weighted average of emissions per unit of sales of the investee company according to the composition of the portfolio

<table>
<thead>
<tr>

Scenario Analysis

MUFG used ISS’s analysis method by Sustainable Development Scenario (SDS)*1 based on the Paris Agreement (to keep the temperature rise well below 2°C and continue efforts to limit it to 1.5°C) announced by the IEA*2 in 2019 to forecast future trends in total greenhouse gas emissions reductions up to 2050 in the investee companies in the portfolio targeting equities and bonds.*3

As a result of the analysis, MUFG has projected the transition of total greenhouse gas emissions for a single portfolio of assets, and the companies in our portfolio currently account for approximately 60% of allowable greenhouse gas emissions and are expected to exceed the SDS by 2033. MUFG believes that, based on the results of its analysis, it is important to encourage portfolio companies to limit the risk of transition in the medium to long term.

*1 IEA: International Energy Agency
*2 SDS (Sustainable Development Scenario): A scenario in which global warming policies and investments are implemented to achieve the Paris Agreement, and progress is made toward achieving the SDGs and other sustainable development goals.
*3 The analysis covers all industries except fossil fuel producers: Scope 1-2, fossil fuel producers: Scope 3, electricity: Scope 1

Future Actions Based on the Analysis

Based on the results of the analysis of the total greenhouse gas emissions transition pathway, MUFG recognizes the risk that the impact of climate change will damage the value of its portfolio. We also believe that it is important to encourage the introduction of objective disclosure standards, as approximately 60% of our analytical issues rely on estimates.

In order to mitigate the effects of climate change, we believe it is important for portfolio companies to incorporate the risks and opportunities related to climate change into their long-term business strategies and to take action. As climate change is a significant ESG issue for Investees, we are actively engaging with issuers that have a significant impact. It believes that climate change is not only a risk, but also an opportunity to develop new technologies and increase the potential for business expansion in companies that it invests in. It will continue to improve its operational capabilities so as not to miss out on this new revenue opportunity.
Our Approach to Human Resource Development

Encouraging the Pursuit of Personal Growth and Challenging Endeavors

The MUFG Human Resources Principles provide the basis on which the Group has built a human resources management platform that aligns with the MUFG Way.

- Shared Values
- HR Mission
- HR Vision
- Teamwork
- HR Philosophy

Our basic philosophy on human resource development is to provide each employee with educational opportunities that enhance their discernment and sense of ethics as well as their knowledge and expertise, and to develop human resources who can make the MUFG Way a reality.

In line with the MUFG Way, we aim to provide our employees with opportunities for personal growth and offer an environment in which they can direct their energies into working with a sense of fulfillment. To this end, we promote inclusion & diversity. To embody the MUFG Way, we have also positioned “Integrity and Responsibility”, “Professionalism and Teamwork” and “Challenge Ourselves to Grow” as values to be shared by all employees as defined by the MUFG Human Resources Principles, which serve as the basis for human resources management. Based on these principles, all Group companies engage in the planning and implementation of their respective human resources management policies.

Improve Productivity and Nurture Professionals

During the period leading up to the end of fiscal 2023, we expect a reduction in the individual workload due to such factors as increased use of digital technologies to be accompanied by natural attrition in our employee headcount. Accordingly, we deem it important to redirect our human resources toward high-value-added operations and empower them to achieve higher performance as professionals. To this end, we aim to enhance operational efficiency and improve productivity via the incorporation of “smart” work styles and the digital shift.

Today, our employees are being called on to enhance their knowledge and skills in their respective business fields. With this in mind, we will promote human resource development and exchange on a groupwide basis while stepping up the specialty-focused recruitment of new graduates and individuals with external experience. In particular, we anticipate a growing need for specialists in compliance, internal auditing, legal affairs and other governance-related fields that require a high level of expertise as well as specialists in digital and cybersecurity field. We also need to secure human resources well-versed in wealth management, large corporate business requiring sector specialists and other fields in which MUFG aims to expand its operations. With this in mind, we will enhance human resources systems supporting our strategies in these fields while taking a groupwide, integrated approach to realize flexible staffing.

In the face of a constantly shrinking total headcount due largely to natural attrition, we will also develop a performance-based employee evaluation system that empowers diverse human resources to achieve greater career success than before regardless of their gender or age and thus accelerate the appointment of employees based on the performance.

Human Resource Development Program

Changing a Corporate Culture that Encourages Employees Challenge

MUFJ is strongly focused on encouraging each employee’s self-directed career building and, to this end, supports their growth and their ability to respond to challenges. Accordingly, we have positioned the Career Challenge System as a framework for gaining a variety of experience. We have a variety of programs within and outside the Group.

Main Programs of the Career Challenge System

<table>
<thead>
<tr>
<th>Program</th>
<th>Details</th>
<th>FY 2020 results</th>
</tr>
</thead>
<tbody>
<tr>
<td>Job Challenge</td>
<td>An in-house posting system targeting Group employees. Covering the extensive scope of business fields the MUFG Group encompasses, this system offers opportunities for applicants to take on tasks that align with their desires regardless of which Group entity they belong to.</td>
<td>723* applicants</td>
</tr>
<tr>
<td>New Business Proposal</td>
<td>This program solicits proposals from employees with regard to new services, products and operational improvements, thereby providing employees whose proposals are selected with opportunities to launch and spearhead proposed initiatives.</td>
<td>386* applicants</td>
</tr>
<tr>
<td>Open EX</td>
<td>This in-house posting program was developed to provide employees with opportunities to be seconded to startups or other external corporations as MUFG’s human resources evaluation criteria attach greater importance to possessing a broad range of business experience and knowledge about diverse corporate cultures.</td>
<td>17* employees</td>
</tr>
<tr>
<td>Challenge Leave</td>
<td>This system supports employees’ pursuit of their dreams or personal growth, which may include becoming an entrepreneur, studying abroad, acquiring certification or getting elected to a public office, by granting leave for a certain period of time.</td>
<td>15* employees</td>
</tr>
</tbody>
</table>

For example, the Job Challenge program helps applicants take on new missions within the Group, while the New Business Proposal program allows employees to launch the new services and products they propose. Also, we proactively assist employees in their pursuit of external business experience they cannot gain within the Group. Specifically, the Open EX program provides applicants with opportunities to work at startups and other external corporations. Moreover, the Challenge Leave program grants leave for a certain period of time to those wishing to study abroad, acquire certification or pursue other dreams. In addition, in February 2020, the Securities clarifies the standards for secondary employment and is working to create an environment where employees can easily take on the challenges of self-realization both inside and outside the company.

Innovative Change of Corporate Culture and Employees Survey

Through a variety of initiatives, MUFG develops professional human resources who can add value to the services provided by the Group, while aiming to create an organization that will enable us to provide greater value to its customers and society.

In addition, in order for the entire group to take on the challenge of retransforming the culture, it is important to create a workplace in which each and every employee finds their job reward. Through the annual MUFG Group Awareness and Engagement Survey, the Group identifies the issues its employees face and uses them to study and take a variety of measures.

The Bank requests employees to complete a simple survey that asks about their day-to-day motivation, health and workplace environment via company’s portal site. The Trust also conducts organizational diagnosis through weekly pulse surveys. The results are shared with employees to help identify and resolve problems at the early stage, promoting the creation of a healthy and open-minded workplace environment.
Developing Human Resources Who Create Value

Growing Need for Highly-Skilled Professionals

For MUFG’s sustainable growth, securing highly professional human resources in a variety of fields of specialization is important. For this purpose, MUFG is endeavoring to secure and nurture true professionals with advanced skills and expertise, through comprehensive efforts in recruitment and training. Each Group company is actively engaged in developing human resources through various programs and on-the-job training. However, when entering into and developing new business, human resources with expertise in new fields that cannot be handled by existing employees are required. In order to acquire the necessary human resources, we are promoting mid-career recruitment.

Furthermore, as integrated management of the MUFG companies progresses, it is becoming increasingly important to have business areas where the MUFG Companies work together along with human resources who can demonstrate their abilities across the MUFG companies regardless of the company they belong to. Under this situation, the MUFG Direct Employment System, a framework in which the holding company, MUFG, directly hires employees, was started in April 2019. The purpose of this system is to encourage employees with high skills and a wealth of experience to further demonstrate their abilities.

Nurturing Future Top Management: MUFG University

One of the key management issues of MUFG is the development of the future top management who will lead innovation and responsibility for taking on challenges and creating value. To solve this issue, the Group launched the MUFG University program for line managers and above in fiscal 2018, with a total of more than 600 attendees to date (96 in fiscal 2018, 220 in fiscal 2019 and 192 in fiscal 2020).

MUFG University offers two different courses, namely, the “Next-Generation Leader Course”, which aims to secure the future leaders of MUFG, and the “Management Course”, which aims to help managers enhance their skills. In the Next-Generation Leader Course, we offer general managers and branch managers multi-layered training programs through interactive classes conducted by external corporate managers and academic experts.

The Management Course is designed for Managing Directors, deputy general managers and deputy branch managers and offers a liberal arts session to cultivate the human skills and wide perspective required for management, thus steadily securing a robust pool of top management candidates. In fiscal 2019, we launched a project to develop coaching skills at the domestic general managers and branch managers. A total of 50 people participated in the program by fiscal 2020. In management, we draw out the individuality and strengths of each employees and strengthen their engagement, thereby enhance skills that encourage them to take on new challenges in new areas.

While the aim of nurturing human resources being capable of spearheading digital transformation (DX), we offer digital specialist training programs. For example, the Bank introduced a digital skill certification system based mainly on external qualifications acquired by employees. Also, we provide those in managerial positions with training programs incorporating topics on corporate culture transformation and leadership enhancement in line with MUFG’s digital strategies.

Nurturing Global Human Resources

Today, the MUFG Group has expanded into more than 50 countries around the globe, and approximately 52% of its entire workforce is accounted for by overseas employees (as of May 31, 2021). Based on the concept of “inclusion & diversity”, which is one of MUFG’s priority issues, in order to recruit and develop a diverse range of professionals, it is necessary to foster our corporate brand both in Japan and overseas so that people will want to work for MUFG.

MUFG is expanding opportunities for employees to play an even more active role by operating a market-standard and globally unified human resources platform for title management, employee evaluation, wage determination and other human resources practices.

As more and more employees with diverse backgrounds join, we began implementing job-level based training programs on a global basis to ensure all Group members understand the MUFG Way and embrace a shared culture. For example, we provide the Global LEAD Program targeting those in managing director or similar positions with a variety of experiences from different countries and regions where the group operates, to help such individuals acquire essential leadership knowledge as well as necessary perspectives and in-depth expertise on global operations. In addition, in the Three-month Intensive Program for working-level employees, participants from overseas facilities will receive on-the-job training in the form of business trips to other regional departments for three months. This not only fosters the development of the participating employees, but also fosters the mindset of the employees at the host sites to work globally.

These efforts are helping to increase the motivation of employees hired overseas, while at the same time expanding the talent pool, thereby promoting competition within the company and creating a virtuous cycle that will lead to the realization of a stronger organization Today, a growing number of individuals hired overseas have been promoted to managerial posts. For example, 13 of these individuals, including three women, have assumed executive officer positions at the Bank (as of March 31, 2021).
Evaluation of Human Resources

In order to achieve MUFG’s vision of the future, each employee is required to make changes and there is a need to create an environment that encourages employees to grow and take on challenges. Based on this, MUFG is reviewing the ideal employee profile and qualification requirements with a greater emphasis on “professionalism” and “innovation and challenge” and are also developing an environment that encourages employees to voluntarily make innovation and strive to achieve the careers they seek.

As for the performance evaluation, targets are set by all employees at the beginning of each fiscal year, the degree of achievement is reviewed and performance, including actions and processes, is evaluated at the end of the year. As for the competency evaluation, various competency indicators are set to make a multi-dimensional evaluation. After each evaluation, a feedback interview is held to communicate the strength and weakness, which will contribute to future performance and competency development. Thus, we encourage them to improve their performance and build their careers by ensuring deep understanding and objectivity. We also give 360-degree feedback to the executive level and the line and other managers at the management level. This is an opportunity to raise awareness of their managerial qualities, strength and weakness and to encourage them to make improvements by understanding observation from various perspectives such as subordinates, coworkers, related departments, and other concerned parties.

Inclusion & Diversity

Inclusion & Diversity, one of the top priority issues of MUFG, is also positioned as one of the most important business strategies of MUFG to remain committed to empowering a brighter future.

In 2006, MUFG established a dedicated department to promote diversity as a corporate management strategy under the commitment of the top management. In particular, we consider the promotion of diversity from the viewpoint of gender to be an important issue, and we are working to develop the ability of women and promote their appointment in higher positions. Our three main subsidiaries, the Bank, the Trust Bank and the Securities, set joint targets and report progress regularly at the executive committee.

In 2018, the Group started the integrated operation of the corporate center function. The three companies gather and work together to promote inclusion & diversity within the Group. At the annual HR exchange meetings, people from HR departments of about 40 Group companies gather to share best practices and issues. By doing so, the Group companies are in full coordination and promote inclusion & diversity effectively.

Our Themes and Actions

To improve the job reward of not only women but also a diverse range of employees, the scope of the initiatives has been greatly expanded to include promotion of the employment of people with disabilities and understanding of sexual minorities (LGBTQ), as well as support for balancing work with personal commitments such as childcare, nursing care and infertility treatment.

Our initiatives since 2006 are as shown below. We have upgraded the main theme from the improvement of job rewards of women, based on gender diversity, to one of a wider range of employees. Then, we made a group-wide effort to deepen the understanding of diversity and improve a variety of systems. Hereafter, we will further focus on creating workplaces where the power of diversity is most utilized so that all Group employees can demonstrate their characteristics and work together to provide services that exceed the expectations of customers.

Securities & inclusion & diversity initiatives by group companies

MUFG Group company also has its own independent definition of an “IkuBoss”. Each of our diverse employees grows and demonstrates their abilities, and work together as a Group to exceed the expectations of customers.

* An IkuBoss is defined as a manager of any level who produces results for the company while helping their team to achieve a good work-life balance, supporting their team’s careers and life choices, and realizing a good example by enjoying their own work and personal life. Each MUFG Group company has its own independent definition of an “IkuBoss”.

Supporting Career Development of Female Employees

Promoting gender diversity, or increasing the percentage of women in managerial positions, is a priority issue. MUFG set medium- to long-term targets and is developing the ability of women and promoting their appointment in higher positions under the commitment.

Setting Numerical Targets
At the Bank, the Trust Bank and the Securities, our joint numerical goal is to raise the ratio of women holding positions of line manager or higher to 18% in Japan by the end of March 2024. In order to reflect diverse viewpoints and values in areas closer to management, we have set a goal of higher-level positions than the previously targeted.

Please refer to page 152 for details on the progress and numerical targets in the Group companies.

Implementing a Variety of Programs for Women

The Bank, the Trust Bank and the Securities hold regular roundtable discussions participated in by female executives and management from the Group companies. They also carry out the Mentoring Program to assign mentors to female senior managers who are candidates for important posts and provide them with career advice and moral support.

