In FY2025, profits attributable to owners of parent totaled ¥2,427.2 billion, representing a growth of over 30% year on year. Although this included certain temporary factors, it marked a record high for the third consecutive year, supported by solid business performance both in Japan and overseas. The year-end dividend per share will be ¥51. Combined with the interim dividend of ¥35, we intend to pay a full-year dividend of ¥86 per share, up ¥22 per share year on year. In addition, we conducted share repurchases totaling a record high ¥500.0 billion. For FY2026, the final fiscal year of the current Medium-term Business Plan, MUFG aims for ¥2,700.0 billion in profits attributable to owners of parent, a growth of over 10% from FY2025. The full-year dividend is expected to be ¥96 per share, up ¥10 per share year on year. This would mark the sixth consecutive year of dividend increases, with a dividend payout ratio of around 40%. In addition, for the first half of FY2026, MUFG has decided to repurchase shares of up to ¥100.0 billion.

REFERENCE MATERIALS CONCERNING  
THE GENERAL MEETING OF SHAREHOLDERS

Items of Business and Reference Matters

**First Item of Business**          Appropriation of Surplus

MUFG continuously seeks to improve shareholder returns focusing on dividends in the pursuit of an optimal balance between solid equity capital and strategic investment for growth.

MUFG will set a dividend payout ratio at around 40%, and aim for stable and sustainable increase in dividends per share through profit growth as a fundamental policy. At the same time, MUFG will flexibly repurchase stock as a measure to return profits to shareholders that will contribute to improving capital efficiency, taking into consideration its business performance and capital situation, opportunities for investment in growth, and market conditions, including share price. In principle, MUFG will not hold treasury stock in excess of approximately 5% of the total shares outstanding and shall cancel shares exceeding such amount.

Based on these policies, MUFG proposes the year-end dividend of ¥51.0 per share. Combined with the interim dividend of ¥35.0 per share, annual dividends will total ¥86.0 per share.

Matters concerning the year-end dividend:

1. Kind of dividend property

Cash

2. Matters concerning allocation and the total amount of dividend property

Ordinary Shares      ¥51.0 per share  
¥576,848,937,582 in total

3. Date on which dividends from surplus shall be effective

June 29, 2026

## Second Item of Business Election of 15 (fifteen) Directors

## Composition

The board of directors as a whole shall have an appropriately balanced composition that provides a deep understanding of the Group's business and a wealth of knowledge and expertise on finance, financial accounting, risk management and compliance and so forth in order to ensure its effectiveness, and shall meet the following requirements in particular.

Appropriate balance	The board of directors shall have a balanced composition consisting of internal directors who are familiar with the business of MUFG and independent outside directors who oversee management and directors from an independent and objective standpoint.
Ensure independence	The percentage of independent outside directors, in principle, shall be more than half.
Oversight of the Group's management	To ensure the effectiveness of oversight of MUFG Group's management by the board of directors, the Presidents of MUFG Bank, Ltd., Mitsubishi UFJ Trust and Banking Corporation, and Mitsubishi UFJ Securities Holdings Co., Ltd. will, in principle, also serve as directors of the Company.

In addition, the board of directors as a whole has decided to appoint individuals who have experience in "global" fields in view of the MUFG's business development, as well as "IT/digital" and "sustainability" to lead the resolution of social issues such as the digital shift and climate change. For the framework and the knowledge, expertise and experience of each Director after this proposal is approved, please refer to page 29.

## Term of Office and Concurrent Posts of Directors

Term of office of directors	The term of office of directors shall be 1 (one) year. In discussions and decisions by the Nominating and Governance Committee on a candidate for reappointment, the number of years since such candidate assumed the office of a director of MUFG shall be considered.
Directors with concurrent posts	A director may concurrently serve as a director, corporate auditor, executive or corporate officer at a company other than MUFG Group company only to the extent such directors are able to have enough time required to appropriately fulfill the duties as directors of MUFG, such as understanding the business and other aspects of the MUFG Group, and the directors shall report periodically to the board of directors on such concurrent posts.

## Policy for Election of Members of Directors

For election of directors, the Nominating and Governance Committee shall set forth director election standards focusing on the following and nominate persons who meet such standards as director candidates.

### [Outline of Election Standards for Directors]

Qualities of those entrusted as managers	Directors shall have the qualities required to be able to appropriately fulfill their duty of loyalty and duty of care in the execution of their duties and to contribute to the sustainable growth and the increase of corporate value of MUFG over the medium- to long-term.
Qualities of independent outside director	Independent outside directors shall have a wealth of knowledge and experience in the fields of corporate management, finance, financial accounting and law and the qualities required for oversight of the execution of duties by management from an independent and objective standpoint, meeting the independence standards of the MUFG.
Ability of executive directors	Executive directors shall have extensive knowledge of MUFG Group's business and the ability to appropriately perform management of MUFG.

Reason for proposing as candidate for Outside Director and expected roles

Having served in various important positions, including Director, Senior Managing Executive Officer (Supervises Investment Management Unit, Responsible for Finance & Investment Planning Dept.), and President of Nippon Life Insurance Company, and currently as its Chairman, Mr. Shimizu has advanced knowledge and wisdom as a corporate manager, and actively promotes sustainability management. He also has expertise in finance and abundant experience in the areas of risk management, internal control, and IT and digital technology, etc. The Company proposes his election as outside director since he is expected to contribute to the effective enhancement of the board of directors' decision-making function and oversight function, with the aim of facilitating sustainable growth of the Company and increasing its corporate value over the medium- to long-term.

Supplementary information on independence

Mr. Shimizu currently serves as Chairman of Nippon Life Insurance Company, with which the Company had business accounting for less than 1% of Nippon Life Insurance Company's ordinary income and the Company's consolidated gross profit in fiscal year 2025. In addition, although Nippon Life Insurance Company holds the Company's ordinary shares, the holding ratio in fiscal year 2025 was less than 2% of the total shares outstanding of the Company. In light of this, among other reasons, such relationship would not affect his independence from the Company.

