Shareholder Benefit Program ("MUFG Shareholder Club")

Tokyo, March 29, 2007 --- Mitsubishi UFJ Financial Group, Inc. (MUFG) hereby announces that its Board of Directors today resolved to launch a shareholder benefit program, as outlined below, for which the initial record date has been set as of September 30, 2007.

1. Purpose of Shareholder Benefit Program

Individual investors play an increasingly important role in the expanding equity markets today. In order to achieve our medium- and long-term objective of maximizing our corporate value, we believe it critical to broaden our shareholder base by making our stock more accessible to potential individual shareholders.

Based on this belief, we recently decided to reduce our minimum stock investment unit,* effective as of Sunday, September 30, 2007, for the purpose of providing enhanced opportunities for investment in our stock. In addition, in order to encourage our shareholders to be long-term shareholders, we have also decided to launch a new shareholder benefit program for which the initial record date has been set as of the same date.

* Our minimum ordinary stock investment unit will be reduced to one-tenth of the current unit through a stock split by which one share will be split into 1,000 shares and the adoption of a unit share system under which one unit of our ordinary stock will be comprised of 100 shares. (This investment unit reduction is subject to the approval by our shareholders of amendments to our Articles of Incorporation to increase the total number of authorized shares and address other related matters, at a shareholders' meeting scheduled to be held in June 2007.)
