### MUFG Revises Medium-term Business Plan Financial Target

**Tokyo, May 15, 2026** --- MUFG today announced that it has revised a financial target under its Medium-term Business Plan (“MTBP”) for the three-year period beginning in FY2024, to take into account recent business performance trends.

#### 1. Revision of Financial Target

##### (1) Financial target under the Medium-term Business Plan

	ROE for FY2026*1
Previous target	Approximately 9%
Revised target	Approximately 12%

##### (2) Background to the Revision

MUFG positions the current MTBP period as “three years to pursue and produce growth” and has been expanding and refining its growth strategies, strengthening efforts to drive social and environmental progress, and accelerating transformation and innovation.

In FY2024, the first year of the MTBP, MUFG achieved an ROE of 9%, achieving the target for FY2026 early. Accordingly, MUFG began reviewing this financial target in early FY2025. However, in light of increasing uncertainty in the external environment, MUFG decided at the time to carefully reassess the situation and to make and disclose any revision at the appropriate time.

While uncertainties persist in the business environment, performance is expected to exceed initial projections. Therefore, MUFG has decided to upwardly revise its ROE target. MUFG will continue its efforts to achieve its MTBP targets and enhance corporate value through sustainable growth and improved profitability.

\*1 The previous target was based on ROE as defined by MUFG, whereas the revised target is based on ROE as defined by the Tokyo Stock Exchange.

ROE (MUFG definition):

Profits attributable to owners of parent for respective FY