### Message to MUFG Shareholders

I have been involved in the global management of the Sony Group's diverse businesses centered on entertainment and technology, while also working on the reorganization of the Group's architecture and the evolution of its business portfolio. Drawing on the experience and knowledge I have cultivated to date, as a member of the Board of Directors—the body responsible for overseeing management—I will contribute to MUFG's sustainable enhancement of corporate value by deepening discussions from a multifaceted perspective on medium- to long-term strategies and the ideal form of group management.

## (Reference) Corporate Governance Highlight

### 1. Corporate Governance Structure (As of March 31, 2026)

#### Characteristics of the Company's Corporate Governance Structure

- Oversight function of the Board of Directors is strengthened with the “company with three committees” structure to secure functional separation between management supervision and business execution
- The majority of the Board of Directors consists of Outside Directors to ensure that decisions are made from an outside perspective.
- All the committees under the Board of Directors are chaired by Outside Directors

## 2. Evaluation of the Effectiveness of the Board of Directors

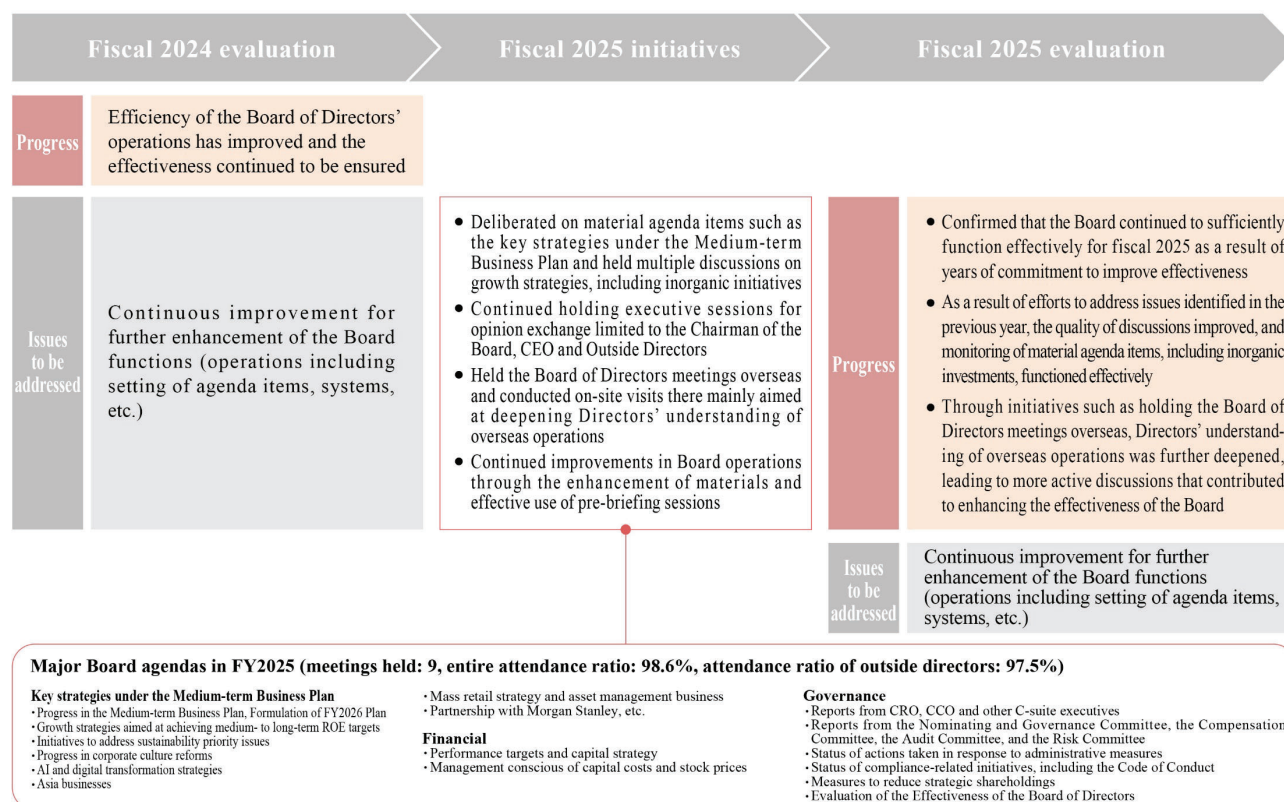

Every year since 2013, the Company has retained external consultants to evaluate the effectiveness of the Board of Directors (“the Board”). The consultants conduct questionnaire surveys and interviews with all of the directors regarding the purpose, composition/expertise, agendas/discussions, and the promotion of reform of the Board, as well as self-assessment of each director. The results of these questionnaire surveys and interviews are reported to and discussed by the Nominating and Governance Committee and the Board.

The fiscal year 2025 evaluation confirmed that a high level of effectiveness of the Board has continued to be ensured as a result of continuous improvement efforts to address issues related to the Board’s operations and frameworks identified in the previous year’s evaluation.

Specifically, in addition to deliberating on material agenda items such as the key strategies under the Medium-term Business Plan, the Board held multiple discussions on growth strategies, including inorganic initiatives, thereby conducting effective deliberations toward achieving medium- to long-term ROE targets. Furthermore, by continuing to make effective use of Executive Sessions limited to the Chairman, CEO and Outside Directors, as well as pre-briefing sessions, the quality of discussions at the Board meetings was further enhanced. In addition to holding the Board meetings overseas and conducting on-site visits there, we also supported deeper understanding and more effective discussions among Members of the Board by organizing study sessions inviting external experts on topics such as AI, climate change, and governance.

MUFG has identified these efforts as being firmly connected to improving effectiveness, and based on the determination that the existing framework will function as intended in the fiscal year 2026, MUFG will continue to work on improvements to further enhance functions of the Board.