For mid-level managers, we conduct joint training for selected employees, providing complementary opportunities to acquire skills such as strategy building and logical thinking, while sophisticating their corporate management perspective and big-picture perspective for their future success in higher-level positions.

In addition, we host Diversity Roundtable Discussions for those who wish to discuss their concerns about balancing career and life events with senior employees. Each Group company also carries out a variety of programs to respond to the issues they face.

Held a town hall meeting for female employees and the president Kamezawa

In December 2020, a town hall meeting was held between female employees and the president. Approximately 500 people attended the meeting from the Bank, the Trust Bank, and the Securities.

Employees submitted about 150 questions and opinions prior to the meeting. In addition to questions about the president's experience and thinking, they also expressed concerns specific to women, such as women's careers and the balance between work and childcare.

The first half of the meeting was a dialog between the president and the head of the Inclusion & Diversity Office. The second half was a Q&A session in which the president directly answered questions from employees.

Programs to Support Continuation of Career

To support the continuation of career, we established programs for re-employing ex-employees who left the company when their spouses were transferred abroad, giving a special leave of absence and changing work locations.
People with Disabilities

We are expanding roles for employees with disabilities by establishing special subsidiaries that offer suitable work options. Currently, about 1,400 employees with disabilities are playing an active role within MUFG and the Group’s employment rate is 2.48%* in Japan (as of June 1, 2021).

* The employment rate in Japan is calculated from the number of employees with disabilities at the Bank, the Trust Bank (for these two companies, special subsidiaries and the Group companies to which the exception rule applies are included), the Securities, NICOS and ACOM using the statutory formula set in the Employment Rate System for Persons with Disabilities.

Establishing Special Subsidiaries

The Bank and the Trust Bank established special subsidiaries and aim to help each employee play a role commensurate with their ability and aptitude, as well as attain job reward and contribute to society as a result.

<table>
<thead>
<tr>
<th>Mitsubishi UFJ Business Partner (Special subsidiary of the Bank)</th>
</tr>
</thead>
<tbody>
<tr>
<td>- The company was originally established in 1996. MU Business Aid and MU Business Partner merged in April 2020 and restarted under a new name and organization structure.</td>

</tr>
<tr>
<td>- A total of about 60 employees with disabilities at three locations in Tokyo work on their tasks.</td>
</tr>
<tr>
<td>- Since most of the employees are hearing-impaired, the company takes specific measures: they are alerted to visitors and emergencies by tricolor PATLITEs and share a volume of work of the day and work progress on a large display monitor. Voice recognition application is used for meetings and trainings.</td>
</tr>
</tbody>
</table>

Improvement of Workplace Environment at Group Companies

Each Group company endeavors to create a comfortable workplace environment for employees with disabilities. The Bank provided its hearing-impaired employees with iPads with a voice recognition application that converts text on PC into voice. Some employees come to work with their guide dogs.

LGBTQ

We are aiming to create workplaces where all employees can stay true to themselves, regardless of sexual orientation, gender identity, etc.

MUFG Clearly Prohibits Any Harassment or Discrimination on the Basis of Sexual Orientation and/or Gender Identity.

MUFG clearly prohibits any harassment or discrimination on the basis of sexual orientation and/or gender identity.

Details on our MUFG Human Rights Policy Statement are available on our website. (https://www.mufg.jp/english/csr/policy/)

Providing Training Opportunities and Publishing a Handbook

Each Group company conducts e-learning and other trainings that include case studies to help them acquire correct understanding and raise awareness for the prevention of discrimination and prejudice.

Recognition of Same-Sex Partnership

The Bank, the Trust Bank, the Securities, NICOS, MUS Business Service and MUS Information Systems have introduced a same-sex partnership recognition program that regards employees’ same-sex partners as being equivalent to opposite-sex spouses and that allows them to be beneficially of company benefits such as special paid leave and rent subsidies.

Sponsoring the Largest LGBTQ Pride Event in Japan

MUFG sponsors Tokyo Rainbow Pride*, which is held in Yoyogi Park, Tokyo every year.

In 2021, the event was held online as in previous years. MUFG participated in the event in collaboration with the Mizuho Financial Group and the Sumitomo Mitsui Financial Group. The three companies worked together to set up an online booth, participate in the online parade through SNS postings, and produce a message video to be used in the event.

Pride Month

In memory of the Stonewall riots in June 1969, various events that show support for the LGBTQ community are held all over the world every year in June, which has been designated as Pride Month.

MUFG based in the Americas displays the Pride Month message at all ATMs and other relevant locations in its U.S. branches on the West Coast during June. In FY 2020, MUFG held a campaign called “Show Your Colors”, which invited employees to submit photos of themselves wearing rainbow-colored clothing.

Effort to Visualize Allies

As part of the efforts to develop a safer workplace for LGBTQ people, we produce and distribute original rainbow-colored straps to employees who wish to wear them, making Ally, a person who supports LGBTQ, more visible in the company and providing an opportunity for other employees to become aware of the existence of LGBTQ people.
Initiatives to Balance Work and Personal Commitments

We are striving to create a workplace environment in which each and every one of our diverse employees can demonstrate their ability while keeping a balance with their personal commitments.

Support for Balancing Work and Childcare

Conventionally, women have been responsible for childcare and housework in many countries. As a result, wives of working couples with children are obliged to change the way they work. To change the situation, MUFG has introduced systems and programs to support employees who do childcare and housework, regardless of gender. In addition, we are striving to create a corporate culture that encourages all employees to work efficiently and productively in a flexible manner, by encouraging male employees to participate in childcare.

Balancing Support Programs

- **Representative Training and Programs**
  - **Pregnancy**
    - Pre-leave training
    - Return to Work Support Program "o wavie"*1
      - Nursery School Concierge*2
    - Pre-leave interview
    - Return to work support program "wawiiw" *1
    - Nursery School Concierge *2
  - **Birth**
    - Pre-leave training
    - Return to Work Support Program "o wavie"*1
      - Nursery School Concierge*2
    - Pre-leave interview
    - Return to work support program "wawiiw" *1
    - Nursery School Concierge *2
  - **Childcare**
    - Shorter working hours
    - Nursing leave
    - Childcare time
    - Staggered Working hours
    - Working from home
    - Baby sitter service
    - Day care / Baby sitter discounts
    - Nursery Schools

Supporting a Smooth Return to Work

Pre-and post-leave training, economic support and programs that allow for flexible work styles have been established to extend full support for continuous career development.

- **Initiatives of Group Companies**
  - **NICOS**
    - Employees who have returned to work or are raising children are given time to face themselves with themes, such as balancing work and childcare, their future career image, and self-improvement, and are given opportunities to exchange information. Roundtable discussions were held online in FY 2020.
  - **Master Trust Bank of Japan**
    - We arrange maternity/childcare leave lunch meetings. Employees on leave can participate together with their children and exchange information with senior employees who have returned to work following childbirth. Occasionally showing one’s face in the workspace also helps to improve overall understanding with coworkers.

Seminar for Balancing Work and Childcare

Since 2019, as part of our initiative to create workplace environments that allow employees to balance work and childcare regardless of gender, a seminar for couples raising children has been jointly held by the Bank, the Trust Bank and the Securities.

At a seminar held for working fathers in FY 2021, following a lecture by an external lecturer, information and opinions were exchanged among participants in groups on the effects of fathers’ participation in childcare, trends, and examples of childcare through the establishment of telecommuting under the COVID-19 pandemic, and other topics. Participants commented that it was good to be able to share the unique concerns of dads and that they wanted to build a good team both at home and at work.
Encouraging Male Employees to Participate in Childcare

In order to create workplace environments that allow employees to balance work and childcare regardless of gender, MUFG Group companies are carrying out initiatives to encourage male employees to take childcare leave, thereby raising awareness on more balanced work styles and promoting better understanding of colleagues who are working while raising children. Since FY2018, we have begun encouraging male employees to take childcare leave of about one month, among other initiatives.

- Initiatives of Group companies (Figures in the heading indicate the percentage of male employees taking childcare leave in FY 2020)
  - The Bank 90.3%*1
    Starting in FY2019, the Bank is encouraging employees to take days off for working days for the purpose of childcare, by combining 10-working-day paid childcare leave with 10-working-day annual paid leave, and it was named Ten Plus Ten. It also internally announces the names of the departments of employees who have taken 20 working days off. More than 200 employees have taken childcare leaves so far, after contacting the employees and their supervisors to promote the acquisition of the leave and introducing examples of experienced employees balancing work and family life. Starting in FY 2021, online networking is established through Microsoft Teams for working fathers and dads to be.
  - The Securities 100%*1
    Since FY2016, the company has been encouraging male employees to take childcare leave by setting a goal of 100%. Eligible employees and their superiors are notified of the procedures to take this leave. Opportunities for all employees to be aware of the necessity are increased by introducing in the company newsletter how the male employees participate in housework and childcare. Through these initiatives, the corporate culture is gradually changing so that male employees participate in childcare as a matter of course. Recommendation of the Ten Plus Ten program was also started concurrently with the Bank.
  - Master Trust Bank of Japan 100%*1
    Since FY2019, Master Trust Bank of Japan have set our goal to let all eligible male employees take childcare leave. They notify employees of childcare leave eligibility and send emails encouraging them to take it.
  - The Trust Bank 85%*2
    The Trust Bank started encouraging employees to take childcare leaves in FY 2019. In addition, starting in FY 2021, MUFG has been recommending that employees take a minimum of five business days of leave. Emails are sent to male employees who have had babies and their supervisors to encourage them to take the leave. In addition, it also promoted the leave by providing examples of use and clarifying the necessary procedures to take the leave. After setting the target, the ratio of male employees taking childcare leaves increased significantly (previously it was around 20%), indicating that MUFG is fostering a culture in which male employees can naturally participate in childcare.
  - Mitsubishi UFJ Information Technology 94%*3
    The president sends email messages congratulating male employees who have recently become fathers. In order to promote timely taking of childcare leave, departmental managers encourage male employees to take unused leave.

Information Provision to Those Balancing Work and Childcare

We provide information for those who want to balance work and childcare by issuing such publications as HUG-Kumu, a booklet for male employees, and Casebook for Overcoming the First Grade Barrier* for employees who are concerned about the work style after their children enter elementary school. We collected the voices of those who had experienced childcare and made such publications that would communicate the importance of men’s involvement in childcare and housework, well-thought ways to efficiently handle childcare and housework while working and hints and actual cases that can be used to realize a more flexible work style. These are not only helpful to employees with children, but also help their superiors and coworkers understand the realities of balancing work and childcare.

Support for Balancing Work and Caregiving

By 2025, all baby boomers in Japan (born between 1947 and 1949) will be 75 years of age or older. The increase in the number of elderly people needing nursing care and the resulting increase in the number of people leaving jobs to take care of their family members is expected to become major social problems.

- Balancing Support Programs
  - Representative Training and Programs
    - Before care starts
      - Information collection
      - Establishment of work-care balance
      - Work-style adjustment
    - Family member in need of care
      - Caregiving Seminar
      - Care Resource Website
    - Work-care balance Handbook
    - Work-care balance Case examples
    - (External Consultation) Care Concierge Desk
  - Programs
    - Shorter working hours
    - Staggered work hours
    - Family Care Leave
    - Exemption from overtime
    - Nursing Care Leave

Caregiving Seminars

We provide information for employees of Group companies to help them balance work and caregiving. Each seminar was attended by approximately 800 employees from about 40 Group companies. Because of the COVID-19 pandemic, however, on-demand videos have been distributed since FY 2020. Lectures by experts are used to help participants balance nursing care and work.

Work-care Support Services (Care Concierge Desk/Care Resource Website)

For our employees and their families, we introduced a concierge service by specialists and a nursing care information website that allows employees to search for nursing care facilities and services. We are preparing an environment where employees who are caring for someone, as well as those who want to prevent such a situation or those who may need to give care in the future, can consult with care professionals and gather information as needed via telephone or email.

Handbook and Casebooks

We issued a Work-Care Balance Handbook with basic information on work-care balance so that employees can respond smoothly in the event that they suddenly need to care for a relative. For those actually engaged in caregiving, we also issue a Balance Casebook and Experience Stories featuring examples of difficulties faced during caregiving and advice on what to prepare beforehand.
Support Balancing Work and Infertility Treatment

With the growing tendency of late marriage in Japan, the number of couples undergoing infertility treatment is increasing. MUFG supports employees who work and undergo such treatment.

Support Programs for Balancing

Each of our major companies offers support systems, such as special paid leave, a flexible work hour system, and other support programs that can be used regardless of gender.

Guidebook

MUFG published a Guidebook to Support the Balancing of Work and Infertility Treatment for employees undergoing treatment, their superiors and coworkers, and those who are considering treatment in the future. It is used to create a workplace environment that makes it easier to balance work and treatment.

Initiatives to Raise Awareness of Employees

Initiatives to Raise Awareness of Managers

The awareness of managers is one of the important factors in determining the success or failure of inclusion & diversity. We implement a variety of initiatives to penetrate an awareness of the diverse values and private lives of junior employees, enhancing job reward, and producing results.

Holding a Joint Workshop

We hold IkuBoss* Workshops where employees in managerial and pre-managerial positions discuss the way to have sincere communication with diverse junior employees. Following a presentation by an external lecturer, participants discussed how to deal with junior employees facing specific situations such as childcare and eldercare, thereby deepening their understanding of the importance of respecting junior employees’ private lives and values while also learning that they are cared for.

Managers Commitments

The major Group companies are participating in the IkuBoss Corporate Alliance*, striving to develop “IkuBoss” managers who are committed to the development of all junior employees and improve job reward in a manner that also achieves business results.

Providing Various Training

A wide range of training programs is offered, depending on the circumstances and priorities of each Group company. The Bank, the Trust Bank, and the Securities hold training sessions for newly appointed general managers, chief managers and senior managers to teach them the importance of being aware of unconscious biases and building a team with psychological safety in order to develop organizations and teams where each of the diverse employees can play an active role. For existing managers, we prepared opportunities to deepen their understanding of inclusion & diversity and to reflect on themselves through e-learning, on-demand video and personnel evaluation and other programs.

Culture Creation

We are implementing a variety of initiatives to develop a corporate culture in which the diversity of employees is mutually recognized and respected.

Diversity Month

The Bank, the Trust Bank and the Securities designated November as Diversity Month. In the periods around these months, training and workshops are held at all offices in Japan. The companies focus on a hot topic, such as Unconscious Bias, and create opportunities for employees to consider inclusion & diversity as an issue that could exert influence on themselves.

Initiatives of Group Companies

• NICOS

Seminars for managers are provided to give tips on new management styles that are based on changes in the social environment and to promote diversity management. Training opportunities are also being provided with the aim of fostering a subordinate development mindset and improving management skills, such as coaching.

• ACOM

Leadership enhancement training is provided to improve organizational capabilities. Participants learn how to enhance their mindset as a leader, acquire one-on-one skills, and improve their ability to build relationships in order to facilitate the growth of subordinates.

Managers Commitments

The top management and managers at Group companies make an IkuBoss Pledge to announce their commitment to team management and their own work styles.

Managers Commitments

The major Group companies are participating in the IkuBoss Corporate Alliance*, striving to develop “IkuBoss” managers who are committed to the development of all junior employees and improve job reward in a manner that also achieves business results.

* An IkuBoss is defined as a manager at any level who produces results for the company while helping their team to achieve a good work-life balance, supporting their team’s careers and life choices, and setting a good example by enjoying their own work and personal life.

* A corporate network of companies trying to raise management awareness and create more IkuBosses, hosted by the NPO Fathering Japan.
Employee-Driven Inclusion & Diversity Promotion
Employees independently implement a wide range of programs to create inclusive workplaces.

Japan Base
Mitsubishi UFJ Information Technology
The Diversity & Inclusion Promotion Committee was established in 2014. The committee is constantly active as members change each fiscal year. From 2017, the committee has taken on the important role of revitalizing communication within the company to ensure that the opinions of frontline employees are heard and that policies from head office are properly disseminated.

EMEA Base
The six employee networks play a critical role in building a culture of inclusion at MUFG and a working environment that embraces the diversity of our people.

- **disABILITY WORKS**
  - Positive NetWorks
  - Forum that acts as a resource and support network for all employees impacted by any form of disability

- **BALANCE**
  - Gender Diversity Network
  - Network with a vision for MUFG to be a gender-balanced organization

- **Pride Alliance**
  - LGBTQ+ & Allies Network
  - Open forum network to celebrate and drive LGBTQ+ inclusion with the support of Allies

- **MOSAIC**
  - Multicultural Network
  - Network that helps MUFG and its employees get the maximum benefit from our cultural diversity

- **Family Matters**
  - Family Network
  - Network that helps MUFG to be a “best in class” family-friendly organization of choice

- **Social Mobility**
  - Social Mobility Network
  - Network committed to creating a culture where employees feel like they belong at MUFG regardless of their socio-economic background

- **Americas Base**
  - Here, the employees are carrying out independent activities aiming to create a workplace where a diverse range of people can thrive, regardless of race, ethnicity, etc.

- **Adelante**
  - Hispanic/Latino Enterprise Resource Group
  - Hispanic / Latino

- **NextGen Leaders**
  - Generational Enterprise Resource Group
  - Generation

- **PULSE**
  - African American/Black Enterprise Resource Group
  - African American / Black

- **WIN**
  - Women’s Enterprise Resource Group
  - Women

- **ASPIRE**
  - Asian Pacific Islander Enterprise Resource Group
  - Asian American and Pacific Islander

- **Pride Alliance**
  - LGBTQ+ Enterprise Resource Group
  - LGBTQ and Ally

- **SERVE**
  - Veteran Enterprise Resource Group
  - Veterans

Human Rights Management

The MUFG Way, which guides all of our activities, defines the meaning of our existence to be committed to empowering a brighter future. Under this motto, we are committed to protecting the diverse human rights of all stakeholders, including society and our customers.

**Initiatives to Respect Human Rights**
The Group companies recognize the respect for human rights as an important issue to be addressed in the management of our business and issued the MUFG Human Rights Policy Statement. To fulfill our responsibility to respect human rights in all our operations, we are committed to increasing the awareness of human rights by helping all employees fully understand the contents of the Code of Conduct and Compliance Manual.

- A consultation service for sexual harassment, abuse of authority and others was also established at each of the Group companies to establish a pleasant work environment with a positive atmosphere. It responds to the reports coming in via a variety of means including interviews, telephone calls and emails, and promotes respect for human rights. It also accepts and responds to reports from customers outside the Group about human rights violations caused by MUFG’s business activities.

- Please refer to page 123 for details on our Whistleblowing Compliance Management System.

Human Rights Management Structure
The Sustainability Committee, chaired by the CSuO of the Group, who is also a member of MUFG’s Board of Directors, is discussing measures and action policies concerning the respect for human rights based on the MUFG Human Rights Policy. The MUFG Human Rights Policy is determined by the Board of Directors.
Human Rights Awareness-Raising Structure and Its Activities Conducted at Group companies

The Bank, the Trust Bank, and the Securities have established the following human rights awareness promotion system. Also, in addition to conducting training and other enlightenment activities, promoters, and persons in charge of enlightenment activities installed in each division, office, and branch are promoting and implementing initiatives for respect for human rights throughout the MUFG Group.

Sharing Human Rights Slogans

As part of its human rights awareness-raising activities, the Bank and the Trust Bank collect human rights slogans every year from their employees and their families. Excellent slogans are selected from among the ones collected from across the country and posted in the company newsletter and portal site to be shared across the companies.

Human Rights Due Diligence

As part of its efforts to address human rights issues, MUFG carries out human rights due diligence on its customers, employees and other stakeholders according to the following policies:

- **MUFG Group Personal Information Protection Policy** (Details: [https://www.mufg.jp/english/privacy/](https://www.mufg.jp/english/privacy/))

The MUFG Human Rights Policy Statement stipulates that the Group is guided by the international principles for human rights, such as the Guiding Principles on Business and Human Rights, its officers and employees strive to respect the human rights of all people, and the Group urges clients and suppliers to respect human rights.

**On Employees**

In accordance with the MUFG Human Rights Policy, MUFG is committed to eliminating and removing all forms of discrimination in employment and all workplaces, while ensuring compliance with the Policy through awareness-raising activities.

We have established the MUFG Compliance Helpline, which serves as a reception desk for reports on human rights violations from all Group employees, and we are enhancing the system to prevent and not to tolerate these acts. We also carry out human rights due diligence on the workplace environment through interviews for employees who seem to be overworking and stress level checks.

**On Customers**

We established the MUFG Environmental and Social Policy Framework as the basis for the management of environmental and social issues, including human rights issues, in financing for corporate customers. We assure respect for human rights by conducting due diligence prescribed in the Policy Framework as necessary when making credit decisions at the Group Bank and Trust Bank, and when underwriting bonds at the Group securities companies. We also make efforts to protect the privacy of customers involved in our business activities, including those who use banks by ensuring appropriate handling and prevention of personal information leakage.

**On Suppliers**

In response to the enforcement of the Modern Slavery Act in the UK in 2015 and in Australia in 2019, MUFG companies subject to this law published a statement on their initiative to prevent exploitation of labor and human trafficking in their and suppliers’ business in fiscal 2019, and they are making efforts to prevent human rights abuses in their supply chains. (Visit the links on the right.)

Health and Productivity Management

MUFG is promoting mental and physical health as part of its efforts to respect employees’ human rights and create a pleasant workplace environment with a positive atmosphere. To be concrete, industrial physicians and counselors are stationed at each MUFG Group company to manage employee health through follow-up medical examinations based on the results of regular health checkups and interviews with overworked employees. It also works in liaison with external doctors and counselors to address employees’ mental health issues. Another effort is the maintenance of employees’ mental and physical health using stress level checks and other measures.

- Initiatives of Group Companies
  - The Bank
    - Regular health checkups
    - Health Committee meetings and workplace patrol
    - Distribution of Health Clinic Newsletter
    - Mental health checkup
    - Regular environment checks in each division, office and branch
    - Support for the cost of influenza vaccination
  - The Trust Bank
    - Regular health checkups
    - Health committee meetings and workplace patrols
    - Posting information about occupational health and consultation services on the Employees Counselors Division page on the company portal site
    - Stress level checks
    - Providing personal consultation and health promotion planning and guidance for employees on the Employees Counselors Division page
    - Declaration of Health and Productivity management

The Securities

- Regular health checkups and rubella antibody testing
- Establishment of Safety and Health Management Rules, Health Committee meetings and workplace patrols
- Information submission to employees such as distribution of Healthcare Center Human Resources Division Newsletter
- Health counseling and mental health care
- Stress level checks
- Interviews with overworked employees by industrial physicians

Certified as a Health & Productivity Management Outstanding Organizations 2021 (Large Enterprise Category)

The Trust Bank was recognized as a Health & Productivity Management Outstanding Organizations 2021 (Large Enterprise Category) under the Certified Health & Productivity Management Outstanding Organizations Recognition Program jointly hosted by the Ministry of Economy, Trade and Industry (METI) and Nippon Kenko Kaigi (Japan Health Conference) two years in a row. The Trust Bank’s goal is the trust bank creates a safe and enriching society - a team of professionals that can solve challenges faced by society and customers. To achieve this goal, we believe that the mental and physical health of each employee is of the utmost importance. Bearing this in mind, the Trust Bank conducts health and productivity management for the mental and physical health of employees and the well-being of their families through a variety of initiatives and further respond to the trust and expectations of customers and society. Other MUFG Group companies also promote health and productivity management by sharing knowledge and how such initiatives were conducted in the Group.

Universal Support

MUFG is committed to introducing universal design both in software and hardware aspects. MUFG collects, analyzes, and shares the opinions and requests from customers of all Group companies, and uses this feedback to improve its products and services.

Responding to Customers in a Universal Manner

To ensure that all customers can use our branches with peace of mind, we make an effort to greet people as they enter our locations and provide guidance, thoughtfully offer easy-to-understand explanations and respond in an appropriate and agreeable manner.

Universal Designed Branches

MUFG is engaged in the installation of tactile paving for the visually impaired, the elimination of steps through the introduction of ramps, the installation of automatic doors, and other initiatives to improve the convenience and safety of branch entrances, so that all customers can access our facilities with comfort and peace of mind.

Providing Universal Services

By reducing bank transfer fees, allowing family members to sign forms by proxy and so on, we also provide services that consider the needs of persons with disabilities.

- Application of ATM transfer fees
  The same transfer fees as ATM transfer fees are applied to customers with visual impairments and wheelchair users when they make a transfer at the counter.
- Simplification of Administration by Proxy
  In cases where a customer finds it difficult to fill out or stamp a document due to visual or other physical disabilities, it may be possible for an accompanying family member to serve as a proxy, depending on the type of transaction.
- Simplification of procedures to allow payment by proxy when the intent of the depositor cannot be verified
  When the intent of the depositor cannot be verified, it may be possible to arrange for a family member or other proxy to make necessary payments on their behalf for hospital / treatment fees, care facility fees, or tax / social insurance fees on request (See Note).
  * (Note) Depending on the payment method, the relationship of the proxy to the depositor, and the documents required, there might be cases where the Bank and the Trust Bank unable to comply with such requests.
- Communication Board
  To accommodate customers with hearing and speech impairments, in addition to tools like writing pad and communication boards, the Bank branches are equipped with tablet devices with applications which support communication by using videophones to connect customers to sign language operators, and handwriting and speech recognition systems.
The Bank
- Displaying pictograms
- Training for improving service skills for the elderly and people with disabilities
- Preparing a manual for improved service skills for the elderly
- Posting assistance dog stickers
- Posting Ear Symbol stickers
- Providing sign language and communication-in-writing (only in case of lost or stolen passbooks and cash cards)
- Handling Braille Cards and Notification Forms
- Consultation Service for People with Disabilities
- Preparing a LGBT handbook
- Cooperation with Community General Support Center

The Trust Bank
- Displaying pictograms
- Training for improving service skills for the elderly and people with disabilities
- Preparing a manual for improved service skills for the elderly
- Posting assistance dog stickers
- Posting Ear Symbol stickers
- All branches are equipped with reading glasses, hearing aids, loupes, writing devices, clipboards for writing, communication boards and wheelchairs
- ATMs are equipped with handsets for communication
- Seminars on service assistance

The Securities
- Taking a training course for supporting dementia patients
- Equipped with reading glasses and writing devices
- Eliminating steps and differences in level on the floors in branches
- Installing automatic doors
- Distributing Ally declaration straps (upon request)

Customer Focus and Initiatives

Fundamental Concept
Customer-oriented approaches and fair and honest attitudes constitute the foundation of our business. The Code of Conduct stipulates the standards that guide officers and employees’ decision-making and behavior in our day-to-day business activities under the MUFG Way. We set Customer Focus in the first chapter of the Code of Conduct and the Group is endeavoring to make all employees behave according to this philosophy.

Fiduciary Duties
MUFG has set and published MUFG Basic Policy for Fiduciary Duties as a common guideline of the Group so as to ensure that its undertakings are always customer-oriented. Under this Policy, the Group companies share their customer-first undertakings, aspire to further improve their products and services and announce status updates. In addition, MUFG monitors the implementation of the Code of Conduct and at the same time, the Group companies share their customer-first undertakings, aspire to further improve their customer-oriented business operations and to promote the integration of operations across the Group including the sharing of best practices, while inviting outside experts as advisors who provide suggestions and advice from diverse perspectives to further improve products and services.

Opinions and requests we receive from customers are valuable assets of MUFG. The Group companies - the Bank, the Trust Bank, the Securities, NICOS and ACOM - analyze customer feedback received via employees at sales offices, by telephone and by email to make improvements. The five companies received about 180,000 opinions and requests from customers in total in fiscal 2020, of which 249 were utilized for service improvement.

Some examples of improvements include the addition of a name change function to the app that does not require customers to visit a bank (Kantan Tetsuduki App) to meet the needs of customers who wish to complete procedures without talking to a clerk. In addition, we regularly conduct customer satisfaction surveys and analyze the factors of low evaluation, if any, and make efforts to improvement.

MUFG collects, analyzes, and shares the opinions and requests from customers of all Group companies, and we use this feedback to improve our products and services. We continue to attract customers and build a higher level of trust for the future.

MUFG is committed to improving its business operations and quality based on customer feedback. To ensure that all customers feel reassured when using our services, each employee is improving their skills so that he/she not only protects the existing trust of customers and builds a higher level of trust for the future.

Improvements Based on Customer Feedback
Social Contribution Activities

Fundamental Concept of Social Contribution

Financial institutions have a responsibility to stabilize and maintain the financial system and contribute to the sound growth of society. To this end, we fulfill our social mission as a foundation of society and are striving to contribute to the realization of a sustainable society by solving social issues through financial services. We will carry out social contribution activities in the following priority areas: “Initiatives to Combat the spread of COVID-19”, “Supporting future generations (Education - Sports - Environment)”, “Disaster relief” and “Support through the activities of MUFG employees”, such as donations and volunteer work, in fields where it is difficult to contribute through financial services or where there is a critical need for society.

Framework for Social Contribution Activities

MUFG has established and operates a framework for providing funds to social contribution activities (such as donations) for an amount equivalent to 0.5% of the Group’s net business profit*1 of the previous fiscal year. The total of the Group companies’ contributions related to social contribution activities and this framework amounts to approximately 1% of the Group’s net business profit.2 In FY 2020, the Group as a whole contributed 9.16 billion yen. Amid the COVID-19 pandemic, MUFG again strongly recognized the importance of social stability and provided various kinds of support for medical care and students. MUFG will continue to provide more agile and flexible support for areas where it is difficult to contribute through financial services and areas that are truly necessary for society.