#### 4. Strategic shareholdings

##### ■ Strategic shareholdings policy

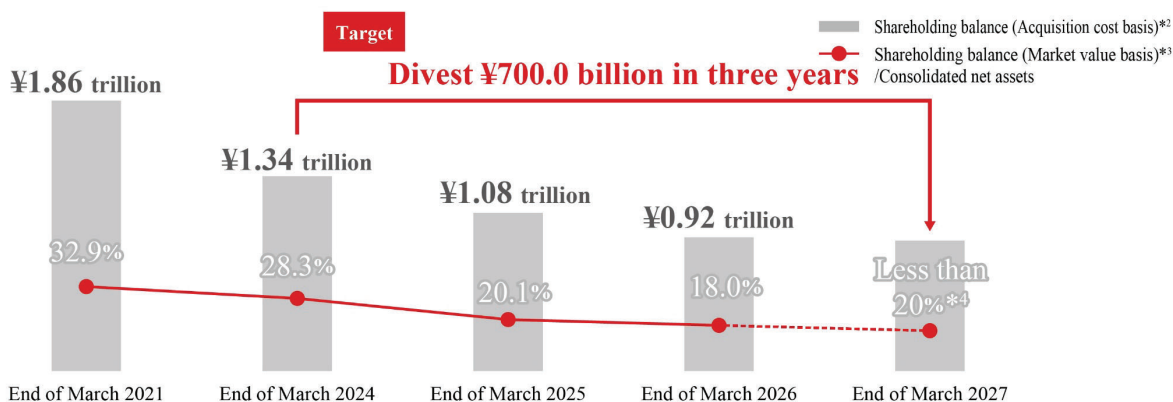

MUFG and its group banks\*<sup>1</sup> have adopted a basic policy, taking into account shareholding risk, capital efficiency and international financial regulations, shall reduce the amount of shares held for the purpose of strategic investment\*<sup>2</sup>, following sufficient consultation with the relevant corporate business clients.

\*<sup>1</sup> The “group banks” refer to MUFG Bank, Ltd. and Mitsubishi UFJ Trust and Banking Corporation, which are the Company’s subsidiaries.

\*<sup>2</sup> “Shares held for the purpose of strategic investment” refers to shares held for the purpose of increasing the medium- to long-term economic profits of MUFG, the Bank and the Trust Bank through maintaining and expanding comprehensive business relations with our corporate business clients.

##### ■ Efforts to reduce Strategic shareholdings\*<sup>1</sup>

In fiscal year 2025, we divested strategic shareholdings worth approximately ¥166.0 billion (simple sum of the Bank and the Trust Bank on an acquisition-cost basis). In addition, the ratio of the balance of strategic shareholdings to consolidated net assets on a market value basis declined to 18.0%, falling below 20%. Going forward, over the three-year period from fiscal year 2024 to fiscal year 2026, we will continue our efforts to divest strategic shareholdings worth ¥700.0 billion and maintain the ratio at less than 20%.

\*<sup>6</sup> The ratio of the balances of the “Total amounts recorded on balance sheets” and “Deemed equity holdings” stated in the annual securities report to consolidated net assets as of the end of March 2026 is 19.5%

■ Examination of significance and economic rationale of shareholdings

Shares held for the purpose of strategic investment will be examined for their significance and economic rationale from the perspectives of our corporate business clients' growth and earnings and the strengthening of business relations. If there is no significance or economic rationale, we shall proceed with divesting those shareholdings, after securing an understanding of the relevant corporate business clients. Even if the significance and economic rationale are acknowledged, we shall proceed with negotiation for sale of those shareholdings, based on our basic policy of reducing strategic shareholdings and taking into account, among other things, the market environment and our business and financial strategy. Economic rationale is examined based on overall business RORA\* target value, which is set based on MUFG's capital costs.

\* Overall business RORA (Return on Risk-Weighted Assets) is calculated by dividing Profit (Income from banking transactions and trust banking transactions with a concerned business partner group as well as stock dividends from the said group – Expected loss – Expenses etc.) by risk assets (total value of credits and shares) which are based on the internal rating based approach in comply with the capital adequacy requirements. In addition, risk asset shares are calculated based on market values.

■ Standards with respect to the exercise of voting rights

We will make comprehensive decisions on every proposal for the agenda of a shareholders meeting after confirming the following two points.

- (i) Will it increase the medium- to long-term corporate value and lead to continuous growth including ESG elements of the relevant corporate business client?
- (ii) Will it increase the medium- to long-term economic profits of MUFG and its group banks?

Significant agenda\* will be determined through communication with the relevant corporate business client, etc. as necessary. The status of the exercise of voting rights of the most important strategic shareholdings will be reported to MUFG's Board of Directors.

\* Agenda on disposal of surplus, election of directors or corporate auditors, election of outside directors or outside corporate auditors, retirement benefits for corporate auditors, organizational restructure takeover defense, etc.

## MUFG's Sustainability Initiatives

With the conviction that environmental and social sustainability are essential to achieving sustainable growth for MUFG, we will engage in value creation employing an integrated approach in which the execution of management strategies goes in tandem with the pursuit of solutions for environmental and social issues.

### Driving Social & Environmental Progress and Medium-term Business Plan

- One of the three pillars of the Medium-term Business Plan which started in FY2024 is “Driving Social & Environmental Progress.” In order to realize a sustainable environment and society, MUFG established priority issues in our sustainability management.

### Sustainable Finance

- With a cumulative target of ¥100 trillion by FY2030, FY2025 estimated result is ¥56.5 trillion, at approx. 56% of the target.

- July 2025: Established a Sustainable Finance Framework in collaboration with JICA\*
- Facilitates sustainable finance aligned with international principles for loans co-financed by the Bank and/or partner banks with JICA
- Utilizes the framework to promote the origination of sustainable finance deals in Southeast Asia and other developing countries to contribute to the resolution of environmental and social issues

\*Japan International Cooperation Agency

## Sustainability: Achievement of Carbon Neutral Society

- MUFG has been pursuing various initiatives based on three unwavering commitments. As one of the largest financial institutions that have been supporting the global energy sector, MUFG has been supporting and leading the energy transition as a top runner for project finance for renewable energy. To achieve carbon neutrality by 2050, MUFG will continue supporting the transition through engagement with clients and make efforts to achieve a sustainable society by decarbonizing the real economy and fostering a virtuous cycle between the environment and the economy. Please see the [MUFG Transition Progress 2026](#) (May 2026) for progress of our initiatives.

### MUFG's three unwavering climate change commitments

- 1 Helping achieve the 1.5°C target of the Paris Agreement by achieving carbon neutrality by 2050
- 2 Supporting a smooth transition to a decarbonized society through our financial services
- 3 Proactively contributing to creating a sustainable society by fostering a virtuous cycle between the environment and the economy

### Main strategies

- 1 Reducing Own Emissions
- 2 Engagement and Finance Activities
- 3 Managing the Financed Portfolio
- 4 Risk Management and Governance

## Vibrant Society: Response to Aging Population & Low Birthrate

- MUFG is strengthening its group-wide initiatives in financial and economic education for encouraging people to design their own lives and ways of living by making clever decisions grounded on correct information. In FY2025, we held the “MUFG Financial and Economic Seminar” for rugby players affiliated with JAPAN RUGBY LEAGUE ONE, with the aim of supporting them in leading stable lives after retirement. In addition, for elementary, junior high, and high school students, we hosted “MUFG Stadium Tour (Special Edition)” events that combine stadium tours with financial and economic education.

“MUFG Stadium Tour (Special Edition)” Event

## Addressing Social Issues: Introduction of Initiatives

- MUFG aims to contribute to the resolution of social issues through its financial services and, as a result, enhance its corporate value by pursuing both social and economic value as two key pillars. “MUFG Driving Social & Environmental Progress- for our Brighter Future-” introduces examples of initiatives driven by our employees.

## 1. Matters Concerning the Current State of the Company

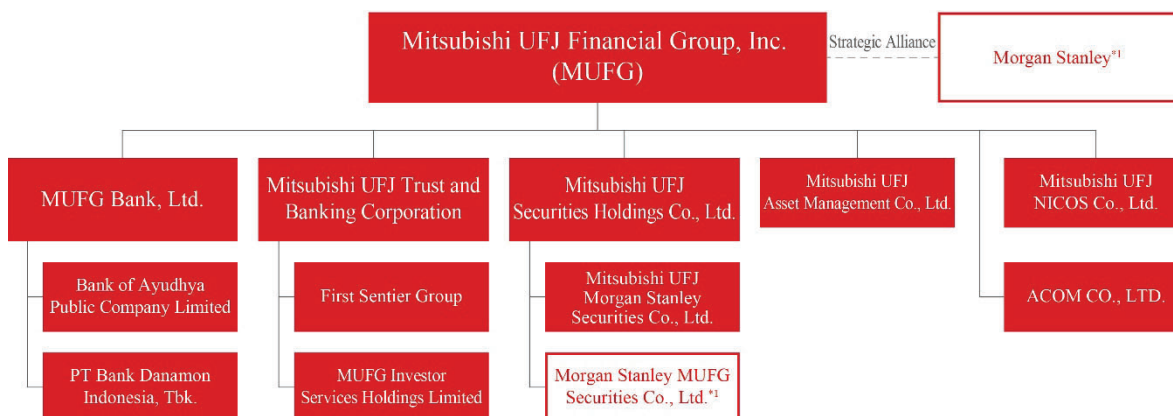

### (1) Business Operations and Results of the Group

#### a. Major Business Matters

The group/MUFG (the “Group”) is a corporate group that is comprised of the Company, 210 subsidiaries, 136 subsidiary entities, etc., and 55 affiliated corporate entities, etc. The Group conducts business in areas that include mainly commercial banking, trust banking and securities, and also credit cards and consumer finance, leasing, and asset management, and other areas, with the aim of becoming the world’s most trusted financial group.

#### b. Financial and Economic Environment

The global economy during FY2025 remained highly uncertain throughout the year, as the unpredictable policy management of the Trump administration in the US continued to affect countries around the world in various ways, including through tariff policies, while geopolitical risks—such as the situation in Russia and Ukraine and developments in the Middle East surrounding Iran—remained prominent. Meanwhile, economic activity driving changes in global economic and social structures, as symbolized by AI-related investment, accelerated. In addition, governments and central banks in various countries took measures to stabilize economic activity and prices, a sharp economic slowdown was avoided, and the global economy as a whole remained resilient. In Japan, despite facing various headwinds, wage growth continued on the back of robust business results and labour shortages. Moreover, as the government demonstrated its stance of promoting increased investment toward the realization of a “strong economy,” capital investment continued to grow, and the economy maintained a moderate recovery trend.

\* 1 Morgan Stanley MUFG Securities Co., Ltd. and Morgan Stanley are equity-method accounted affiliates.

\* 2 This diagram summarizes the relationship between the Company and major Group companies.