Management Structure

Under MUFG’s Sustainability Office, the department that is responsible for the promotion of social contribution activities at each Group company is placed. These departments jointly hold monthly liaison meetings to share information on their initiatives and activities, which accelerate the activities of the entire Group to solve social issues and contribute to the realization of a sustainable society.

Expenses for Social Contribution Activities

MUFG has established and operates a framework for providing funds to social contribution activities (such as donations) for an amount equivalent to 0.5% of the Group’s net business profit of the previous fiscal year. The total of the Group companies’ contributions related to social contribution activities and this framework amounts to approximately 1% of the Group’s net business profit. In FY 2020, the Group as a whole contributed 9.16 billion yen. Amid the COVID-19 pandemic, MUFG again strongly recognized the importance of social stability and provided various kinds of support for medical care and students. MUFG will continue to provide more agile and flexible support for areas where it is difficult to contribute through financial services and areas that are truly necessary for society.

*1 Net business profits after deduction of credit-related costs, etc.
*2 Donations and support for the control of COVID-19 made this year are included in this framework.

FY 2020 was severely impacted by the COVID-19 pandemic. We are going to do whatever we can to overcome this major challenge and will make donations and provide support to prevent the spread of the infection in accordance with the needs and demands of society.

Support for Medical Professionals: 1.5 Billion Yen in Total

Donation to the Japanese Red Cross Society
To help ease the serious shortage of masks, protective clothing and other equipment at medical institutions, MUFG donated to the Japanese Red Cross Society to support medical professionals who continue to provide care at hospitals designated as medical institutions for specified infectious diseases across the country (500 million yen in total).

Donations to the Institute of Medical Science at the University of Tokyo and Osaka University
MUFG donated to the Institute of Medical Science at the University of Tokyo and Osaka University, which are leading the way in vaccine development in Japan, in order to further support the effort to prevent the spread of the infection and support the development of medical care in Japan over the medium to long term (500 million yen in total).

#MUFG at Home / Donetion to
MUFG donated 39 yen (as “39 (San-kyu in Japanese)” sounds like “Thank you”) to the Japanese Red Cross Society and the All Japan Hospital Association for each transaction made by an individual customer using the internet (Mitsubishi UFJ Direct, etc.) as a donation and support initiative we tackle with customers (500 million yen in total).

Support for Students: 1.6 Billion Yen in Total

Donation to the Japan Student Services Organization (JASSO) and the nonprofit student support organization Ashinaga
MUFG donated 500 million yen each to the Japan Student Services Organization (JASSO) and the nonprofit student support organization Ashinaga to support children who were almost forced to give up their higher education, despite their motivation and ability, due to financial or other reasons because of the spread of COVID-19, and children who had lost their parents to illness or disaster, etc (one billion in total).

Recruitment of Survey Respondents for Students
Students whose income from part-time jobs decreased due to the spread of COVID-19 were recruited as respondents of a survey for the development and improvement of MUFG products and services. More than ten online surveys “MUFG Beta” were conducted and students were paid for their participation (200 million yen in total).

Donations to Support the Higher Education and Daily Life of International Students
Because of the spread of COVID-19, there are many highly motivated international students who are in financial difficulties due to the lack of part-time work opportunities to cover tuition and living expenses, and might be forced to give up their studies in Japan. In order to support their education and living expenses, MUFG donated 100 million yen each (400 million yen in total) to the Thai Student Association in Japan, the Embassy of the Republic of Indonesia in Tokyo Japan, the Association of Filipino Students in Japan and the Association of Vietnamese Intellectuals in Japan in cooperation with four of MUFG’s partner banks in Southeast Asia*. 

Establishment of MUFG Medical Fund
The Bank, in collaboration with Mitsubishi UFJ Capital, which has extensive experience in the life science field, established an investment fund of 10 billion yen to support venture companies in the fields of drug discovery and regenerative medicine, including measures to treat and prevent COVID-19. Since its establishment, we have received more than 100 inquiries and executed multiple investments in many fields, including drug discovery for drugs to treat COVID-19, regenerative medicine, medical devices, and telemedicine. We will continue to invest aggressively in promising fields (10 billion yen in total).
Initiatives for Priority Areas

Supporting Future generation [Education]

Donation to Child Support Groups
MUFG decided to donate to the following three organizations working to support children: CliniClowns Japan, a certified nonprofit organization supporting sick children, Learning for All, a nonprofit organization working to support children from poor families, and Chance for Children, an association for the same purpose as the previous one. It will provide continuous support from fiscal 2020. (180 million yen in total).

Culture Support Project: Shiki Theatre Company’s “Kokorono Gekijo”
MUFG sponsors Shiki Theatre Company’s nationwide project “kokorono gekijo”. This project embodies the philosophy of “Through the stage, we hope to instill in the hearts of children the preciousness of life, consideration for others, the joy of mutual trust, and all the other important things in life”. In FY 2020, all scheduled performances of “kokoro nog gekijo” were canceled due to the COVID-19 pandemic. In FY 2021, MUFG is going to support the online distribution of the performances.

Donations to the Jibun Mirai Club
To support the next generation (children and young people) who were deprived of activity opportunities due to the COVID-19 pandemic, MUFG made a donation to the Jibun Mirai Club, an NPO that provides educational support for children. Donations will be used to run the “Global E-workshop”, an online educational program, and “Project 1” (50 million yen in total).

Financial and Economic Education for Children
As part of its social contribution activities utilizing the core business expertise of a financial institution, MUFG focuses on financial and economic education for elementary, middle, and high school students. In addition to providing them with opportunities to learn about the mechanisms of finance and economics, we carefully devise the programs so that they can develop the ability to become socially independent and live their own life in the future. We have conducted visiting lectures and work experience programs for students and the cumulative total of the number of classes since 2012 has become over 3,000.

Investment Education Programs
MUFG provides working adults with seminars on life planning and asset management as one of the educational programs, designed to help each generation find investment for building their future assets more accessible. The Group also provides a variety of educational contents, including cartoons and columns that trigger interest in asset building.

Sponsoring UNESCO School
For the development of the next generation, which is essential for the realization and maintenance of a sustainable society, the Bank works with the National Federation of UNESCO Associations in Japan and actively supports SDGs education in schools. In fiscal 2020, financial support was provided for 79 schools as the UNESCO School SDGs Assist Project. It also contributed to the promotion of the activities of UNESCO Schools by sponsoring their National Conference and introducing SDGs initiatives of companies.

Supporting Future Generation [Sports]

MUFG Junior Tennis Tournament
As part of its support for the next generation, the Bank donated to the Japan Tennis Association and sponsored the MUFG Junior Tennis Tournament, a tournament that is a gateway to success for children who aspire to become professionals (5 million yen in total). The tournament was held under strict measures against the infection and had the participation of 136 children.

The MUFG Cup, a Graduation Commemoration Football Tournament
The MUFG Cup is a football tournament held every year in Tokyo, Aichi, and Osaka for sixth graders who are soon to graduate from elementary schools, with the hope that through sports they will learn to bond with their peers and appreciate the people involved. In FY 2020, the Tokyo and Aichi tournaments were canceled because of the COVID-19 pandemic, but 124 children enjoyed the football tournament in Osaka, which was held under thorough measures against the infection.
MUFG Forest for Working Together with Customers

MUFG launched a program to plant approximately 100,000 trees and to donate a total of 500 million yen for their growth over a ten-year period. Trees were planted through the Present Tree project in accordance with the number of new applications for and the number of switches to the online passbook of the Bank and the Trust Bank. The planted trees absorb CO₂ that is equivalent to the annual CO₂ emissions from the electricity consumption of 10,000 households for cooking.

Supporting Future Generation [Environment]

Industry-Academia Partnership with the University of Tokyo

In order to protect the future of the next generation, MUFG is collaborating with the University of Tokyo to conduct joint research on Japan’s decarbonization pathway and the role of finance in realizing it. The Center for Global Commons (CGC), established by the University of Tokyo (Institute for Future Initiatives), is conducting practical research on the maintenance and management of a stable global system (global commons). MUFG sympathizes and agrees with the activities of the CGC, which contribute to the realization of the MUFG Carbon Neutrality Declaration, and will support its activities over the next three years (300 million yen in total).

Support for Fuel Cell Bus

MUFG supported the introduction of fuel cell buses, a project subsidized by the Osaka prefectural government in preparation for Expo 2025 Osaka Kansai, by using the corporate version of the Hometown Tax Donation system (53.25 million yen in total). A fuel cell bus is a bus that runs on electricity generated by a chemical reaction between hydrogen and oxygen in the air, which drives the motor and emits no CO₂ or environmentally harmful substances during operation. MUFG has positioned hydrogen and next-generation energies as a priority area and will continue to contribute to the establishment of a hydrogen supply chain and the realization of a sustainable society beyond that.

* The Present Tree project was started by Environmental Relations, a certified NPO, in January 2020. Through this project, participants plant trees in communities where forests should be created, such as forests damaged in natural disasters, former development sites, and abandoned clear-cutting sites in various parts of Japan, where the birthrate is declining and the population is aging. People in urban areas will become foster parents of the trees and

Disaster Relief

Providing Support through the MUFG NFUAJ East Japan Earthquake Recovery and Scholarship Fund

MUFG and the Bank, in cooperation with, the National Federation of UNESCO Associations in Japan (NFUAJ), established the MUFG NFUAJ East Japan Earthquake Recovery and Scholarship Fund in April 2011. For up to 15 years, the fund will be working with local schools in operating a scholarship program and holding various support projects for orphaned students (children who lost one or both of their parents as a result of the earthquake or tsunami) from elementary through high school. The fund is expected to grow to around 3 billion yen.

Scholarship Program

At the start of the program, each student is awarded 100,000 and subsequently awarded 200,000 every month until high school graduation. Since the program was introduced, 1,500 students have so far received scholarships. The program offered its final round of new scholarships to children who entered elementary school in FY2014, and these scholarships will continue until those students have graduated from high school in 2026.

Support for Disaster Caused by Heavy Rain in Kumamoto and Kagoshima Prefectures

In response to the heavy rains that hit Kumamoto and Kagoshima Prefectures in July 2020, MUFG made a donation to help the affected areas recover and rebuild as quickly as possible (5 million yen in total).

Support through the Activities of MUFG Employees

MUFG SOUL - Turning Passion into Power for Society-

MUFG provides funding for ideas for solving social issues that are planned by employees. In fiscal 2020, more than 300 plans and ideas were gathered from employees, including support for children’s cafeterias, which provide free or inexpensive meals to children, and nursing homes, and contributions to community revitalization, and a total of more than 2,500 people participated in social contribution activities (100 million yen in total).

We will continue to contribute to the resolution of a wider range of social issues by addressing issues from the perspective of our employees.

Global Volunteer Month "MUFG Gives Back"

Since the establishment of Global Volunteer Month in 2013, MUFG employees all over the world have been working together on initiatives to host local contribution activities. In the wake of the Great East Japan Earthquake, Japan was blessed with support from across the world for its reconstruction efforts. In response, and as an opportunity to express gratitude for the support Japan received, we have christened these initiatives "MUFG Gives Back", and we continue to expand our activities each year. As a global initiative, in which employees are engaged in CSR activities together at the same time, MUFG Gives Back is one of the largest CSR initiatives among Japanese corporates, representing an opportunity for employees in their respective areas and at their respective branches to experience the impact of local philanthropy. In this section, we introduce a sample of the activities.

Responsibility and Authority

Fundamental Concept
MUFG aims at its sustainable growth and increase in medium-to-long term corporate value, based on the requests from stakeholders including shareholders, customers, employees and local communities. MUFG is committed to fair, just and transparent corporate management and to the realization of effective corporate governance guided by the MUFG Corporate Governance Policies.

Executive Compensations

Introduction of a Heightened Metric for ESG-Related External Ratings as a New Key Performance Indicator for the Executive Compensation System

MUFG revised its executive compensation system to achieve the medium-term business plan and implement sustainability management, and has newly installed a heightened metric for ESG-related external ratings as a medium- to long-term performance-linked indicator for stock-based compensation. The system is designed to reflect the degree of improvement in external ratings granted by major five ESG rating agencies’ in executive compensation with the intention of aligning MUFG’s corporate behavior with the interests of diverse stakeholders.

* MSCI, FTSE Russell, Sustainalytics, S&P Dow Jones, CDP

Compensation Ratio

\[ \text{Compensation Ratio} = \frac{\text{New Key Performance Indicator}}{\text{Executive Compensation}} \]

Medium-to-long term achievement evaluation部分

- Consolidated ROE (Weight: 30%)
- Consolidated expenses reduction amount (excluding those linked to revenues) (Weight: 15%)
- Ratings granted by ESG rating agencies’ (Weight: 5%)

In addition to incentivizing recipients to advance sustainability management, this indicator is determined on an absolute evaluation basis in light of the degree of improvement in external ratings granted by major five ESG rating agencies (CDP, FTSE Russell, MSCI, S&P Dow Jones and Sustainalytics), with the aim of objectively assessing the recipient’s contribution to MUFG’s initiatives to address ESG issues in a variety of fields.

Competitor comparison evaluation part

- Stock compensation
- Applicable executive compensation systems for directors, executive officers, and corporate officers of MUFG and its major subsidiaries.
- No malus clawback provision is applicable.
- In principle, the acquired shares are held until the time of retirement.

\[ \text{Stock compensation} = \frac{\text{New Key Performance Indicator}}{\text{Executive Compensation}} \]

For the president of the holding company

For executive officers, the Compensation Committee decides only by independent outside directors.

Percentage of increase/decrease in indicators compared to the previous year and percentage of achievement compared to target

\[ \text{Consolidated ROE} = \frac{\text{New Key Performance Indicator}}{\text{Executive Compensation}} \]

Consolidated net operating profits attributable to owners of parent

\[ \text{Consolidated expenses reduction amount} = \frac{\text{New Key Performance Indicator}}{\text{Executive Compensation}} \]

Ratings granted by ESG rating agencies’

\[ \text{Ratings granted by ESG rating agencies’} = \frac{\text{New Key Performance Indicator}}{\text{Executive Compensation}} \]

Percentage of increase/decrease in indicators compared to the previous year and percentage of achievement compared to target

\[ \text{New Key Performance Indicator} = \frac{\text{Medium-to-long term achievement evaluation}}{\text{Executive Compensation}} \]

For the president of the holding company

For executive officers, the Compensation Committee decides only by independent outside directors.

Percentage of increase/decrease in indicators compared to the previous year and percentage of achievement compared to target

\[ \text{New Key Performance Indicator} = \frac{\text{Medium-to-long term achievement evaluation}}{\text{Executive Compensation}} \]
Approach to ESG Committee Issues

Sustainability Committee Meetings

MUFG holds regular committee meetings to identify ESG issues affecting corporate management, and report and discuss how the Group is responding to them. In fiscal 2020, the Committee meeting in December and deliberated on the framework for MUFG’s sustainability management and a review of priority issues. Details of the deliberations are as follows.