Turning to the financial situation, equity prices declined at the beginning of the fiscal year due to a rise in uncertainty triggered by US tariff policies, but subsequently moved generally on a firm trend with fluctuations. However, they weakened toward the end of the fiscal year, reflecting increased tensions in the Middle East and other factors. In the US and Europe, long-term interest rates remained at elevated levels overall, despite central banks

continuing intermittent interest rates cut as in the previous year, on expectations that governments would introduce expansive fiscal policies. In Japan, short-term interest rates rose on the back of rate hikes by the Bank of Japan in December 2025. Long-term interest rates followed an upward trajectory as the Bank of Japan carried out gradual rate hikes and reduced its government bond purchases in stages. The yen generally weakened despite the narrowing interest rate differential between Japan and the US, partly due to expectations of Japan's expansionary fiscal policy. Toward the end of FY2025, the yen further depreciated to around USD/JPY 160 level, driven also by dollar-buying flows amid heightened tensions in the Middle East.

c. Business Operations and Results of the MUFG Group (Results of Fiscal Year 2025)  
Under such environments, with respect to the consolidated results of the MUFG Group in fiscal year 2025, ordinary profits were ¥3,410.1 billion and profits attributable to owners of parent were ¥2,427.2 billion.

Consolidated gross profits were ¥5,944.4 billion, marking an increase of ¥1,125.1 billion from the previous fiscal year. Net interest income was ¥3,006.2 billion, an increase of ¥129.6 billion from the previous fiscal year, mainly due to the increase in net interest income from loans and deposits, the realization of income improvement effects from the rebalancing of the bond portfolio in the previous year, and contribution of overseas acquisitions to income. Trust fees and net fees and commissions income were ¥2,389.9 billion, an increase of ¥299.7 billion from the previous fiscal year, mainly due to increases in income from various fees and commissions in Japan and overseas. Net trading profits (losses) and net other operating profits (losses) were ¥548.2 billion, an increase of ¥695.7 billion from the previous fiscal year, due to the decrease in net losses on debt securities associated with the rebalancing of the bond portfolio implemented in the previous year. G&A expenses were ¥3,567.2 billion, an increase of ¥339.1 billion from the previous fiscal year, due to the impact of the overseas acquisitions, as well as strategic resource investment for growth, impact of inflation, etc. As a result of the above, net operating profits totaled ¥2,377.2 billion, marking an increase of ¥786.0 billion from the previous fiscal year. Total credit costs were ¥355.8 billion, marking an increase of ¥247.1 billion from the previous fiscal year, mainly due to the absence of the reversal of large credit costs overseas recorded in the previous year. Net gains (losses) on equity securities resulted in gains of ¥486.0 billion, a decrease of ¥106.5 billion from the previous fiscal year, due to the absence of the large amount of gains on sale recorded in the previous year, despite the progress in the sale of equity holdings. Equity in earnings of equity method investees increased mainly due to the strong performance of Morgan Stanley, an equity-method affiliate, and resulted in gains of ¥845.5 billion, an increase of ¥248.5 billion from the previous fiscal year. Other non-recurring gains (losses) resulted in gains of ¥57.2 billion, an increase of ¥59.7 billion from the previous year. As for net extraordinary gains (losses), losses of ¥88.0 billion were recorded; however, this represented an improvement of ¥30.8 billion from the previous fiscal year.

As a result of the above, profits attributable to owners of parent were ¥2,427.2 billion, an increase of ¥564.2 billion from the previous fiscal year—which had recorded a record high—and achieving substantial profit growth of more than 30% year on year.

Under the regulatory standard (Basel III), Consolidated Common Equity Tier 1 capital ratio, Consolidated Tier 1 capital ratio, and Consolidated total capital ratio were 12.47%, 14.95%, and 16.85%, respectively. All of these met the required level as of March 31, 2026. The liquidity coverage ratio<sup>\*1</sup> was 146.5%, also meeting the required level. In addition, non-performing loan ratio that shows the soundness of loan assets, remained at a low level of 0.96%.

Annual dividends per common stock for fiscal year 2025 are expected to be ¥86<sup>\*2</sup>, ¥22 higher from the previous fiscal year.

\*1 The index showing adequate ownership of assets (numerator) realizable in a short period sufficient to cover the funds (denominator) expected to flow out in thirty days under stressful circumstances.

\*2 Assuming that the year-end dividend for fiscal year 2025 is approved at the Annual General Meeting of Shareholders to be held on June 26, 2026.

### (Operations and Results by Business Group)

In order to demonstrate the strengths of its comprehensive financial group, the MUFG Group has introduced the business group system in which our group companies coordinate closely to formulate group-wide strategies and promote businesses. Each business group designs strategies that integrate the strengths of group subsidiaries and implements measures in order to meet a broad range of customer needs.

## Retail & Digital

### Overview of the Business Group

Responsible for individual customers (excluding wealth management), expanding touchpoints by optimally mixing the real, remote and digital channels to provide services that align with customer needs throughout their life, for every life stage.

### Overview of Results in FY2025

Following the launch of the new service brand “Emut,” the customer base, including accounts and cards, steadily expanded. Although expenses increased due to investments in infrastructure development for future growth, income increased, driven by the rise in JPY interest rates and expansion in the consumer finance business. As a result, net operating profits remained largely unchanged at ¥285.9 billion.

## Commercial Banking & Wealth Management

### Overview of the Business Group

Provide a broad range of financial services to meet the diverse needs of corporate and wealth management clients in Japan, including lending, payment and settlement services, M&A advisory, inheritance-related services, real estate, and asset management. Also offer solutions for business and asset succession through Group-wide collaboration.

### Overview of Results in FY2025

Net operating profits increased by ¥110.0 billion, driven by higher net interest income due to rising yen interest rates, growth in asset management-related revenue supported by favorable equity market conditions, and an increase in solution-related revenues, including event finance opportunities arising from clients' capital strategy needs.

## Japanese Corporate & Investment Banking

### Overview of the Business Group

Offer services such as lending, settlement, and forex, as well as comprehensive solutions with full advantage of each Group company's expertise in respective fields such as businesses related to M&A and real estate, to major Japanese corporations, contributing to enhancing customers' corporate value through these services.

### Overview of Results in FY2025

Net interest income grew by capturing corporate actions such as M&A amid favorable market conditions and taking advantage of related financing opportunities, in addition to pricing management that captured changes in the interest rate environment. Non-interest income also increased through the provision of solutions leveraging the Group's consolidated strength and enhanced risk-taking capabilities. As a result, net operating profits increased by ¥70.4 billion.

## Global Commercial Banking

### Overview of the Business Group

Provide financial services to corporations expanding into the Asia region as well as to local SMEs and individuals through the conventional financial platform (Krungsri (Bank of Ayudhya), Bank Danamon, VietinBank, Security Bank, and Shriram Finance) and through digital investees in the digital financial platform.

### Overview of Results in FY2025

Krungsri offset the decline in gross profit due to interest rate cuts through the consolidation of TIDLOR<sup>\*1</sup> and an increase in non-interest income. Bank Danamon achieved higher profits driven by growth in loans and deposits, as well as the contribution from the merger with MFIN.<sup>\*2</sup> Although net operating profits for the entire business group declined, they increased excluding the impact of the change in consolidated closing period of KS.<sup>\*3</sup>

\*1 TIDLOR Holdings Public Company Limited

\*2 PT Mandala Multifinance Tbk

\*3 Impact resulting from the change in Krungsri's closing period from January–December to April–March effective from FY2024. Net operating profits for FY2024 includes results for a 15-month period (approx. ¥80.0 billion impact)

## Asset Management & Investor Services

### Overview of the Business Group

Provide consulting employing sophisticated specialist know-how, and strive to improve capabilities in asset management and product development in the areas of AM\*1, IS\*2 and pensions to meet diverse needs from customers in Japan and overseas.

### Overview of Results in FY2025

In the AM business, income increased, supported by growth in alternative investment income and continued net inflow of funds into domestic investment trusts. In the IS business, the compound offering of high value-added services in Japan and overseas made progress. In the pension business, the defined contribution pension business grew. As a result, net operating profits increased by ¥17.0 billion.

\*1 Asset Management \*2 Investor Services

## Global Corporate & Investment Banking

### Overview of the Business Group

Operating the Corporate & Investment Banking (CIB) business that offers value-added solutions for large global corporate and financial institution clients by leveraging our extensive network and product capabilities through an integrated business model mainly among the Bank and the Securities.

### Overview of Results in FY2025

While further advancing the evolution of the asset velocity model, resources were allocated to strategic areas such as digital infrastructure and energy projects linked to real demand. As a result, improvements in both the volume and quality of loans, a significant increase in fees and commissions income, and efficient expense management were simultaneously achieved. Consequently, net operating profits rose by ¥119.4 billion.

Global Markets

Overview of the Business Group

Primarily engage in Sales & Trading operations that provide products and solutions such as Currencies, Fixed Income Instruments and Equities and related Derivatives and trade these products in markets, and Treasury business\*1 that manage MUFG's own assets, liabilities and various risks.

Overview of Results in FY2025

In Sales & Trading business operations, income was gained at a high level by steadily expanding transactions with customers, capturing the opportunities presented by increased volatility in foreign exchange, equity, and interest rate markets. In Treasury business, results were partly affected by a rebound from the previous fiscal year, when bonds with unrealized losses were sold to improve future returns. As a result, net operating profits of the business group increased significantly by ¥622.4 billion year on year.

\*1 ALM operations that manage interest rate risks or liquidity risks in assets (e.g., loans) and liabilities (e.g., deposits).

d. Key Issues

Japan faces structural challenges such as a declining birth rate, an aging society and a shrinking population. At the same time, AI and other digital technologies have rapidly developed and penetrated our daily lives, the social and economic structure is being transformed through more sophisticated use of data, and work style and values have become more diverse, all of which are accelerating as megatrends. Meanwhile, the business environment surrounding our company is changing significantly amid the growing fragmentation reflected in heightened geopolitical risks and a reversal of globalization, as well as rising yen interest rates. Under these circumstances, it is necessary to identify the impact of policies in Japan and other countries around the world on the macro economy and financial markets.

MUFG seeks to correctly understand these situations with clear eyes and to fully demonstrate our ability to facilitate “connections,” leveraging its extensive network and diverse solutions, to become a leading force in the new era. Taking the opportunity by this major environmental change surrounding MUFG’s business, the current Medium-term Business Plan for the three-year period beginning in fiscal year 2024 is positioned as three years to pursue and produce “growth.” As a result of this, we will continue to strive to meet expectations of all our stakeholders—including customers, shareholders and employees—by achieving higher profitability, improved return on equity, and our purpose of being “committed to empowering a brighter future.”

**1. Fundamental Direction**

In our current Medium-term Business Plan, building on strategic initiatives launched in our previous Medium-term Business Plan, we will focus on both growth strategies and social and environmental solutions, supported by transformation and innovation.

In this era when geopolitical risks, reversal of globalization and other forms of division emerge, we aspire to maximize MUFG’s ability to facilitate connections, leveraging its extensive network and diverse solutions, to produce economic and social value, as we strive to realize our Purpose of being “committed to empowering a brighter future.”

## 2. Financial Targets and Capital Policy

In our current Medium-term Business Plan, we have positioned ROE as the most important financial target. In light of our recent strong performance and changes in the business environment, we have revised the financial targets under the plan and set our ROE target for fiscal year 2026 at approximately 12%. While this level is comparable to our medium- to long-term target, the underlying assumptions differ, including the presence or absence of gains on sales of equity holdings. Accordingly, we will continue to focus on profits, expenses, and RWA as the three key drivers in our efforts to improve ROE.

Our basic policy for capital allocation calls for striking an appropriate balance from three perspectives: solid equity capital adequacy, strategic investments for sustainable growth, and the further enhancement of shareholder returns.

Regarding shareholder returns, we have established “Basic policies for shareholder returns,” which continuously seek to improve shareholder returns, focusing on dividends. MUFG will set a dividend payout ratio at around 40%, and aim for a stable and sustainable increase in dividends per share through profit growth as a fundamental policy. At the same time, MUFG will flexibly repurchase stock as a measure to return profits to shareholders that will contribute to improving capital efficiency, taking into consideration its business performance and capital situation, opportunities for investment in growth, and the market conditions, including the share prices.