External Advisors in the Environment and Social Fields

Since 2019, we have engaged external experts in the environmental and social fields as permanent external advisors. Opinions were exchanged between the experts and the members of the Board of Directors, allowing us to use their broad knowledge of ESG in our sustainability initiatives.

Rintaro Tamaki
President, Japan Center for International Finance

Junko Edahiro
Professor, Graduate School of Leadership and Innovation, Shizenkan University / President, Institute for Studies in Happiness, Economy and Society / Founder and President, e’s Inc.

Opinion Exchange Meeting with Advisors

At the opinion exchange meeting held in November 2020, there was a lively exchange of opinions on global trends, such as the changing social awareness of “capitalism”, the changing role required of corporations, the remarkable rise in awareness of sustainability brought about by the COVID-19 pandemic, and the mission of financial institutions in this context. Following the exchange of opinions, MUFG recognized that the issues it needs to address include further acceleration of its climate change response and expansion of its response to ESG in general, including the creation of the social impact.

● Opinions from Advisors (extracted)

Junko Edahiro

● While the shift to online work under the COVID-19 pandemic will lead to increased efficiency, it may also inhibit the creation of innovation born through real-life experiences.
● The digitalization and greening of society are expected to progress in a complementary and synergistic manner.
● The position of hydrogen utilization in combination with carbon capture and utilization (CCU) as one of the keys to emission reduction is becoming more important in home and abroad.

Rintaro Tamaki

● The perception and meaning of capitalism in society are changing, and companies are required to be aware of more stakeholders than ever before.
● Responding to climate change is an essential item for companies to address. In addition, further efforts will be needed to address social aspects, and to strengthen governance.
● The role of financial institutions is also becoming more important and changing, for example, using a company’s overall efforts to reduce emissions as the basis for investment and financing decisions, rather than investing in individual business or project.
Risk Management

Managing Environmental and Social Risks in Financing

Principles of Risk Management

MUFG has identified the risks associated with various environmental and social issues, such as response to climate change & environmental protection, as a priority issue, and recognizes that they exert significant influence on the Group's corporate management for sustainable growth. As a financial institution that aims to be a trusted global financial group chosen by the world, the Group also grasps the risks caused by its business activities and endeavors to control and reduce them. MUFG manages these sustainability-related risks within the MUFG Environmental and Social Policy Framework, which is based on the MUFG Environmental Policy Statement and the MUFG Human Rights Policy Statement. The framework is managed by the Sustainability Committee under the Executive Committee, and it is formed to be consistent with the framework for controlling reputational risks that could damage the Group's corporate value. In addition, the status of policies and initiatives to the environmental and social risks are discussed and reported by the Credit & Investment Management Committee, the Credit Committee and the Risk Management Committee depending on the theme. Conclusions reached by the above committees are reported to the Executive Committee, and reported to and discussed by the Board of Directors, and the Board of Directors oversees risks related to environmental and social issues.

Risk Assessment Process

Standard due diligence is conducted by departments that have direct contact with customers to identify and assess the environmental and social risks of business that is to be financed by MUFG. If it is determined that the business needs to be examined more carefully, MUFG conducts enhanced due diligence and decides whether or not to finance the business. As for business that would have significant environmental and social risks and could potentially damage MUFG’s corporate value or develop into a reputational risk, MUFG holds discussions on how to handle it within a framework participated by senior management. In addition, the Bank adopted the Equator Principles, a framework for identifying, assessing and controlling the environmental and social risks of large-scale projects, and conducts risk assessments in accordance with its Guidelines.

Major Risks and Responses

MUFG designated business with significant environmental and social risks as “Prohibited Transaction” if they are illegal businesses or businesses with illegal purposes and the like, and as “Restricted Transaction” if they have a negative impact on indigenous communities and the like. It has been tightening its policy on business that has a significant impact on climate change including coal-fired power generation. By periodically reviewing and sophisticating the MUFG Environmental and Social Policy Framework, the Sustainability Committee will continue to address risks that may emerge as a result of changes in business activities and the business environment.

*Prohibited Transaction: Includes illegal business or business with illegal purposes, and business violating public order and morals
*Restricted Transaction: Business classified as cross-sectoral, including ones that exert a negative impact on indigenous communities and in specific sectors, including coal-fired power generation
Compliance

Basic Policy

We have established MUFG Group Code of Conduct as a set of guidelines for how the Group’s directors and employees should act to realize the MUFG Way. The code expresses our commitment to complying with laws and regulations globally, to acting with honesty and integrity, and to behaving in a manner that supports and strengthens the trust and confidence of society. In addition, as we expand the geographic scope of our business globally, we are committed to keeping abreast of developments in laws and regulations of the jurisdictions in which we operate, including anti-money laundering and anti-bribery rules as well as competition laws, while paying attention to trends in financial crimes.

Compliance Framework

Management and coordination of compliance-related matters are the responsibility of separate compliance management divisions established at the holding company and the major subsidiaries, namely, the Bank, the Trust Bank and Mitsubishi UFJ Securities Holdings (hereinafter, the “three subsidiaries”). Each compliance management division formulates compliance programs and organizes training courses to promote compliance, and regularly reports to each company’s board of directors and Executive Committee on the status of compliance activities.

The holding company has established a Group Compliance Committee while the three subsidiaries have Compliance Committees under their executive committees to deliberate key issues related to compliance. Additionally, the holding company has a Group Chief Compliance Officer, or CCO, Committee, which consists of the CCO of the holding company and the CCOs of the three subsidiaries. The Group CCO Committee deliberates important matters related to compliance and compliance-related issues for which the Group should share a common understanding.

Ensuring Thorough Compliance

We engage in ongoing efforts to ensure that each employee embraces proper action principles in accordance with the Code of Conduct by, for example, providing various compliance training and distributing messages from top management. Every year, we also update the content of the Code of Conduct with reference to the results of the annual Group Awareness and Engagement Survey as well as changes in the business environment at home and abroad. The updated Code of Conduct released in fiscal 2021 is simplified overall and designed to communicate easy-to-understand messages to employees while incorporating additional comments regarding the prohibition of improper entertainment and gifts as well as the prevention of bribery and corruption with the aim of living up to the global standards required of us by regulatory authorities. As such, MUFG is constantly striving to ensure thorough compliance.

Initiatives to Enhance Global Financial Crimes Compliance Framework

MUFG established the Global Financial Crimes Division (“GFCD”), which is in charge of Anti-Money Laundering (AML), Counter-Terrorist Financing (“CFT”), Sanctions Compliance, and Anti-Bribery and Corruption (collectively, “Global Financial Crimes Compliance”), against the backdrop of heightened regulatory expectations in that area. MUFG established GFCD’s headquarters in New York, where the excellence for financial crimes risk management is centralized, and is implementing a number of initiatives to prevent, detect, and deter financial crimes.

MUFG established policies that define the governance and oversight structure for financial crimes risk management across MUFG and provide the foundation for the implementation of the financial crimes compliance program in a manner that is commensurate with the strategies, business activities, and risk profiles of each Group company. Through these policies, MUFG promotes a consistent and integrated approach across the Group globally.

The Bank, one of the Group companies, incorporated the Group’s mandate in the “Global Financial Crimes Policy Statement”, which is available on the Bank’s public website and provides confirmation that the Bank is committed to financial crimes risk management and has in place appropriate controls. As a member of the Wolfsberg Group,¹ the Bank is proud to work with other global financial institutions to develop frameworks and guidance for the financial crimes risk management.

In addition, the Bank established shared organizations (Centers of Excellence) in the Americas, EMEA, Asia, and Japan. Through these Centers of Excellence, the Bank is centralizing certain AML and sanctions compliance processes and expertise to assist in the fight against money laundering, terrorist financing, and sanctions violations. As processes move from local branches and offices and become integrated into the Centers of Excellence, the Bank will be better positioned to achieve globally consistent and effective operations.

The Bank is also enhancing its financial crimes compliance systems and establishing a data warehouse. These enhancements will support a globally consistent, effective, and efficient financial crimes compliance program and will help the Bank detect more complex and sophisticated types of financial crimes in a sustainable and flexible manner.

Furthermore, the Bank is investing in its people, with continued hiring of financial crimes compliance specialists, training, updated information-sharing, and accumulation and exchange of knowledge and skills through a global staff rotation program. We continue to work on the enhancement of global financial crimes compliance in line with the requirements and expectations of international organizations, including regulators in each country, FATF,² to support and strengthen the trust and confidence of society.

¹ The Wolfsberg Group is an association of thirteen global banks which aims to develop frameworks and guidance for the management of financial crime risks.

² FATF: Financial Action Task Force on money laundering, an intergovernmental body that advocates for taking a coordinated international response in AML and counter-terrorist financing.

Whistle-Blowing Systems

Development and operation of the Whistle-Blowing Systems

Having positioned its whistle-blowing systems as an important governance tool, MUFG has helped each Group company develop such a system to ensure their ability to promptly address and resolve any issues associated with compliance. Moreover, the MUFG Compliance Helpline operates year-round and is capable of handling a report from any Group member no matter what their location on an around-the-clock basis.

Each system ensures the anonymity of whistleblowers and the confidentiality of the information received, and the code of conduct and internal regulations stipulate that no disadvantage will result from reporting. While ensuring the protection of whistleblowers, we investigate, take corrective action, and then follow up. In addition, we aim to ensure that each employee is able to quickly access this helpline whenever he/she has even the slightest suspicion regarding compliance. To this end, we let all employees know about this helpline as well as records on internal reporting accepted thus far. At the same time, we are striving to enhance the reliability of our whistleblowing systems via, for example, the sharing of actual compliance-related cases in a form that makes it impossible to determine the identities of whistleblowers. In fiscal 2020, a total of 570 reports were received at the helplines of MUFG and major Group companies.

All whistle-blowing systems of MUFG and its subsidiaries – the Bank, the Trust Bank, the Securities, NICOS and ACOM – are registered in the Japan’s Consumer Affairs Agency’s Whistleblowing Compliance Management System (WCMS) certification standards* based on self-declaration.

Cyber Security

Basic Policy

MUFG is well aware of its social responsibilities for securing the assets entrusted by customers and its obligation to provide secure and stable financial services. With this in mind, MUFG has positioned threats posed by cyberattacks and other relevant events as Top Risks. Accordingly, we are promoting cyber security measures under management’s leadership.

Cyber Security Management Structure

Governance Structure

MUFG has cyber security standards that reference international guidelines and is engaged in the development of relevant strategies and organizational structures as well as the planning and implementation of initiatives aimed at enhancing its cyber security measures. MUFG enacted the Cyber Security Management Declaration with the intention of securing robust responsiveness to cyber-attacks and crimes that have become increasingly sophisticated and complex and strengthening our security management structure under the direct supervision of top management. Under the leadership of the Group Chief Information Security Officer (CISO), the Cyber Security Office plays a central role to enhance IT security governance and to promote effective cyber security strategies efficiently. MUFG also has a structure for reporting to the Board of Directors and the Executive Committee that facilitates top management decision making, ensuring that MUFG is responsive to changes in cyber security threats as well as in the status of MUFG’s cyber security management.

Management Structure

MUFG launched the MUFG Cyber Security Fusion Center (MUFG-CSFC) as part of the Cyber Security Office. The fusion center is tasked with intelligence analyses and other cyber security-related operations and plays a role in around-the-clock security monitoring on a groupwide and global basis. MUFG has been upgrading the ability of its incident response teams to ensure that cyber security incidents are dealt with swiftly. MUFG-CERT is leading the implementation of cyber security measures at each Group company and is securing close collaboration with government agencies and other financial institutions for the periodic execution of cyber security training and drills aimed at securing preparedness for incidents.

* Computer Security Incident Response Team
As remote work increases rapidly due to the COVID-19, cyber-attacks and frauds exploiting the vulnerabilities are on the rise. In response to the changes in the environment, MUFG conducted thorough validation of remote work environment on a groupwide and global basis, enhancement of cyber security measures against newly disclosed vulnerabilities and of employee education on the use of remote work devices. With the rapid progress of the use of electronic payments on the internet such as Internet banking, cybercrimes that target online services have also become social issues. MUFG is implementing a variety of initiatives to deliver safe and secure services to customers, such as ensuring robust online verification, thoroughgoing vulnerability countermeasures, threat intelligence, anomaly detection, and suspicious-transaction monitoring with swift response.

MUFG proactively promotes value creation driven by new technologies such as Cloud services, Big Data, AI, Robotics, Blockchain and Open APIs. From the viewpoint of ensuring cyber security, we carefully examine the characteristics of new technologies and appoint security specialists of the Cyber Security Office to participate in relevant projects from upstream processes, such as planning and design. Moreover, the Cyber Security Office incorporates multi-layered cyber security measures, including management procedures and monitoring of system settings, to support safe and secure transformation to new modes of operations supported by cutting-edge technologies.

For MUFG to maintain the stable operation of its financial infrastructure and to constantly deliver valuable services to customers, it is essential to foster a corporate culture where each employee understands the importance of cyber security and considers what should be done as a company while acting in collaboration with other financial institutions or government authorities.

In addition to developing human resources with advanced cyber security expertise, the Cyber Security Office provides executives and employees of MUFG affiliates as well as employees of partner companies with education on security threat trends and necessary countermeasures through a variety of tools or programs, such as e-learning, phishing mail exercises and security seminars. The Cyber Security Office is also engaged in various activities with external organizations such as collaboration with the Financial ISAC Japan, IT security association of financial institutions, and participation in various training and drills hosted by the NISC (National center of Incident readiness and Strategy for Cybersecurity), the Financial Services Agency or the Tokyo Metropolitan Police Department.
Pursuit of Sustainability in Partner Banks

MUFG’s Partner Bank

Through our partner banks in the Americas and ASEAN countries, MUFG provides a diverse range of commercial banking services to address the challenges faced by retail, small and medium-sized businesses, large corporations, and local communities. MUFG considers Asia as one of its mother markets, and in addition to the strategic investment in Krungsri (Bank of Ayudhya) in Thailand in 2013, MUFG has invested in commercial banks in three other countries, including Vietnam, the Philippines, and Indonesia, to build its network in ASEAN. MUFG is promoting collaboration with each of our partner banks, including MUFG Union Bank in the United States, and is working together as a group to promote sustainability initiatives.

Thailand
Krungsri (Bank of Ayudhya)

- MUFG’s equity stake: 76.88%
- Ranking among domestic banks: 5th
- Number of bases: 667

USA
MUFG Union Bank

- MUFG’s equity stake: 100.0%
- Ranking among domestic banks: 13th
- Number of bases: 297

Indonesia
Bank Danamon

- MUFG’s equity stake: 92.47%
- Ranking among domestic banks: 5th
- Number of bases: 810

Vietnam
VietinBank

- MUFG’s equity stake: 19.73%
- Ranking among domestic banks: 2nd
- Number of bases: 1,113

The Philippines
Security Bank Corporation

- MUFG’s equity stake: 20.00%
- Ranking among domestic banks: 8th
- Number of bases: 313

Source: SNL, Central Bank of the Philippines, Bloomberg, and other companies’ disclosures

* Numbers marked with an asterisk (*) denote number of bases for the company itself and its partner banks.