In principle, MUFG will not hold treasury stock in excess of approximately 5% of the total shares outstanding and shall cancel shares exceeding such amount.

### ■ ROE Targets and Capital Management Targets

### ■ Drivers for Achieving ROE Targets (Profits)

Figures in bold indicate revisions made in this review

	FY2025 Results	FY2026 Targets	Medium- to Long-Term Target			
ROE	11.3%	<b>Approx. 12%</b>	Approx. 12%	Profits	Net operating profits*2	<b>¥2.5 trillion</b>
CET1 capital ratio (Finalized and fully implemented <sup>(1)</sup> )	9.2%	9.5–10.5%			Profits attributable to owners of parent	<b>¥2.7 trillion</b>

\*1. Estimated on the regulations to be adopted at the end of March 2029 following finalization of Basel III framework (fully implemented). Excluding net unrealized gains on available-for-sale securities.

\*2. Consolidated net operating profits on a managerial accounting basis.

### 3. Promoting Key Strategies

In order to make the current Medium-term Business Plan the three years to pursue and produce “growth,” we formulated seven key strategies for “Expand & Refine Growth Strategies” and four key strategies for “Accelerate Transformation & Innovation” among the three pillars of the Medium-term Business Plan.

For “Expand & Refine Growth Strategies,” in Japan, we will maximize life-time values by strengthening our retail customer base, while enhancing the succession business through the corporate x WM business model. Overseas, we will strive for higher profitability by evolving our GCIB and Global Markets integrated business model, and seek to seize opportunities arising from Asia’s economic growth by strengthening our collaboration with partner banks. In addition, we will produce both economic and social value through initiatives to contribute to making Japan a leading asset management center, and through value chain support in green transformation, while also taking on the challenge of building a new business portfolio for medium- to long-term growth.

For “Accelerate Transformation & Innovation,” we will strive to strengthen our corporate infrastructure such as by accelerating transformation of our corporate culture including agility, expanding human capital investment, increasing system development capacity, and enhancing AI/data infrastructure, while further improving our risk management and compliance.

## (2) Compensation, etc. for Company Executives

### Policy on Decisions on the Contents of Compensation for Individual Executives, etc. (revised May 15, 2026)

#### 1. Context of the Policy

The Company's Compensation Committee has prescribed this policy on decisions on the contents of compensation for individual Members of the Board of Directors, Corporate Executives and Executive Officers ("Executives, etc.") (the "Policy") in accordance with the provisions of the Companies Act with regard to a company with three committees. The outline of the Policy is as below. In addition, major subsidiaries of the Company have each prescribed a similar policy based on the Policy of the Company.

#### 2. Decision-Making Organization for the Policy

The Company, as a company with three committees, has established a Compensation Committee. The Compensation Committee comprises independent Outside Directors and a director who concurrently serves as President & Group CEO (Representative Corporate Executive) and is chaired by an independent outside director.

#### 3. Summary of the Policy

##### 1) Philosophy and Objective

The MUFG Group has defined as its Purpose "Empowering a brighter future." The value that should be shared among all our directors, officers and employees (Values) is "Integrity and Responsibility, Professionalism and Teamwork, Challenge and Agility." In addition, our medium- to long-term vision (Vision) is "to be the world's most trusted financial group." Furthermore, in the Medium-term Business Plan (FY2024–FY2026), we positioned the three years as the period to pursue and produce "growth" more aggressively. We will aim to realize our Purpose by promoting the three pillars, "Expand & Refine Growth Strategies," "Drive Social & Environmental Progress," and "Accelerate Transformation & Innovation," as well as by serving as a "bridge" to produce economic and social value.

The Policy serves many purposes. It is intended to drive measures taken by Executives, etc. for realizing the Purpose and the management policy above; to facilitate improvement of our business resilience and competitiveness, enabling sustainable growth and the medium- to long-term enhancement of the enterprise value of the MUFG Group, and further advance the Group's sustainability management; and to serve as an appropriate incentive for each of the Executives, etc. according to their roles and responsibilities, to further motivate Executives, etc. to contribute not only to the short-term but also to the medium- to long-term improvement of financial results, while preventing excessive risk-taking as a financial institution.

## 2) Compensation Level

We determine the level of compensation for executives that is competitive and appropriate for the Company and its subsidiaries taking into consideration the economic and social context, industry trend, management environment of the MUFG Group, and status of financial results, as well as human resources markets in the country where the Executives, etc. are appointed and other important factors, and upon referencing the objective research data of third-party, specialist agencies.

Compensation levels by position (excluding Outside Directors and Directors who are Audit Members) have been set according to a compensation system in which compensation amounts for each type of compensation decrease in descending order of position, with the President & CEO being the highest-paid individual followed by the Chairman, the Deputy Chairman, Deputy President, Senior Managing Corporate Executive, Managing Corporate Executive and Executives without titles. Furthermore, "Director and Corporate Executive Allowances" and "Committee Member (Chairperson) Allowances" and similar allowances are added according to the roles and responsibilities of each of the Executives, etc.