Initiatives of Each Companies

Krungsri (Bank of Ayudhya): Thailand

Ranked Second in Thailand’s ESG Bond Underwriting
Krungsri is actively promoting ESG financing. The bank is positioned as one of the leading banks in Thailand’s ESG finance market, and it became the second largest ESG bond underwriter in Thailand in fiscal 2020. In addition, Krungsri has been contributing to the development of the green bond market through the issuance of multiple green bonds.

Large-Scale Business Meeting Held Online for The First Time in Collaboration with MUFG
Leveraging Krungsri’s local network and MUFG’s global network, MUFG has continued to provide support to Thai companies for their overseas business development. More than 200 customer companies from Thailand, Japan, ASEAN countries, and other countries participated in the large-scale business meeting, which was held for the eighth consecutive year, and more than 300 business negotiations were held. In addition to the business negotiations, MUFG also provided online advisory services to support our customers’ overseas expansion and business development by utilizing the localized functions that only a local bank like Krungsri can provide with MUFG’s global network.

Support for Start-up Companies in Thailand that Face Challenges with the COVID-19 Pandemic
With the COVID-19 pandemic, an increasing number of companies around the world are facing challenges, such as fundraising. Given such circumstances, Krungsri Finnovate, a subsidiary of Krungsri, held “Meet the Angels by Krungsri Finnovate”, an online business matching event to connect Thai startups with angel investors.

The purpose of the event was for startups to showcase their business ideas to investors, receive real-time feedback, and find partners to further expand their businesses.

MUFG will continue to promote business matching with angel investors, who place importance on investing in businesses with high potential, and support start-up companies by providing opportunities that meet the needs of both parties under the COVID-19 pandemic.
**Won Five Awards from The Asset**

The Asset is an international financial magazine based in Hong Kong, which target issuers in Asia as well as global institutional investors who invest in Asia. Krungsri received five awards in this year’s newly established Sustainability Awards category:

- Thailand’s Best Sustainability Bond (ASEAN’s first sustainability bond with a sovereign issuer)
- Thailand’s Best Green Bond (Thailand’s first green bond using a digital platform)
- Thailand’s Best Retail Bond (Thailand’s first bond certified as a climate bond for private investors)
- Regional’s Best Sustainability Bond (ASEAN’s first sustainability bond with a sovereign issuer)
- Regional’s Best Local Currency Green Bond (Thailand’s first green bond based on an external evaluation)

**Awarded by The International Financing Review Asia**

Krungsri acted as structuring advisor and lead organizer for the sustainability bond issued by Thai Ministry of Finance, the first sovereign issuer in ASEAN, and was awarded Bond of the Year by International Financing Review Asia (IFR Asia), an international financial magazine published by Refinitiv, a financial information company.

**Received Four Awards from the Thai Bond Market Association**

Received the following four awards at the Thai BMA Best Bond Awards 2020:

- Deal of the Year (Thailand’s first green bond based on an external evaluation)
- ESG Bond - Government category (ASEAN’s first sustainability bond with a sovereign issuer)
- ESG Bond - Corporate category (Thailand’s first green bond based on an external evaluation)
- Distinguished Issuer (Thailand’s first bond certified as a climate bond for private investors)

*Please refer to Krungsri’s Sustainability Report 2020 for details on “Deal of the Year” and “Distinguished Issuer.”* (For details of each bond, see P.73) [https://www.krungsri.com/en/investor-relations/annual-report/sustainability-reports]

---

**Bank Danamon: Indonesia**

**Business Meeting Held Online with MUFG**

In collaboration with MUFG, Bank Danamon held an online business meeting in February 2021 to connect Indonesian companies with MUFG customers in Japan and Southeast Asia. 120 SMEs and large corporations from Japan, Indonesia, and other ASEAN countries participated in the event, and more than 260 business negotiations were held. By leveraging Bank Danamon’s strong local network and MUFG’s expertise in business matching, we will contribute to the growth of Indonesia’s economy by supporting our customers’ expansion into Indonesia and the growth of their businesses.

**Support for Medical Institutions through Islamic Finance**

In collaboration with MUFG, Bank Danamon provided financial support to a local medical institution.

With financial needs increasing under the COVID-19 pandemic, Bank Danamon provided finance in form of sharia-compliant lease* to the medical institution whose financing needs could not be met with conventional loans. By leveraging MUFG’s ability to identify projects through its Japanese customer network and Bank Danamon’s ability to offer credit solutions as a local bank, Bank Danamon provided sharia-compliant lease for procuring medical equipment.

**Response to Prevent the COVID-19 Pandemic**

- Financing for COVID-19 Vaccine Manufacturing Facilities through Islamic Finance
  
  Bank Danamon provided a loan of 1.5 trillion rupiah (about 10.9 billion yen) through Islamic finance to a major pharmaceutical company in Indonesia to finance its capital investment in COVID-19 vaccine manufacturing facilities.

- Donation of Personal Protective Equipment (PPE) to Hospitals and Medical Facilities throughout Indonesia
  
  Bank Danamon donated 4,000 pieces of personal protective equipment to healthcare workers who are working on the frontlines to treat COVID-19 patients.

- Provided Insurance for 10,000 Volunteers
  
  Bank Danamon provided insurance for 10,000 volunteers of the National Agency for Disaster Countermeasures of Indonesia, who are engaging in high risk activities for the society and people under the COVID-19 pandemic.

* Please refer to page 38 for the details on the response to the COVID-19 pandemic.

- Support for Drivers of Ride Hailing Industry
  
  Bank Danamon and its subsidiary Adira Finance have donated over one billion rupiah (approx. 7.3 million yen) to Grab* and Gojek to support drivers who deliver food, medicines, and other essential items.

* Donations to Grab were made in collaboration with MUFG.

---

**Sharia-compliant lease:** The bank acts as the property owner/lessor and signs a leasing agreement with the lender (customer). Because of the system in which the customer pays the principal and interest in normal lending as a rental fee, there is no giving or receiving of interest, which is in compliance with Islamic doctrine. In accordance with Indonesian accounting standards, it is not recorded on the lessee’s balance sheet.
MUFG Union Bank launches Green Deposits in February 2021. MUFG Union Bank is using the deposited funds to finance the renewable energy technologies including wind, solar, geothermal, and battery storage. In August 2021, MUFG expanded the offering to its corporate clients. We will contribute to solving environmental issues together with our customers by providing them with indirect investment opportunities in the environmental field.

Provide Mortgage Loans, Including Subsidy Support
MUFG Union Bank supports homeownership opportunities for people at all income levels by providing mortgage loans, including subsidized support, and reduces information gaps by providing financial education.

Response to COVID-19 Pandemic
- Implemented US$3 billion PPP Loan
MUFG Union Bank participated in the U.S. federal government’s PPP loan* assistance program, part of the Coronavirus Aid Relief and Economic Security Act (CARES Act) of 2020. Union Bank processed 14,918 applications for our small business and nonprofit clients affected by the COVID-19 pandemic in California, Washington, and Oregon.

Promotion of Virtual Volunteer as MUFG Gives Back Program
The MUFG Gives Back Program enables employees to engage in social contribution activities throughout the year on a coordinated global basis. The program also serves to express our gratitude to the people of the world for support during the recovery from the Great East Japan Earthquake, particularly upon marking the tenth anniversary in 2021. During the COVID-19 pandemic, our employees continued to volunteer (33,235 hours in fiscal 2020), thanks to a range of virtual volunteering opportunities that have allowed us to implement activities despite the limitations of distance and region.

Donation of 50,000 USD to Foster Clean Technologies
The MUFG Union Bank Foundation has donated 50,000 USD to New York University’s Urban Futures Lab with the goal of inspiring and nurturing clean technology entrepreneurs. The funds will be used for the operation of a competition focusing on innovative clean technologies and business models that can help solve the challenges of climate change, which is scheduled to be held in September 2021.

Establishment of the Sustainable Business Office for the Americas
MUFG Union Bank launched the Sustainable Business Office for the Americas in FY 2020 to strengthen sustainability efforts across business and operational lines. MUFG Union Bank will continue to make further contributions to the realization of a sustainable environment and society by leveraging many years of experience in leading the market in renewable energy project finance, green social loans/bonds, and financing for sustainable agriculture.

Rebuilding of the La Mesa Branch with an Electric Car Charging Station
MUFG Union Bank’s La Mesa branch was destroyed by fire during the civil unrest that took place throughout the community. The branch is scheduled to reopen in 2022 and is being rebuilt with strong support and input from the local community. It will feature a meeting room where residents can gather, a community garden with plants donated by local residents, and two electric vehicle charging stations.

Participation in the Coalition for an Environmentally Responsible Economy (CERES)
MUFG Union Bank joined the Coalition for Environmentally Responsible Economies, a non-governmental organization that operates an investor network with 200 institutional investors with USD 47 trillion AUM that seek to accelerate the carbon transition through sustainable investment practices, engagement with corporate leaders, and advocacy for key policies.

* PPP loan: Loans by Paycheck Protection Program (PPP)
Small and medium-sized enterprises (SMEs) with less than 500 employees can borrow up to 2.5 times the total monthly salary of all employees (up to $10 million). If a certain amount of the loan is used to pay salaries, rents, utility bills, etc., and the company meets conditions such as maintaining employment or rehiring employees, the debt is forgiven.

Please refer to page 112 for details on the MUFG Gives Back Program.

Details are available on MUFG Union Bank’s website.
Participation to Initiatives

MUFG participates in and endorses a variety of initiatives to meet the social responsibilities as a financial institution, meet the demands of the international community, and contribute to the realization of a sustainable society. (Listed in descending order of endorsement)

**Net-Zero Banking Alliance (NZBA)**

The NZBA is an initiative convened by the United Nations Environment Programme Finance Initiative (UNEP-FI), which was launched in April 2021 by 43 banks around the world with the aim of achieving net-zero GHG emissions from financed portfolios by 2050.

In June of the same year, MUFG became the first Japanese financial institution to join the NZBA. In addition, MUFG has been selected as one of the Asian regional representatives of the Steering Group consisting of 12 banks elected from each region. MUFG is also the only Japanese bank to participate in the Glasgow Financial Alliance for Net Zero (GFANZ) working group, which brings together sector-specific initiatives in finance, including the NZBA, that are leading the way to reach net zero (as of September, 2021).

*Steering group member (https://www.unepfi.org/net-zero-banking/members/governance/)

**Partnership for Carbon Accounting Financials (PCAF)**

In August 2021, MUFG joined the PCAF, an international initiative launched in 2015 with the aspiration to standardize the measurement and disclosure of financed emissions.

**The Sustainable Markets Initiative (SMI)**

SMI is an initiative that Prince Charles of the United Kingdom called on companies to work together to promote and accelerate the realization of a sustainable future in 2020.

MUFG participate in the Financial Services Task Force and will contribute to the realization of a sustainable and environmentally friendly society and the promotion of decarbonization from the standpoint of a finance institute.

**Japan Partnership for Circular Economy**

MUFG has joined the Japan Partnership for Circular Economy (J4CE) that the Ministry of the Environment, the Ministry of Economy, Trade and Industry, and Keidanren (Japan Business Federation) launched in March 2021 with the aim of fostering a better understanding of the circular economy among a wide range of stakeholders, including domestic companies, and promoting its initiatives.

**The Poseidon Principles**

The Bank has joined the Poseidon Principles, a global framework established by financial institutions for promoting shipping industry’s decarbonization.

**Operating Principles for Impact Management**

The Bank is a signatory to the Operating Principles for Impact Management, a global market standard for impact investment developed mainly by the International Finance Corporation (IFC). The Bank is the first private financial institution in Japan to join the initiative.

*An institution of the World Bank Group. Established in 1956, one of the world's largest international financial institutions specializing in private sector development in developing countries. Through cooperation with the private companies in about 100 countries around the world, the organization helps to eradicate extreme poverty and promote shared prosperity.

**Principles for Responsible Banking (PRB)**

The Principles for Responsible Banking have been developed by the United Nations Environment Programme Finance Initiative (UNEP FI) to align the banking sector with society’s goals as expressed in the SDGs, the Paris Climate Agreement, and other relevant frameworks. MUFG is a signatory in 2019.

**Keidanren Challenge Zero**

Challenge Zero (Challenge Net Zero Carbon Innovation) is an initiative of Nippon Keidanren (Japan Business Federation) in collaboration with the Japanese government to strongly communicate and encourage innovative actions by companies and organizations to tackle the challenge of realizing a decarbonized society, which is the long-term goal of the Paris Agreement. MUFG participates in this initiative and contributes to the realization of a net zero society through sustainable finance.

**Climate Action 100+**

Climate Action 100+ was established by global investors in December 2017 as an initiative to encourage companies around the world that emit large amounts of greenhouse gases to take steps to curb climate change. The Trust bank has been participating in the initiative since 2018 and making relevant engagement with its investments.

**Climate Change Initiative**

MUFG has been participating in the Climate Change Initiative since 2018, a network to strengthen the dissemination of information and the exchange of ideas among companies, municipalities, NGOs and other organizations that are actively working to combat climate change, with the aim of achieving a decarbonized society.

**Declaration of Biodiversity by Keidanren**

MUFG endorses the Declaration of Biodiversity by Keidanren and Action Policy, as revised in October 2018.
CDP

CDP (formerly the Carbon Disclosure Project) is a project that institutional investors from around the world work together and urges corporations to disclose their strategies on climate change as well as detailed data on their greenhouse gas emissions. MUFG has participated in the project since 2004.

Equator Principles

The Bank adopted the Equator Principles (EP), a framework to ensure environmental and social considerations when financing large-scale development projects.

Details on our response to the Equator Principles are available on our website. (https://www.mufg.jp/english/csr/environment/equator/)

United Nations Environment Program Finance Initiative

MUFG is a signatory to the United Nations Environment Program Finance Initiative (UNEP FI). It is a public-private partnership "seeking to encourage the better implementation of environmental and sustainability principles at all levels of operations in financial institutions".

Principles for Financial Action for the 21st Century

The Bank and the Trust Bank have been signatories to Principles for Financial Action towards a Sustainable Society (also known as Principles for Financial Action for the 21st Century) since their first announcement in November 2011. These principles established mainly through the proactive efforts of financial institutions include seven principles for financial institutions that want to take an active role and responsibility in the creation of a sustainable society, and guidelines tailored to each sector to implement the principles.

UN Global Compact

MUFG has been a signatory to and endorse the United Nations Global Compact since 2006. The United Nations Global Compact is a principle-based framework of voluntary action which is announced by then UN Secretary-General Kofi Annan in 1999. It calls to companies and organizations around the world to align strategies and operations with universal principles on human-rights, labor, the environment and anti-corruptions, and take actions that advance societal goals. As a financial group aspiring to make “contribution to realize sustainable society”, MUFG agrees and supports the principles of the Global Compact.

Principles for Responsible Investment (PRI)

The Trust Bank has been actively promoting the Principles for Responsible Investment (PRI), which were announced in 2006. The PRI are intended to improve long-term investment performance by incorporating environmental, social and corporate governance (ESG) issues into investment decision making within the fiduciary responsibility. The Trust Bank was one of the first Japanese institutional investors to sign up to the PRI Principles in May 2006, and is working to expand the PRI-based investment activities in Japan.

CDP

CDP (formerly the Carbon Disclosure Project) is a project that institutional investors from around the world work together and urges corporations to disclose their strategies on climate change as well as detailed data on their greenhouse gas emissions. MUFG has participated in the project since 2004.
External Evaluation

Details on the latest information is available on our website. (https://www.mufg.jp/english/profile/overview/awards/)

Inclusion in ESG indices

**FTSE4Good Index Series**
MUFG has been selected for inclusion in FTSE Russell (a group company of the London Stock Exchange)'s FTSE4Good Index Series.

**FTSE Blossom Japan Index**
MUFG has been selected for inclusion in FTSE Russell (a group company of the London Stock Exchange)'s FTSE Blossom Japan Index.

**Bloomberg Gender-Equality Index**
MUFG has been selected for inclusion in Bloomberg's 2021 Gender-Equality Index.

**S&P/JPX Carbon Efficient Index**
MUFG has been selected for inclusion in S&P/JPX Carbon Efficient Index, designated by the S&P Dow Jones Indices and the Tokyo Stock Price Index (TOPIX).

Evaluation of sustainability initiatives

**4.5-stars in the Nikkei Smart Work Management Survey**
MUFG received 4.5-stars in the Forth Annual Nikkei Smart Work Management Survey, which selects companies leading advances in productivity innovation through work style reforms.

**Nadeshiko Brand**
MUFG has been selected for inclusion in Nadeshiko Brand, a recognition jointly conferred by Japan’s Ministry of Economy, Trade and Industry (METI) and the Tokyo Stock Exchange (TSE).

**Gold Rating on PRIDE Index**
In November 2021, a number of initiatives in Japan were evaluated and received the top gold rating*1 on the “PRIDE Index” *2.

*1 Rating based on the evaluation of initiatives by each company of the Bank, the Trust Bank, the Securities, NICOS, MUS Business Service, and MUSIS.

*2 Japan’s first index that evaluates companies’ LGBT-related initiatives operated by a private organization “work with Pride”.

**Corporate Equality Index**
MUFG Union Bank has received full marks for eight consecutive years in the Corporate Equality Index, which measures LGBTQ equality in organizations according to the Human Rights Campaign, the largest LGBTQ advocacy group in the United States.

**Noteworthy Company by DiversityInc**
MUFG Union Bank was awarded as a Noteworthy Company by DiversityInc.
### Kurumin and Platinum Kurumin Certification

Each Group company is Kurumin certified under the Act on Advancement of Measures to Support Raising Next-Generation Children. This certification by the Ministry of Health, Labour and Welfare (MHLW) recognizes a business as a childcare support company based on set requirements in support of balancing work and childcare. Companies that meet even higher standards receive a Platinum Kurumin certification.

- **Kurumin certified companies**
  - MUFG Bank
  - Mitsubishi UFJ Trust and Banking
  - Mitsubishi UFJ Morgan Stanley Securities
  - Mitsubishi UFJ NICOS
  - ACOM
  - Mitsubishi UFJ Factors
  - Mitsubishi UFJ Research and Consulting
  - Master Trust Bank of Japan
  - Mitsubishi Research Institute DCS
  - Mitsubishi UFJ Information Technology
  - Mitsubishi UFJ Trust Systems
  - MU Communications
  - Chukyo Bank

- **Platinum Kurumin certified companies**
  - MUFG Bank
  - Mitsubishi UFJ Morgan Stanley Securities
  - Master Trust Bank of Japan
  - Mitsubishi Research Institute DCS
  - Mitsubishi UFJ Information Technology
  - Mitsubishi UFJ Trust Systems
  - MU Communications

### Eruboshi Certification

Each Group company is Eruboshi certified under the Act on the Promotion of Women’s Participation and Advancement in the Workplace. Eruboshi certification is awarded by MHLW in Japan to companies that demonstrate excellence in promoting women’s advancement. It is a three-level certification based on certain criteria.

- **Eruboshi certified companies**
  - Mitsubishi UFJ NICOS (2nd-level)
  - Mitsubishi UFJ Information Technology (2nd-level)
  - Mitsubishi UFJ Trust Systems (2nd-level)
  - Mitsubishi UFJ Research & Consulting (3rd-level)
  - Master Trust Bank of Japan (3rd-level)
  - MUS Business Service (3rd-level)

- **Platinum Eruboshi certified companies**
  - Mitsubishi UFJ Trust and Banking Corporation

### Awards for Our Sustainability Initiatives

#### Awards received in FY 2020

<table>
<thead>
<tr>
<th>Award name</th>
<th>Reason for the award</th>
<th>Awarded company</th>
</tr>
</thead>
<tbody>
<tr>
<td>The 74th Golden Business Award</td>
<td>The Bank became the first Japanese bank to win the Golden Business Award (an award given to companies that have made significant contributions to the development of Taiwan’s economy and society), which is presented annually by the General Chamber of Commerce of the Republic of China, a Taiwanese economic organization, for its contribution to an offshore wind power generation project.</td>
<td>MUFG Bank</td>
</tr>
<tr>
<td>Golden Business Award for excellent foreign-owned businesses</td>
<td></td>
<td></td>
</tr>
<tr>
<td>The Second ESG Finance Award Japan (Minister of the Environment Prize)</td>
<td>The Bank was awarded Silver for the broad coverage and regular revision of the MUFG Environmental and Social Policy Framework, and for the global collaboration, such as with ESG Ambassadors in various regions, to drive sustainable business opportunities, a key differentiator from other domestic banks.</td>
<td>MUFG Bank</td>
</tr>
<tr>
<td>Minister of the Environment Award 2003, which recognizes the year’s best practice in sustainable investment, hosted by Principles for Financial Action for the 21st Century</td>
<td>The Trust Bank is the first Japanese investment institution to formulate a policy for incorporating ESG into all of its assets under management (the MUFG AM Responsible Investment Policy), and based on this policy, the company is committed to responsible investment in all of the assets they manage ($1 trillion yen*). As a pioneer of responsible investment in Japan, the award recognizes the company’s efforts to promote the resolution of significant ESG issues in all of the assets they manage.</td>
<td>Mitsubishi UFJ Trust and Banking Corporation</td>
</tr>
<tr>
<td>Minister of the Environment Award (General Department)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Private Banking &amp; Wealth Management Survey</td>
<td>This award is organized by “Euromoney”, an international financial magazine and one of the most prominent awards for private banking and wealth management. As a financial institution that provides wealth management services in Japan, The Securities was awarded the prize in recognition of its strong, long-term relationships of trust between clients and the financial advisors who work with them, as well as the wide range of products and services it offers.</td>
<td>Mitsubishi UFJ Morgan Stanley Securities</td>
</tr>
</tbody>
</table>

* Based on the Trust Bank alone (as of June 30, 2021)
Link and Motivation selects and awards ten companies with the highest engagement score (a deviation value that indicates the degree of mutual understanding and affinity between the company and the individual) from a total of 1,568 companies to which Link and Motivation conducted employee engagement surveys. While the attention toward employee engagement in business management has been increasing, we received this award as the result of deepening the mutual understanding between employees and the company based on building strong relationships of trust among employees.

Six companies, including MUFG (also the Bank, the Trust Bank, the Securities, NICOS and ACOM) each received the Golden Order of Merit Medal and President's Certificate of Appreciation for donations totaling 600 million yen to support medical institutions in response to the COVID-19 pandemic.

CO₂ Emissions from Business Activities and Employee Travel

[Method of calculation for FY2020]
Scope of Reporting: Mitsubishi UFJ Financial Group, MUFG Bank, Mitsubishi UFJ Trust and Banking, Mitsubishi UFJ Morgan Stanley Securities, and Mitsubishi UFJ NICOBS.

[CO₂ Emissions Calculation Method]
1. City gas, LPG, kerosene, light oil, heavy oil, steam/hot water, cold water, and gasoline are calculated according to factors based on the Act on Promotion of Global Warming Countermeasures.
2. Electricity is calculated according to the most recent basic emissions factors by electricity producers for FY2019 based on the Act on the Promotion of Global Warming Countermeasures.
3. The amount of renewable electricity is counted as zero CO₂ Emissions.
4. Overseas travel (international routes) is calculated according to a factor specified in the General Guidelines on Supply Chain GHG Emission Accounting (Ministry of the Environment / Ministry of Economy, Trade and Industry).

[CO₂ emissions from use of electric power]
This report contains the results of calculations based on the “basic emission factor (pre-adjustment emission factor)”, in which power companies do not reflect Kyoto Mechanism credits or cuts in domestic certified emissions, etc. However, the amount of renewable electricity used at the MUFG Bank Marunouchi Building is counted as zero CO₂ Emissions.

Period covered: April 1, 2020 through March 31, 2021.

### Efforts to Reduce Plastic Waste

We recognize that regulations on single-use plastics are being strengthened worldwide in light of growing international awareness of resource recycling, the worsening waste problem, and the conservation of marine and oceanic resources. With this recognition, MUFG is tackling the following issues.

1. Sorting and collection of used PET bottles
2. Implementation of cleanup and other activities as part of the community contribution activities at sales offices and other locations
3. Based on the target of a waste recycling rate of 90% or higher, implementation of efficient use of resources and reduce waste (fiscal 2020 performance for the main building: 91.2%)
4. Provide information and support for initiatives led by plastic-related customers using references describing trends and impacts of plastic regulations and business strategies based on the plastic regulations

**MUFG Bank**

- **Waste Reduction**

  - **Medium-to-long term plan**
    - Establish a recycling rate of at least 90%

  - **FY2020 targets**
    - Achieve a waste recycling rate of at least 90% at the headquarters buildings in Tokyo, Nagoya, and Osaka

  - **FY2020 results**
    - Head Office Tokyo Marunouchi Building: 91.2%
    - Head Office Nagoya Building: 83.0%
    - Head Office Osaka Building: 56.0%

- **Details on other group company’s initiatives are available on our website.** (https://www.mufg.jp/english/csr/environment/effort/)

### Other Efforts to Reduce Environmental Impact

Each group company has also set medium- to long-term environmental targets and is working to achieve them.

**MUFG Bank**

- **Prevention of Air Pollution**

  - **Medium-to-long term plan**
    - Work at reducing air pollution from vehicle emissions.

  - **FY2020 targets**
    - Promote eco-driving, while reducing number of sales vehicles, shifting to compact vehicles, and introducing low-emission vehicles.

  - **FY2020 results**
    - Reduced by about 430 vehicles

  - **FY2020 plan**
    - Promote eco-driving, while reducing number of sales vehicles, shifting to compact vehicles, and introducing low-emission vehicles.

### Reducing Our Environmental Impacts through Core Business

* The average cost of Excess Reductions is detailed in the “Results of the assessment of trading prices,” a Tokyo Metropolitan Government survey on total reduction obligations and the emissions trading structure in the metropolitan area (March, 2020). This was used as a measure that could be equated with a reduction cost within Japan.

This index discloses information based on the SASB Standard, a global information disclosure standard issued by the U.S. Sustainability Accounting Standards Board (SASB) in October 2018. SASB has developed a global framework that materiality for each industry and accounting metrics specific to 77 industries, which are further categorized within each industry. This index discloses information related to the standards for three industries: Commercial Banks (FN-CB), Investment Banking & Brokerage (FN-IB), and Asset Management & Custody Activities (FN-AC). Since the standards for each industry are based on U.S. laws and regulations and systems, some metrics are not applicable to the business activities of MUFG, which is based in Japan, but we strive to disclose information that is consistent with the purpose and content of each metric to the extent possible. As the content of the standards is constantly being updated, MUFG will continue to update and expand the information disclosed as part of its engagement with stakeholders, including customers, business partners, shareholders and investors.

SCM Index

Stakeholder Capitalism Metrics (SCM) is a framework of non-financial information proposed in “Measuring Stakeholder Capitalism Towards Common Metrics and Consistent Reporting of Sustainable Value Creation”, a report compiled by the big four global accounting firms based on the recommendations of the World Economic Forum’s International Business Council. There are two types of metrics in SCM: Core Metrics and Expanded Metrics. This index is prepared in accordance with the Core Metrics, and some of the information are referred to the Expanded Metrics. Although the SCM metrics are designed to be used in a wide range of industries and regions, there are some metrics that do not apply to the characteristics of the banking industry or the business activities of MUFG, which is based in Japan. For these items, MUFG is striving to disclose as much information as possible in consideration of the purpose of SCM. To continue to expand the content of our disclosure as part of our engagement with all of our stakeholders, including customers, business partners, shareholders and investors.

### Climate Change

**Themes**
- Paris-aligned GHG emissions targets
  - Define and report progress against time-bound science-based GHG emissions targets that are in line with the goals of the Paris Agreement – to limit global warming to well below 2°C above pre-industrial levels and pursue efforts to limit warming to 1.5°C.
  - This should include defining a date before 2050 by which you will achieve net-zero greenhouse gas emissions, and interim reduction targets based on the methodologies provided by the Science Based Targets initiative, if applicable.
  - If an alternative approach is taken, disclose the methodology used to calculate the targets and the basis on which they deliver on the goals of the Paris Agreement.

**Impact of GHG emissions**
- Report wherever material along the value chain (GHG Protocol scope 1, 2 & 3) the value impact of greenhouse gas emissions.
- Disclose the estimate of the societal cost of carbon used and the source or basis for this estimate.

### Human Rights

**Theme**
- Diversity and inclusion (%)
  - Percentage of employees by gender, age group, and other indicators of diversity (e.g. ethnicity).

**Details and related information**
- Approach to Priority Issues – Inclusion & Diversity
- ESG Data (Social) (P.149)

**Pay equality (%)**
- Ratio of the basic salary and remuneration for each employee category by significant locations of operation for priority areas of equality: women to men, minor to major ethnic groups, and other relevant equality areas.

**Wage level (%)**
- 1. Ratios of standard entry level wage by gender compared to local minimum wage.
- 2. Ratio of the annual total compensation of the CEO to the median of the annual total compensation of all its employees, except the CEO.

**Risk of incidents of child, forced or compulsory labour**
- An explanation of the operations and suppliers considered to have significant risk for incidents of child labour, forced or compulsory labour. Such risks could emerge in relation to:
  - (a) type of operation (such as manufacturing plant) and type of supplier, and
  - (b) countries or geographic areas with operations and suppliers considered at risk.