## 3) Composition, Structure and Contents of Compensation, etc.

- In principle, compensation for the Company's Executives, etc. is composed of three types: "annual base salary" (fixed), "performance-based stock compensation" (linked to stock price and medium- to long-term performance) and "cash bonuses" (linked to short-term performance). The proportion of each compensation type is properly specified based on the philosophy and objective above as well as the contents of the duties of such executives.
- In the stock compensation plan, the Company's shares are issued to Executives, etc. by means of the trust structure. Stock compensation has been implemented in fiscal year 2016 as a common Group-wide new medium- to long-term incentive plan.
- The proportion of the President & CEO's compensation since fiscal year 2018 is balanced among these three types of compensation: "annual base salary : performance-based stock compensation : cash bonus = 1 : 1 : 1." (In case the stock compensation and cash bonus are paid in base amount).
- The proportion of compensation by position has been set according to a compensation system in which the proportion of the performance-based compensation decreases in descending order of position, with the President & CEO being the individual with the highest proportion of performance-linked compensation (approx. 67%) followed by the Chairman (approx. 60%), the Deputy Chairman (approx. 60%), Deputy President (approx. 60%), Senior Managing Corporate Executive (approx. 57.5%), Managing Corporate Executive (approx. 55%) and Executives without titles (approx. 50%).

- Performance-based stock compensation and cash bonuses are subject to confiscation (malus) for the unpaid portion and restitution claim (clawback) for the paid amount in the following cases: material breach of delegation agreements between the Company and Executives, etc. regarding the duties of Executives, etc., retiring from their offices for personal reasons during the terms of offices against the Company's will, and the Board of Directors resolving on retrospective correction to account settlement as a result of material faults or misconduct on accounting.
- Outside Directors who take on the role of overseeing and monitoring management and directors serving as audit members are not eligible to receive stock compensation or cash bonuses in consideration of the contents of their duties.
- Regardless of the above, compensation for Executives, etc. who are hired locally outside Japan is individually designed in order to prevent excessive risk taking, taking into account compensation regulations, compensation practice, the local market rate and other related factors in the relevant overseas region, as well as the job contents and characteristics of the duties of such Executives, etc.

\*1 To incentivize efforts to improve MUFU’s earnings power, capital efficiency and profit structure, each of which is considered a management issue requiring the utmost priority, the degree of achievement vis-à-vis target levels stipulated in the Medium-term Business Plan (MTBP) regarding consolidated ROE and consolidated expense ratio is determined on an absolute evaluation basis. (See illustration on the right)

\*2 To incentivize efforts to advance sustainability management, MUFU sets these as its unique set of ESG indices to reduce Group/Global GHG emissions from own operations, improve its employee survey scores, and raise the ratio of women in management. Additionally, the degree of improvement (three-year period) in external ratings granted by five major ESG rating agencies is evaluated on a relative basis, with the aim of objectively assessing contribution to MUFU’s various ESG initiatives.

\*3 To enhance enterprise value over the medium to long term and share interests with shareholders, MUFU will conduct relative (three-year) TSR assessments compared to TOPIX (including dividends) and major competitors.

\*4 By conducting a relative comparison of the growth rate of “Consolidated net operating profits,” which is an indication of the profitability of mainstay operations, and “Profits attributable to owners of parent,” the ultimate result of management, with other major competitors (Mizuho Financial Group, Inc. and Sumitomo Mitsui Financial Group, Inc.), the contribution of management excluding external environmental factors such as market factors is evaluated as milestones for each fiscal year.

\*5 To enhance profitability and capital efficiency of mainstay operations, which is one of the MUFU Group’s most important management issues and to drive the improvement of its earning structure, the “Year-on-year change rate” and the “Target achievement rate” of the above four indices (the ratio of the year-on-year change rate and the target achievement rate is 1:1) are evaluated as the business performance for the year.

- (Notes)
- All figures have been rounded down to the nearest unit.
  - The compensation, etc. paid to Corporate Executives who concurrently serve as Members of the Board of Directors is described in the column of Corporate Executive.
  - The Company introduced a performance-based stock compensation plan using a structure called Board Incentive Plan as Non-cash compensation. Total stock compensation in the table above includes expenses associated with the right to receive shares granted under the plan and the amounts of compensation provided during fiscal year 2025. (Please refer to the chart on the previous page for details of the stock compensation plan.)
  - Compensation for Outside Directors from the Company's parent company (including subsidiaries), etc. is not applicable.
  - The targets and achievement ratio of each index of the performance-based stock compensation under the current Medium-term Business Plan (from fiscal year 2024 to fiscal year 2026) are as follows.

Time span for evaluation	Performance indices	Weight	Targets, etc.	Achievement ratio					
				Fiscal year 2024		Fiscal year 2025		Fiscal year 2026	
				Per index	Total evaluation	Per index	Total evaluation	Per index	Total evaluation
Single fiscal year	Consolidated net operating profits	25%	Determined based on comparisons with competitors	60%	77%	140%	122%	—	—

	ESG assessment	10%	Absolute and relative assessments of the degree of improvement (three-year period)	—					
	TSR	5%	Relative comparison with TOPIX and competitors	—					

- The evaluation indices of business performance for each previous fiscal year to determine the cash bonuses paid to the President during fiscal year 2023 to fiscal year 2025 are as follows. The evaluation method of the business performance of fiscal year 2025 is the same, in principle.

Performance indices	Weight	Fiscal year 2023 bonuses		Fiscal year 2024 bonuses		Fiscal year 2025 bonuses	
		Achievement	Payment ratio	Achievement	Payment ratio	Achievement	Payment ratio
<Total evaluation>	100%	102.3%	112.5%	104.3%	112.5%	96.1%	100.0%
Quantitative evaluation (the combination of four indices, including consolidated ROE)	60%	103.8%	—	113.8%	—	100.1%	—
Qualitative evaluation	40%	100.0%	—	90.0%	—	90.0%	—

**Reason for the Compensation Committee to Determine That the Contents of the Compensation of Individual Executive Officers, etc., are in Accordance with the Policy**

The Company, upon determining the Policy at the Compensation Committee, has been conducting ongoing reviews of the executive compensation system from a multilateral perspective including the economic and social context, the business performance of the Company and the MUFG Group, and its consistency with the Policy which provides appropriate incentives but prevents excessive risk-taking. Accordingly, the Compensation Committee has determined that the contents of the compensation of individual Executive Officers, etc., which have been determined according to the executive compensation system are in accordance with the Policy.