**Health and safety (%)**
- 1. The number and rate of fatalities as a result of work-related injury and work-related injuries (excluding fatalities); recordable work-related injuries; main types of work-related injury; and the number of hours worked.
- 2. An explanation of how the organization facilitates workers' access to non-occupational medical and healthcare services, and the scope of access provided for employees and workers.

**Skills for the future**
- Average hours of training per person that the organization's employees have undertaken during the reporting period, by gender and employees category (total number of hours of training provided to employees divided by the number of employees).
- Average training and development expenditure per full-time employee (total cost of training provided to employees divided by the number of employees).

**Human Resource Development Program**
- ESG Data (Social) (P.149)

### ESG Data / Index

**Climate Change**

**Measures & Environmental Protection**
- TCFD Report

**Sustainability Management**
- Approach to Priority Issues – Inclusion & Diversity
- ESG Data (Social) (P.149)

**Dignity and equality**
- Number of unfilled skilled positions
- Percentage of unfilled skilled positions for which the company will hire unskilled candidates and train them.

**Health and well-being**
- Number of fatalities as a result of work-related illness, recordable work-related illness, and the main types of work-related illness for all employees and workers.

**Prosperity**
- Absolute number and rate of employment
- Total number and rate of new employee hires during the reporting period, by age group, gender, other indicators of diversity and region.
- Total number and rate of employee turnover during the reporting period, by age group, gender, other indicators of diversity and region.

**Financial investment contribution**
- Direct economic value generated and distributed (EVG&D), on an accrual basis, covering the basic components for the organization’s global operations, ideally split out by:
  - Revenues
  - Operating costs
  - Payments to providers of capital
  - Payments to government
  - Employee wages and benefits
  - Community investment
  - Financial assistance received from the government; total monetary value of financial assistance received by the organization from any government during the reporting period.

**Society**
- Total tax paid
  - The total global tax borne by the company, including corporate income taxes, property taxes, non-creditable VAT and other sales taxes, employer-paid payroll taxes, and other taxes that constitute costs to the company, by category of tax.

**Innovation of better products and services**
- R&D expenses
  - Total R&D expenses related to research and development.

 MUFG is a signatory to the Principles for Responsible Banking (PRB) proposed by the United Nations Environment Programme and Finance Initiative (UNEP FI). Based on the objectives of the Principles for Responsible Banking, which were formulated to encourage banks to conduct business activities that are consistent with the goals of the international society, such as the SDGs and the Paris Agreement, MUFG will further develop its strategy from the perspective of “solving social issues” and strive to strengthen its contribution to international social goals.

### Reporting and Self-Assessment Requirements

#### High-level summary of bank’s response

<table>
<thead>
<tr>
<th>Principle</th>
<th>Alignment</th>
</tr>
</thead>
</table>
| **1.1** Describe (high-level) your bank’s business model, including the main customer segments served, types of products and services provided, the main sectors and types of activities, and where relevant the technologies financed across the main geographies in which your bank has operations or provides products and services. | Mitsubishi UFJ Financial Group (“MUFG”) is a global financial services group that encompassed diversified Group companies, including MUFG Bank, Mitsubishi UFJ Trust and Banking, and Mitsubishi UFJ Morgan Stanley Securities. We help our customers achieve growth by employing our many strengths. MUFG’s operations consist of seven business groups: Digital Service Business, Retail & Commercial Banking Business, Japanese Corporate & Investment Banking Business, Global Corporate & Investment Banking Business, Global Commercial Banking Business, Asset Management & Investor Services Business, and Global Markets Business. Together, these operations constitute a well-balanced portfolio. Through which we provide a range of services to customers. Today, we are developing our business in Europe, the Middle East, Africa, the Americas, Asia, and Oceania. Our lending balance totalled approximately 107.5 trillion yen at the end of March 2021 of which domestic loans accounted for approximately 60% and overseas loans the remainder.

We will help resolve issues confronting customers and society and deliver unique value that only MUFG is capable of creating as we move ahead toward our vision of becoming the world’s most respected financial group. |

*Reference(s)/ Link(s) to bank’s full response/relevant information: [Annual Report 2021, P.17-20](https://www.mufg.jp/english/ir/annual-report/2021/)

#### 1.2 Describe how your bank has aligned and/or is planning to align its strategy to be consistent with and contribute to society’s goals, as expressed in the Sustainable Development Goals (SDGs), the Paris Climate Agreement, and relevant national and regional frameworks. |

*With the conviction that environmental and social sustainability are essential to achieving sustainable growth for MUFG, we have defined “MUFG’s Sustainability Management” as the engagement in value creation employing an integrated approach in which the execution of management strategies goes in tandem with the pursuit of solutions for social issues. Based on the degree of relevance of MUFG as a financial institution to global megatrends and the financial industry, as well as the opinions of outside experts, we have identified the 17 priority issues to be addressed, considering both societal expectations and affinity with MUFG’s business areas. These issues are now incorporated into business strategies, with each business group pursuing its own strategic measures addressing specific environmental and social issues. Rallying the entire strength of the Group, we are thus striving to help resolve various issues to society in confronting, with the aim of embedding our Purpose and empowering our stakeholders to take the next step forward. We have set sustainable finance goals that will lead to solutions to environmental and social issues. In addition, we establish the MUFG Environmental Policy Statement, the MUFG Human Rights Policy, and the MUFG Environmental and Social Policy Framework, and are contributing to international goals by complying with the Equator Principles. 

In May 2022, we announced the “MUFG Carbon Neutrality Declaration” and became the first Japanese bank committing to achieve net zero emissions in our finance portfolio. In addition to aiming to achieve net zero emissions in our finance portfolio by 2050, we will set and disclose an interim target for 2050s by the end of fiscal 2022, and report on our progress on an annual basis.*

- MUFG Sustainability Report 2021, P.5, 20
Commitment to achieving a net zero status in terms of GHG emissions from its investment and financing portfolio. This commitment is part of the broader climate change measures and environmental protection as an issue that requires special attention, in light of recent trends, the Japanese government's 2050 carbon neutral declaration, and the scale of our business exposure.

In May 2021, we announced the "MUFG Carbon Neutrality Declaration" and became the first Japanese bank committing to achieve net zero emissions in our financial portfolio. In addition to aiming to achieve net zero emissions in our finance portfolio by 2050, we will set and disclose an interim target for 2030 by the end of fiscal 2022, and report on our progress on an annual basis.

Environmental and social issues are now incorporated into business strategies, with each business group pursuing its own strategic measures addressing specific environmental and social issues. Raising the strength of the Group, we are thus striving to help resolve various issues society is now confronting, with the aim of embedding our Purpose and empowering our stakeholders to take the next step forward. In addition, we have set sustainable finance goals that will lead to the resolution of issues in the social field, such as "climate change measures & environmental protection".

Please provide your bank's conclusion statement if it has fulfilled the requirements regarding Impact Analysis.

MUFG have set the following targets for our approach to sustainability:

**Sustainable Finance Goals**

MUFG aim to provide a total of 35 trillion yen in sustainable financing by financial year 2030, equivalent to the annual CO₂ emissions from about half the households in Japan.1

1 Cumulative total of CO₂ reduction benefits for one year, calculated from the avoided emissions of an investment by renewable energy projects undertaken in fiscal year upon installation dates, and emission factors. The values take into account the contribution of supply chains to the avoided emissions.

2 Prepared by MUFG based on a survey by the Ministry of the Environment Statistical Survey of CO₂ Emissions from the Household Sector (Household CO₂ Statistics).

**MUFG Carbon Neutrality Declaration**

GHG emissions from investment and financing portfolio

In May 2021, we announced the MUFG Carbon Neutrality Declaration and became the first bank in Japan to publicize its commitment to achieving a net zero status in terms of GHG emissions from its investment and financing portfolio. We aim to achieve net zero status in terms of GHG emissions from its investment and financing portfolio by 2050, and will set and disclose an interim target for 2030 in fiscal 2022, reporting progress on an annual basis.

Credit amounts Related to Coal-Fired Power Generation (Balance of Lending)

In order to contribute to the resolution of a priority issue "Climate Change Measures & Environmental Protection", the MUFG Environmental and Social Policy Framework stipulates that in principle we will not provide financing to new coal-fired power generation projects. We will reduce the balance of financing to coal-fired power generation, which was US$338 million at the end of fiscal 2019, to US$100 million in fiscal 2030 compared to fiscal 2019, and to zero by fiscal 2040. We also aim to set and disclose a balance target of zero for the credit for coal-fired power generation by the end of fiscal 2022.
We aim to achieve a cumulative total of 35 trillion yen in sustainable finance by FY2030 to help resolve social issues, including climate change, and account the interests of our stakeholders and the social issues facing our customers. This should include high-level information on any programmes and actions implemented (and/or planned), their scale and, where possible, the results thereof.

As part of efforts to strengthen its sustainability-oriented management system, MUFG has a governance system to monitor its sustainability initiatives, including progress towards targets.

The Sustainability Committee meets at least once a year, in principle, to deliberate on MUFG’s efforts to address environmental and social issues. The committee discusses and reports on the content of deliberations, such as the confirmation of the status of sustainability initiatives, including the monitoring of the progress toward targets, and the integration and strengthening of the management plan, to the Board of Directors and the Executive Committee.

In May 2021, we announced the “MUFG Carbon Neutrality Declaration” and became the first Japanese bank committing to achieve net zero emissions in our financial portfolio.

In addition to aiming to achieve net zero emissions in our financial portfolio by 2050, we will set and disclose an interim target for 2030 by the end of fiscal 2021, and report on our progress on an annual basis.

We engaged two external experts in the environmental and social fields as permanent external advisors. The members exchange views with the advisors and use advice and recommendations from their expertise in MUFG’s sustainability initiatives.

In addition, we established the position of Chief Sustainability Officer (CSO) to clarify the responsibilities related to the promotion of sustainability. For the time being, the officer in charge of corporate planning and strategy will also serve as the CSO to enhance the promotion of sustainability, including integration with our core business.

The Sustainability Office of the Corporate Planning Division is in charge of planning for sustainability management, and is accelerating the company-wide implementation of sustainability-oriented management.

Furthermore, from the perspective of strengthening the system to support the realization of the “MUFG Carbon Neutrality Declaration” announced in May 2021, we have established a project team on a Group and global basis, including overseas partner banks, to support the Group’s operating companies and bases in each region to lead the way in decarbonization while taking into account the characteristics and circumstances of each region.

Please provide your bank’s conclusion/statement if it has fulfilled the requirements regarding Plans for Target Implementation and Monitoring.

We have a governance system to monitor our sustainability initiatives including progress towards targets, thereby strengthening our sustainability promotion system.

We will work proactively and responsibly consult, engage and partner with relevant stakeholders to achieve society’s goals.

We have a governance system to monitor our sustainability initiatives including progress towards targets, thereby strengthening our sustainability promotion system.

We will work proactively and responsibly consult, engage and partner with relevant stakeholders to achieve society’s goals.

Please provide your bank’s conclusion/statement if it has fulfilled the requirements regarding Plans for Target Implementation and Monitoring.

We have a governance system to monitor our sustainability initiatives including progress towards targets, thereby strengthening our sustainability promotion system.

We will work proactively and responsibly consult, engage and partner with relevant stakeholders to achieve society’s goals.
[5.2] Describe the initiatives and measures your bank has implemented or is planning to implement to foster a culture of responsible banking among its employees. This should include a high-level overview of capacity building, including in human resource development and performance management and leadership development, among others.

MUFG is strongly focused on encouraging each employee's self-directed career building and to this end, supports their growth and their ability to respond to challenges. Accordingly, we have positioned the Career Challenge System as a framework for gaining a variety of experiences. We have a variety of programs within and outside the Group.

We hold in-house education and training sessions to promote a better understanding of sustainability. Also, to support our group's sustainability management, the Sustainability Office shares information, makes proposals, and exchanges opinions with related departments regarding the concept of sustainability, the external environment, and awareness of issues in the formulation of sustainability-related policies and business strategies.

MUFG is committed to the Stakeholder Capitalism Metrics, a set of indicators to measure stakeholders' capitalistic levels, which is proposed by the World Economic Forum. We will periodically review our individual and collective implementation of these Principles and be transparent about and accountable for our positive and negative impacts and our contribution to society's goals.

Please provide your bank's conclusion/statement if it has fulfilled the requirements regarding Governance Structure for Implementation of the Principles.

[5.3] Governance Structure for Implementation of the Principles

Show that your bank has a governance structure in place for the implementation of the PRB, including:

a) target-setting and actions to achieve targets set

b) remedial action in the event of targets or milestones not being achieved or unexpected negative impacts being detected

Please provide your bank's conclusion/statement if it has fulfilled the requirements regarding Progress on Implementing the Principles for Responsible Banking.

[5.4] Progress on Implementing the Principles for Responsible Banking

Show that your bank has progressed on implementing the six Principles over the last 12 months (up to 18 months in your first reporting after becoming a signatory) in addition to the setting and implementation of targets in minimum two areas (see 2.1-2.4)

Show that your bank has considered the PRB, including:

- implementation of the six Principles
- regional good practices relevant for the bank's activities

Please provide your bank's conclusion/statement if it has fulfilled the requirements regarding Progress on Implementing the Principles for Responsible Banking.

[5.5] We will periodically review our individual and collective implementation of these Principles and be transparent about and accountable for our positive and negative impacts and our contribution to society's goals.

MUFG is strengthening its sustainability promotion system in order to achieve a sustainable environment and society, as well as the sustainable growth of the group. We established the Sustainability Committee, with the aim of intensively discussing initiatives to resolve environmental and social issues. The Committee meets at least once a year, in principle, to discuss and report on the content of deliberations to the Board of Directors and the Executive Committee.

We engaged two external experts in the environmental and social fields as permanent external advisors. Board members exchange views with the advisors and use advice and recommendations from their expertise in the MUFG’s sustainability initiatives.

In addition, we established the position of Chief Sustainability Officer (CSO) to clarify the responsibilities related to the promotion of sustainability. For the time being, the officer in charge of corporate planning and strategy will also serve as the CSO to enhance the promotion of sustainability, including integration with our core business.

Under the MUFG Way, which guides all of our activities, MUFG has established the MUFG Environmental Policy Statement as a specific action guideline for practicing environmental considerations. The MUFG Environmental Policy Statement has been the matter to be determined in the Board of Directors since May 2021. The Policy clearly states the company's commitment to proactively disclose information on the environment, including climate change.

To advance our sustainability management, in fiscal 2021, we revised performance linked indices used for the determination of executive compensation. The revised indices incorporate the degree of improvement in external ESG evaluation granted to MUFG by ESG rating agencies.

The Sustainability Office of the Corporate Planning Division is in charge of planning for sustainability management, and is accelerating the company-wide implementation of sustainability-oriented management.

Furthermore, from the perspective of strengthening the system to support the realization of the “MUFG Carbon Neutrality Declaration” announced in May 2021, we have established a project team on a Group and global basis, including overseas partner banks, to support the Group's operating companies and bases in each region to lead the way in decarbonization while taking into account the characteristics and circumstances of each region.
